1. General information

UAC of Nigeria PLC (the "Company") is a company incorporated and domiciled in Nigeria. The Company is a public limited company listed on The Nigerian Exchange Limited and its registered office is at 1-5 Odunlami Street, Marina, Lagos.

UAC of Nigeria PLC and its subsidiaries (together "the Group") is a diversified business with activities in the following principal sectors: Animal Feeds and Other Edibles, Paints, Packaged Food and Beverages, and Quick Service Restaurants.

2. Summary of Material Accounting Policies

2.1 Basis of Preparation

This condensed consolidated financial statement has been prepared in accordance with IAS 34 Interim Financial Reporting. The financial statements have been prepared on a historical cost basis except for investment property measured at fair value; financial instruments measured at fair value through other comprehensive income; Inventories measured at the lower of cost and net realisable value; Long term employee benefits measured at present value of the obligation and Equity settled share based payment expenses measured at fair value at the grant date.

2.2 Accounting Policies

The accounting policies adopted are consistent with those for the year ended 31 December 2025.

2.3 Estimates

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2025.

2.4 Financial Risk Management

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

This condensed consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Group's annual financial statements as at 31 December 2025. There have been no changes in the risk management structure since year end or in any risk management policy.

2.5 Securities Trading Policy

In compliance with Rule 17.15 Disclosure of Dealings in Issuers' Shares, Rulebook of the Exchange 2015 (Issuers Rule), UAC of Nigeria PLC maintains an effective Security Trading Policy which guides Directors, Audit Committee members, employees and all individuals categorized as insiders as to their dealing in the Company's shares. The Policy is regularly reviewed and updated by the Board. The Company has made specific inquiries of all the directors and other insiders and is not aware of any infringement of the policy during the period.

2.6 Management Assessment of Internal Control

The management of UAC of Nigeria PLC and its subsidiary companies are responsible for establishing and maintaining adequate internal control over financial reporting. The Group's internal control system was designed to provide reasonable assurance to the Board of Directors regarding the preparation and fair representation of published financial statements. The Group's internal controls were assessed within the reporting period and were deemed to be effective as of 31 December 2025. Management is not aware of any material changes during the period ended 31 March 2026.

2.7 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective. Several amendments apply for the first time in 2026, but do not have an impact on the condensed consolidated financial statements of the Group.

3. Segment Analysis

The Group

The chief operating decision-maker has been identified as the Executive Committee (EXCO), made up of the management of the Company. The EXCO reviews the Group's internal reporting in order to assess performance and allocate resources.

Management has determined the operating segments based on these reports.

The Group has identified the following as segments:

Edibles & Feed- Made up of business units involved in the manufacturing and sale of livestock feeds and edible oil.
Paints - Made up of a business unit involved in the manufacturing and sale of decorative and protective paints.
Packaged Food & Beverages - Made up of business units involved in the manufacturing and sale of bottled water, snacks, ice-cream, packaged juice and packaged dairy products.
QSR (Quick Service Restaurants) - Made up of a business unit involved in the making and sale of snacks and meals.
Others - This is a non-reportable segment made up of the corporate head office.

The following measures are reviewed by Exco; with **Profit Before Tax** taken as the segment profit.

- Revenue from third parties
- Operating profit
- Profit / (loss) before tax
- Property, plant and equipment
- Net assets / (liabilities)

a. Acquired from Business Combination (Customer relatlonship and Brand)

The following intangible assets were identified for the allocation of the purchase price paid for the acquisition of C.H.I. Limited.

	N'000
1. Brands	102,100,000
2. Customer relationship	63,400,000
	165,500,000

These assets were identified and separately recognised as they meet the separability and contractual-legal criteria under IFRS 3. The valuation of brands was performed using the relief-from-royalty method, while customer relationships were valued using the multi-period excess earnings method. Key assumptions applied include forecast revenues, royalty rates, attrition rates, and discount rates.

Customer relationships are amortised over their estimated useful lives of 15 years, reflecting expected customer retention patterns. Brands are assessed as having finite useful lives of 20years and are accounted for accordingly.

Management reviews the useful lives and residual values of these assets annually and assesses them for indicators of impairment in accordance with IAS 36 - Impairment of Assets.

The Group invested in Eurobond assets with the business model of solely holding for principal and interest payment and designated as debt instrument at amortised cost. The Eurobond assets were disposed in prior year to fund the acquisition of C.H.I. Limited.

The Group invests only in quoted debt securities with low credit risk. The Group's debt instruments at amortised cost comprised solely of quoted Eurobonds that are rated by reputable Credit Rating Agencies. The Group released all provision for expected credit losses on its debt instruments at amortised cost following the disposal of the Eurobonds.

17. Right of return assets and refund liabilities (continued)

Right of return of assets
Right of return asset represents the Group's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Group updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products.

Refund liabilities
A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Group ultimately expects it will have to return to the customer. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting year. Refer to above accounting policy on variable consideration.

18a. Right of use assets
The Group has lease contracts for various items of land and building and machinery and other equipment used in its operations. Leases of land and building generally have lease terms between 1 and 45 years, while machinery and other equipment generally have lease terms between 3 months and 5 years.

Trade receivables are non-interest bearing and are generally due for settlement within 30 days and therefore are all classified as current. They are amounts due from customers for goods sold or services performed in the ordinary course of business.

Other receivables relate to transactions such as advances to staff and VAT receivables. Interest may be charged at commercial rates where the terms of repayment exceed six months. Collateral is not normally obtained. If collection of the amounts is expected in one year or less they are classified as current assets. If not, they are presented as non-current assets.

Advance payments are mobilisation fees made to contractors for the supply of goods and services.

Prepayments - other relates to prepaid expenses that are amortised over a period and import prepayments.

Expected credit losses on cash and cash equivalents	(706)	(160)
	77,562,352	**50,910,619**

Cash at banks earns interest at floating rates based on daily bank deposit rates.

Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Group, and earn interest at the respective short-term deposit rates.

In 2015, The Securities and Exchange Commission directed all Registrars to return all unclaimed dividends, which have been in their custody for fifteen months and above, to the paying companies. Included in the cash and short-term deposits is ₦1.2bn which represents unclaimed dividends received from the registrars as at the reporting date (December 2025: ₦1.2bn).

The Finance Act 2020, which became effective on 1 January 2021, requires public limited liability companies quoted on the Nigerian Exchange Limited to transfer any unclaimed dividend that has remained unclaimed for a year not less than 6 years to the Unclaimed Dividend Trust Fund (the "Trust Fund"). In 2025, the group transferred ₦4.1bn in compliance with the Act.

(i) Reconciliation to statement of cash flow

Closing balance	**68,433,421**	**68,540,950**

The Group has tax losses of ₦3,186,039,473 (2025: ₦3,186,039,473) that are available indefinitely for offsetting against future taxable profits of the Company in which the losses arose. Deferred tax assets have not been recognised in respect of these losses as they may not be used to offset taxable profits elsewhere in the Group. Additionally, they originated in a subsidiary that has been loss-making for some time, and there are no other tax planning opportunities or other evidence of recoverability in the near future. On this basis, the Group has determined that it cannot recognise deferred tax assets on the tax losses carried forward.

Decommissioning liability

UAC Restaurants has several leasehold properties converted to restaurants, which are required by agreements to be restored to original condition upon the expiration of the lease. The provision for Decommissioning liability represents an estimate of the cost involved in restoring these leased properties at the expiration of the lease. The provision is an estimate based on management's re-assessment of the amount of the liability that will be incurred at the end of each lease term. Variables such as inflation rates and currency exchange rates amongst others were considered in this estimate.

The discount rate for the unwinding of the discount on liability was determined using the 10-year government bond yield of 19% (2025: 19%). The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The discount rates did not reflect risks for which future cash flow estimates have been adjusted.

Contingent liabilities

The Group is engaged in lawsuits that have arisen in the normal course of business. The estimated contingent liabilities arising from these pending litigations amounted to ₦1.2 billion (2025: ₦1.2 billion). The Group has assessed these claims and believe that no material loss will arise from them. Accordingly, no additional provision has been recognised in the financial statements.

29(b) Other long term employee benefits

In 2024, a long term incentive plan was approved and implemented for Grand Cereals limited, CAP Plc, Livestock Feeds Plc, and UAC Foods Limited with the primary purpose of incentivising growth across the businesses and staff retention.

Under the scheme, participants have a target incentive amount over the life of the plan (5 years), based on achievement of target profits set with reference to the business plan. The cumulative excess profit is calculated after 3 and 5 years, with the target incentive amounts being earned if the cumulative plan earnings are achieved. Proportionately higher amounts can be earned if the target is exceeded. The whole incentive pot is tested after 5 years with half tested after 3 years and any value earned after 3 years is deducted from the value earned after 5 years (with a zero floor on the net earnings after 5 years).

29(c) Defined benefit gratuity
C.H.I. Limited, one of the entities within the Group, operates a defined benefit gratuity plan for qualifying employees in Nigeria. This defined benefit gratuity plan is a final salary plan for Nigerian employees. The liabilities in respect of the retirement benefits are provided for and the Company has set out an investment that will be applied for settlement of the liabilities. The defined benefit gratuity plan is operated voluntarily as it is not required by any legislation in Nigeria. The gratuity plan is monitored by the Company's management.

The level of benefits provided depends on the member’s length of service and salary at retirement age. Since the gratuity liability is adjusted to consumer price index, the gratuity plan is exposed to Nigeria’s inflation, interest rate risks and changes in the life expectancy for pensioners.

The most recent actuarial valuations of the present value of the defined benefit obligation were carried out at 31 December 2025 by Logic Professional Services with FRC/2025/COY/562144 and the report was signed by Chidiebere Orji with FRC/2023/PRO/NAS/004/00000022718 of Logic Professional Services, Lagos, Nigeria.

(c) Fair value reserve
The fair value reserve relates to the cumulative net change in the fair value of financial instruments at fair value through other comprehensive income until the assets are derecognised.

(d) Other reserve

Other reserve relates to the cumulative net change in the fair value of property, plant and equipment prior to the adoption of IFRS. On adoption of IFRS, the cost and revaluation surplus was taken as deemed cost and no subsequent revaluations are required.

(e) Equity settled share based payment reserve
In 2021, the Company introduced a Long Term Incentive Plan (“LTIP”) using the value creation plan (“VCP”) model under which eligible employees (“Participants”) are awarded ordinary shares of the Company subject to delivering exceptional shareholder value.

The value creation plan (“VCP”) was designed to incentivise employees to deliver exceptional returns for shareholders over a five-year period. The model is aimed at ensuring that UAC attracts, retains, and motivates talented employees with the mindset of owners and to align the interests of employees and shareholders with performance measured by the management team’s ability to maximise shareholder value.
Under the VCP, Participants will receive, in the form of ordinary shares in the Company, a proportion of the value delivered for shareholders over a five year-period, provided that the Company delivers a minimum total shareholder return (“TSR”) of 18% per annum. Should this return be delivered, an incentive pot equal to 10% of the value created will be distributed to Participants.

(f) Investment in scheme shares
On the first measurement date of 1 July 2024, the condition for the award of the LTIP shares was met and after board approval, a total of ₦2.6 billion was used to purchase shares for eligible employees by the Trustees. Of this amount, ₦1.4 billion worth of shares were allocated to employees as settlement for the 2024 vested shares, while the remaining shares valued at ₦1.2 billion are being held by Trustees for the benefit of the employees' Long Term Incentive Plan as at the end of 2024.

In 2025, the Trustees utilised ₦4.5 billion to purchase additional shares for eligible employees under the Company’s Long-Term Incentive Plan (LTIP). Following the satisfaction of the vesting conditions and subsequent Board approval, shares valued at ₦2.2 billion were allocated to employees in settlement of the 2025 vested awards.

The number and weighted-average exercise prices of shares have been detailed in table below:

33 Business Combination

On 3 October 2025, UAC of Nigeria PLC completed the acquisition of 100% of the issued equity interests in Chivita|Hollandia (C.H.I. Limited) following receipt of the required approval from the Federal Competition and Consumer Protection Commission (FCCPC). C.H.I. Limited is a leading juice and dairy company operating in Nigeria. The acquisition was effected through a wholly owned special purpose vehicle, UAC Food and Beverages Company Limited (UFB).

In accordance with the Share Purchase Agreement (SPA), a total cash consideration of N182.4 billion was paid to The Coca-Cola Company (TCCC) for the acquisition of 301,000,000 ordinary shares, representing 100% of the issued share capital of C.H.I. Limited.

The purchase price allocation was finalised in 2025. All transaction costs relating to the acquisition were expensed as acquisition-related costs within other operating expenses (see Note 8), in accordance with IFRS 3 and the Bargain purchase gain from the acquisition was recognised as part of other operating income.

In determining the allocation of the purchase price, management recognised the fair valuation of the following identifiable intangible assets:
a. Brands
b. Customer relationship

The valuation techniques used for measuring the fair value of material assets acquired were as follows:

- **Property, plant and equipment (PPE):** Market comparison and cost were the valuation technique adopted for PPE as an open market valuation was carried out for the acquired land and building and for other asset categories, the book value was adopted as its fair value.
- **Intangible assets:** The valuation of brands was performed using the relief-from-royalty method, while customer relationships were valued using the multiperiod excess earnings method. Key assumptions applied include forecast revenues, royalty rates, attrition rates, and discount rates.
- **Inventories:** The net realisable value of inventory was adopted and a write down of N22.9bn was recognised.
