Employment and employees

a) **Employment of physically challenged persons**
The Group has no physically challenged persons in its employment. However, applications for employment by physically challenged persons are always fully considered bearing in mind the respective aptitudes and abilities of the applicants concerned. In the event of members of staff becoming physically challenged, every effort is made to ensure that their employment with the Group continues and that appropriate training is arranged. It is the policy of the Group that the training, career development and promotion of physically challenged persons should, as far as possible, be identical with that of other employees.

b) **Health, safety and welfare at work**
The Group invests its resources to ensure that the hygiene of its premises is of the highest standard. The Group also established various forms of insurance policies, including company personal accident insurance to adequately secure and protect its employees.

c) **Employee involvement and training**
The Group places considerable value on the involvement of its employees and has a practice of keeping them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. The Group has in-house training facilities complemented when and where necessary with additional facilities from educational institutions for the training of its employees.

09092154179	-	(Chairperson, Finance & Risks Management Committee)

The details of the policy are hosted on the company's website.

Securities Trading Policy

The Board has a Securities Trading Policy which is applicable to all employees, directors, audit committee members and connected employees of auditors, consultants and contractors of the company and its subsidiaries. The terms of the policy are no less exacting than the standard set in the Listing Rules of The Nigerian Exchange. A copy of the policy is on the company's website.

Independent Auditors

During the Annual General Meeting of 26th September, 2023; a resolution was passed for the appointment of Messrs. Crowe Dafinone as the External Auditors of the Company in accordance with Section 401 of the Companies and Allied Matters Act, 2020. A Resolution was also passed authorising the Directors to determine their remuneration.

BY ORDER OF THE BOARD

Michael Olabode
FRC/2022/PRO/NBA/002/23356
Company Secretary
18, Fatai Atere Way, Matori
Lagos, Nigeria

Dated: 26th March, 2026

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RELATION TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025

In accordance with the provisions of the Companies and Allied Matters Act, 2020 and the Financial Reporting Council of Nigeria (Amendment) Act, 2023, the Directors are responsible for the preparation of consolidated and separate financial statements which give a true and fair view of the state of affairs of the Group at the end of the year and its profit or loss for the year ended on that date.

The responsibilities include ensuring that:

i. The Group keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the Group and comply with the requirements of the Companies and Allied Matters Act, 2020.

ii. Appropriate and adequate internal controls are established to safeguard its assets and to prevent and detect fraud and other irregularities;

iii. The Group prepares its Consolidated and separate Consolidated and separate financial statements using suitable accounting policies supported by reasonable and prudent judgments and estimates that are consistently applied; and

iv. It is appropriate for the Consolidated and separate financial statements to be prepared on a going concern basis.

The Directors accept responsibility for the preparation of the consolidated and separate financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates in accordance with the International Financial Reporting Standards; in compliance with the provisions of the Financial Reporting Council Act 2023 and in the manner required by the Companies and Allied Matters Act, 2020.

The Directors are of the opinion that the group Consolidated and separate financial statements give a true and fair view of the state of the financial affairs of the Group, in accordance with the International Financial Reporting Standards in compliance with the Financial Reporting Council of Nigeria Act, 2023 and in the manner required by Companies and Allied Matters Act, 2020.

The Directors further accept responsibility for the maintenance of adequate accounting records as required by the Companies and Allied Matters Act, 2020 and for such internal controls as the Directors determine is necessary to enable the preparation of Consolidated and separate financial statements that are free from material misstatements whether due to fraud or error.

Going Concern:
The Consolidated and separate financial statements have been prepared assuming the Group and company will continue as a going concern. Under the going concern assumption, an entity is ordinarily viewed as continuing in business for the near future with neither the intention nor the necessity of liquidation, ceasing trading or seeking protection from creditors pursuant to laws or regulations. In assessing whether the going concern assumption is appropriate, management takes into account all available information in the near future, in particular for the twelve months from the date of the Consolidated and separate financial statements.

As at 31 December 2025, the Group's current liabilities exceeded its current assets by N12.1 billion (2024 : N14.3 billion) and the Company by N12.3 billion (2024 : N14.5 billion), while Group total liabilities exceeded its total assets by N5.7 billion (2024 : N8.5 billion) and the Company by N5.8 billion (2024 :N8.5 billion). As a result of the losses incurred over the years, the shareholders' fund has been totally eroded to the tune of N5.7 billion and N5.8 billion as at 31 December 2025 for both Group and Company respectively. These conditions, along with other matters set forth below, may indicate the existence of an uncertainty that may cast doubt about the Company's ability to continue as a going concern. **(Refer to Note 2.3 of the financial statements)**.
The Directors however are optimistic about the successful resolution of the group's going concern issue. The group holding company has feasible strategy and plan to diversify activities and is reducing cost across the companies in the group. There are key performance indicators on cost monitoring and control. Restructuring of the Group's distribution network for cost effectiveness to increase dealers' margin and sales will bring back the Group to profitability in the near future.

Signed on behalf of the board of directors by:

Sir Sunday N. Nwosu (Chairman)	**Mr. 'Seyi Onajide**
FRC/2014/PRO/DIR/003/00000006788	**FRC/2013/PRO/DIR/003/00000002194**
Dated: 26th March, 2026	**Dated: 26th March, 2026**

R.T. BRISCOE (NIGERIA) PLC

CORPORATE RESPONSIBILITY FOR FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2025

Certification Pursuant to Section 405(1) of Companies and Allied Matter Act, 2020

Pursuant to S405(1) of the Company's and Allied Matters Act, 2020, we hereby confirm that the Chief Executive Officer and Chief Financial Officer of R.T. Briscoe (Nigeria) PLC have reviewed the audited financial statements and accept responsibility for the financial and other information contained within the annual report. The following certification and disclosure regarding the true and fair view of the financial statements as well as the effectiveness of the accounting systems and internal control established within the Group are hereby set out below:

Financial Information

i) The audited financial statements do not contain any untrue statement of material fact or omit to state a material fact, which would make the statements misleading;

ii) The audited financial statements and all other financial information included in the statements fairly represent, in all material respect, the financial conditions and results of operations of the Group as of and for the year ended 31st December 2025.

Effective Internal Controls

a) Effective Internal Control has been designed to ensure that material information relating to the company and its subsidiaries are made known by the relevant staff, particularly during the year in which the audited financial statement report is being prepared.

b) The effectiveness of the Group's Internal Controls have been evaluated within 90 days prior to 31st December 2025.

c) The Group's Internal Controls are effective as at 31st December 2025.

Disclosures

i) There were no significant deficiencies in the design or operation of Internal Controls which could adversely affect the Group's ability to record, process, summarize and report financial data. Furthermore, there were no identified material weaknesses in the Group's Internal Control systems

ii) There were no occurences of fraud events involving Senior Management or other employees who have a significant role in company's internal control

iii) There were no significant changes in internal controls or other factors that adversely affected the overall effectiveness of the internal controls.

R.T. BRISCOE (NIGERIA) PLC

REPORT OF THE AUDIT COMMITTEE
FOR THE YEAR ENDED 31 DECEMBER 2025

In compliance with the statutory provisions of Section 404 (7) of the Companies and Allied Matters Act 2020, the Rules of The Nigerian Exchange Limited and the Nigerian Code of Corporate Governance 2018 issued by the Financial Reporting Council of Nigeria, the Members of the Audit Committee of R.T. Briscoe (Nigeria) PLC hereby report as follows:

i. The Committee met in exercise of its statutory functions under Section 404(7) of the Companies and Allied Matters Act, 2020 and we received the co-operation of the Management and Staff in the exercise of these responsibilities.

ii. We exercised due oversight over Management processes towards ensuring that the accounting and reporting policies of the Company are in accordance with legal requirements and ethical practices.

iii. We deliberated with the External Auditors and received confirmation that all necessary co-operation was received from Management and that they have issued a fair and objective report.

iv. We confirm that the Company has an adequately resourced independent internal audit unit which discharges its responsibilities effectively.

v. In the course of the financial year, R.T. Briscoe (Nigeria) PLC recorded significant business transactions with Toyota Nigeria Limited which is its main supplier of Toyota vehicles and an authorized distributor of Toyota vehicles in Nigeria by the manufacturers, the Toyota Motor Corporation of Japan. R.T. Briscoe has a de facto common shareholder with Toyota Nigeria Limited who has significant interests in R.T. Briscoe and therefore an interested entity.

vi. We are satisfied that the methods or procedures for determining transaction prices between R.T. Briscoe (Nigeria) PLC and Toyota Nigeria Limited have not changed since the approval granted by shareholders at the last Annual General Meeting on Sept. 4, 2025; and the methods or procedures are sufficient to ensure that the transactions are carried out on normal commercial terms and are not prejudicial to the interests of the company and its minority shareholders.

MANAGEMENT'S ASSESSMENT OF, AND REPORT ON INTERNAL CONTROLS OVER FINANCIAL REPORTING

Management's Responsibility for Internal Control Over Financial Reporting

The Management of R.T Briscoe Nigeria Plc ("R.T Briscoe" or the "Company") is responsible for establishing and maintaining an adequate system of internal control over financial reporting, including safeguarding of assets against unauthorized acquisition, use or disposition. The system is designed to provide reasonable assurance to management and the board of directors regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards..

R.T Briscoe's system of internal control over financial reporting is supported with written policies and procedures, contains self-monitoring mechanisms, and is audited by an outsourced internal audit function. Appropriate actions are taken by management to correct deficiencies as they are identified. All internal control systems have inherent limitations, including the possibility of circumvention and overriding of controls, and, therefore, can provide only reasonable assurance as to the reliability of financial statement preparation and such asset safeguarding.

Management's Assessment

Management has assessed the effectiveness of its internal control over financial reporting as of 31 December 2025. In making this assessment, management used the COSO 2013 "Internal Control– Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management believes that, as of 31 December 2025, the Company's internal control over financial reporting is operating effectively. Additionally, based upon management's assessment, the Company determined that there were no material weaknesses in its internal control over financial reporting as of 31 December 2025.

The effectiveness of the Company's internal control over financial reporting as of 31 December 2025 has been audited by the firm of Messrs. Crowe Dafinone, an independent registered public accounting firm, whose attestation report would be filed as part of the company's 2025 annual reports.

Mr. Oluseyi Onajide

R.T. BRISCOE (NIGERIA) PLC

CERTIFICATION OF MANAGEMENT'S ASSESSMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Certification Pursuant to Section 11 of SEC Guidance on implementation of Sections 60-63 of ISA Act 2007

To comply with the provisions of Section 11 of SEC Guidance on implementation of Section 60 -63 of Investments and Securities Act 2007, we hereby make the following statements regarding the internal controls of R.T. Briscoe Nigeria Plc for the year ended 31 December 2025.

I Jubril Shittu, certify that:

a) I have reviewed this Management's report on the assessment of internal control over financial repoirting of R.T. Briscoe Nigeria Plc for the year ended 31st December 2025

b) Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the Statements made, in light of the circumstances under whiuch such statements were made, not misleading with respect to the period covered by this report;

c) Based on my knoweldge, the financial statements, and other financial information included in this report,fairly present in all material respects the financial condition, results of operations and cash flows of the entity as of, and for, the periods presented in this report;

d) The entity's other certifying officer and I

1) are responsible for establishing and maintaining internal controls;
2) have designed such internal controls and procedures, or caused such internal controls and procedures to be designed under our supervision, to ensure that material information relating to the entity, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
3) have designed such internal control system, or caused such internal control system to be designed under our supervision to provide reasonable assurance regarding threliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
4) have evaluated the effectiveness of the entity's internal controls and procedures as of a date within 90 days prior to the report and presented in this report our conclusions about the effectiveness of the internal controls and procedures as of the end of the period covered by this report based on such evaluation.

e) The entity's other certifying officer and I have disclosed, based on our most recent evalution of internal control system, to the entity's auditors and the audit committee of the entity's board of directors;

1) All significant deficiencies and material weaknesses in the design or operation of the internal control system which are reasonably likely to adversely affect the entity's ability to record, process, summarize and report financial information: and
2) Any fraud, whether or not material, that involves management or other employees who have a significant role in the entity's internal control system.

f) The entity's other certifying officer and I have identified, in the report whether or not there were significant changes in internal controls or other facts that could significantly affect internal controls subsequent to the date of their evaluation including any corrective actions with regard to significant deficiencies and material weaknesses.

Independent auditor's attestation on management's assessment of Internal Control over Financial Reporting

Our opinion

In our opinion, nothing has come to our attention that the internal control procedures over the financial reporting systems that were put in place by the management of R. T Briscoe Nigeria Plc were not adequate as of 31st December 2025, having regard to the SEC Guidance on Implementation of Section 60 – 63 of The Investments and Securities Act 2025 issued by The Securities and Exchange Commission together with the requirement of the Financial Reporting Council regulations on this issue.

What we have performed

We have performed an assurance engagement on R. T Briscoe Nigeria Plc's Internal Control over Financial Reporting as of 31st December, 2025, based on Financial Reporting Council Guidance on Assurance Engagement Report on Internal Control Over Financial Reporting ("the Guidance") issued by the Financial Reporting Council of Nigeria. The company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the company's Internal Control over Financial Reporting based on our assurance engagement.

Basis for opinion

We conducted our assurance engagement in accordance with the Guidance, which requires that we plan and perform the assurance engagement and provide a limited assurance report on the entity's internal control over financial reporting controls and systems based on our assurance engagement. As prescribed in the Guidance, the procedures we performed included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our engagement also included performing such other procedures as we considered necessary in the circumstance. We believe the procedures performed provide a basis for our report on the internal control systems put in place by the management over financial reporting.

Definition and Limitations of Internal Control over Financial Reporting

A company's Internal Control over Financial Reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's Internal Control over Financial Reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other matter

We also have audited, in accordance with the International Standards on Auditing, the financial statements of R. T Briscoe Nigeria Plc and our report dated *26th March, 2026,* expressed an unqualified opinion.

REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF R.T. BRISCOE (NIGERIA) PLC

Opinion

We have audited the consolidated and separate financial statements of RT Briscoe (Nigeria) Plc ("the company") and its subsidiaries ("the group") which comprise, the consolidated and separate statements of financial position as at 31st December 2025, the consolidated and separate statements of profit or loss and other comprehensive income, the consolidated and separate statements of the changes in equity, the consolidated and separate statements of cash flows for the year then ended, and the notes to the financial statements, which include a summary of the material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated and separate financial statements give a true and fair view of the consolidated and separate financial position of the company and its subsidiaries as at 31st December 2025, and of its consolidated and separate financial performance and its consolidated and separate cash flows from the year then ended and are in accordance with the International Financial Reporting Standards as set out in the manner required by the Financial Reporting Council of Nigeria Act, 2023, the Companies and Allied Matters Acts 2020, the Investment and Securities Act together with the relevant guidelines and the listing requirements of the Nigerian Stock Exchange.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated and separate financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Independence

We are independent of the company and its subsidiaries in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code). We have fulfilled our ethical responsibilities in accordance with the IESBA Code.

Emphasis of matters

Material uncertainty relating to going concern

Without qualifying our opinion, we draw attention to page 9 of these consolidated and separate financial statements, which sets out that the statement of financial position as at 31st December 2025 discloses net liabilities of ₦ 5.7 billion (2024: ₦ 8.5billion) for the group and ₦ 5.8billion (2024: ₦ 8.5billion) for the company. Included in these liabilities is ₦ 14.2 billion (2024: ₦ 13.2billion) which relate to the amounts owed to various banks. The ability of the company to continue as a going concern is dependent on the settlement of these debts. We draw attention to note 2.3 of these financial statements which indicate the steps that have and are currently been taken by the management of the group to resolve the issues.

Key audit matters

Key audit matters were those matters that, in our professional judgment, were of the most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matters described in the emphasis of matters section, we have determined the matters described below to be a key audit matter to be communicated in our report.

Key audit matter	*How our audit addressed the key audit matter*
(a) Revenue recognition	
The primary determinant and key performance indicators of performance is revenue generated given the nature of its business. The significance makes revenue a matter of focus in our audit. Refer to material accounting policies (Note4.11) and revenue on (Note 8) of the consolidated and separate financial statements.	We have reviewed the documentation and tested the accounting systems and internal controls pertaining to the processing and delivery of goods and services, the receipt and recording of the contractual income in respect of such revenue. The result of the tests provided sufficient evidence that reliance could be placed on such systems. We reviewed the accounting policies of the company in respect of the recognition and disclosure of the turnover derived through the principal activity to ensure the revenue recognised and disclosed gave a true and fair record of such revenue. We have also obtained written representation from management, particularly confirming that the override of the system by management did not occur. We have accordingly placed reliance on these systems. We carried out substantive tests in respect of the revenue and the trade receivables that existed as at the reporting date and obtained written confirmation from the related parties on the volume and value carried out through these related parties. We also confirm that the sales to related parties were at arm's length and all the revenues that was earned met the requirements of IFRS 15 and other relevant standards. We evaluated whether revenue transactions occurring both prior and post the year end date were recognised in the correct period. No evidence of any error or misstatement in respect of amounts disclosed as revenue or the related debts came to our notice.

Crowe

REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF R.T. BRISCOE (NIGERIA) PLC (CONTINUED)

Key audit matter	*How our audit addressed the key audit matter*
(b) Impairment of trade receivables	
The company is exposed to credit risk arising from the company's receivables. The ECL model used in the calculation of any impairment for long-term overdue credits requires significant management judgments. Trade and other receivables are significant to this company as they account for about that 37% of the total assets value and 57% of the current asset value. Refer to material accounting policies (Note 4.8), and Trade and other receivables (Note 21) of the consolidated financial statements. The ECL model involves the application of considerable level of judgement and estimation in determining inputs which are derived from historical records obtained within and outside the group into a complex financial model. The Group considered the following in determining the inputs for the ECL model. • Determining criteria for assigning the Probability of Default rates (PO Rates). • Assessing the relationship between the quantitative factors such as defaults and qualitative factors such as macro-economic variables. • The Group incorporates forward-looking information in the model building process. • Factors incorporated in determining the Probability of Default (PO). • Factors considered in cash flow estimation including rate of recovery for customers.	We evaluated and tested the accounting principles underlying revenue recognition which form the basis for the recognition of trade receivables. We evaluated the model used to calculate the recoverable amounts to check if it complies with the requirements of IFRS 9 and if it is in agreement with our understanding of the client's business, the industry in which the Group operates, and the reasonableness of the assumptions used.
(c) Borrowings	
Bank overdrafts at 31st December 2024 stood at ₦ 14.2billion (2024: ₦ 13.2 billion).. Included in these overdrafts, is an amount of ₦ 4.6 billion, which was taken over by Assets Management Corporation of Nigeria (AMCON) in 2018. In 2021, AMCON restructured this indebtedness leading to a waiver of ₦ 2.36 billion to the company. This amount has been recognised as other income in these financial statements during the year after the full and final settlement of AMCON debt	We reviewed pending legal winding-up cases against the company. We reviewed and ensured that accrued interest charges are not materially misstated; We reviewed bank overdrafts reconciliations noting outstanding reconciling items and how they were dealt with in the book; We reviewed the Agreements precedent to granting the waiver and Terms of Settlement with AMCON to ensure compliance.

Crowe

REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF R.T. BRISCOE (NIGERIA) PLC (CONTINUED))

Other information

The directors are responsible for the other information. The other information comprises the Directors' Report, Corporate Governance Report, Statement of Corporate Responsibility for Financial Reports, Statement of Directors' Responsibilities and Report of the Audit Committee, which we obtained prior to the date of this audit report, and Corporate Profile, Governance and Chairman's Statement which are expected to be made available to us after that date.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work that we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report on in this regard.

When we read the Corporate Profile, Governance and Chairman's Statement, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report on in this regard.

Responsibilities of the directors and those charged with governance for the financial statements

The directors are responsible for the preparation of the consolidated and separate financial statements that give a true and fair view in accordance with the International Financial Reporting Standards in the manner required by the Financial Reporting Council of Nigeria Act, 2023 and the requirements of the Companies and Allied Mattes Act and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Their attestation in respect to their duties is enclosed on page 5. We have reviewed the procedures carried out by the management of the company and our report is as set out on page 6.

REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF R.T. BRISCOE (NIGERIA) PLC (CONTINUED))

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated and separate financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Crowe

REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF R.T. BRISCOE (NIGERIA) PLC (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

For the matters communicated to those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

The Companies and Allied Matters Act and the Financial Reporting Council Act require that in carrying out our audit we consider and report to you on the following matters. We confirm that:

i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

ii) the company and its subsidiaries have kept proper books of account, so far as appears from our examination of those books

iii) the Group's consolidated and separate statement of financial position, and consolidated and separate statement of comprehensive income are in agreement with the books of account.

The accompanying explanatory notes and statement of material accounting policies on pages 19 to 57 form an integral part of these consolidated and separate financial statements.

NOTES TO THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2025

1. The reporting entity

1.1. Legal form

R.T. Briscoe (Nigeria) PLC (the 'Company') is domiciled in Nigeria. The Company was incorporated in Nigeria as a limited liability company on 9 March 1957 and became a public limited liability company in 1973. The Company's registered office is at 18, Fatai Atere Way, Matori, Oshodi, Lagos State. This set of financial statements comprise the Company and its subsidiaries (collectively 'the Group' and individually 'Group companies').

1.2. Principal activity

The Group is primarily engaged in the sales and servicing of Toyota and Ford motor vehicles, technical equipment, including forklifts, industrial compressors, mining and drilling equipment and generating sets, facility management, property development and leasing of property.

2. Basis of preparation

2.1 Statement of compliance with IFRSs

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB), and in compliance with Financial Reporting Council of Nigeria Act 2023. Additional information required by national regulations has been included where appropriate.

The consolidated financial statements comprise of the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of financial position, the statement of changes in equity, the consolidated statement of cashflows and notes to the financial statements.

2.2. Basis of measurement

The financial statements have been prepared in accordance with the going concern principle under the historical cost convention, except for financial instruments measured at fair value.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates, it also requires management to exercise its judgment in the process of applying the Group's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and therefore the Group's financial statements present the financial position and results fairly.

2.3. Going concern status

As at 31 December 2025, the Group's current liabilities exceeded its current assets by N12.1 billion (2024 : N14.3 billion) and the Company by N12.3 billion (2024 : N14.5 billion), while Group total liabilities exceeded its total assets by N5.7 billion (2024 : N8.5 billion) and the Company by N5.8 billion (2024 :N8.5 billion). As a result of the losses incurred over the years, the shareholders' fund has been totally eroded to the tune of N5.7 billion and N5.8 billion as at 31 December 2025 for both Group and Company respectively. These conditions, along with other matters set forth below, may indicate the existence of an uncertainty that may cast doubt about the Company's ability to continue as a going concern.

2.3.1 Suit No. FHC/L/CR/780/2016 (winding up petition between Diamond Bank Plc v. R.T. Briscoe Nigeria Plc)

In 2016, one of the Company's bankers, Diamond Bank Nigeria Plc (DBN) petitioned the Federal High Court Lagos to wind up the company on the basis that the Company was unable to liquidate and/or offset the various facilities granted to it by the bank in the sum of N3,339,393,807.59 (Three Billion, Three Hundred and Thirty-Nine Million, Three Hundred and Ninety-Three Thousand, Eight Hundred and Seven Naira Fifty-Nine Kobo).

Further to the above, other parties including United Bank for Africa, Guaranty Trust Bank, Polaris (Skye) Bank, First Bank, FSDH Merchant Bank and Federal Inland Revenue Service applied to the court as interested parties, alleging to be creditors to the Company for various amounts which are being disputed by the Company.

Appointment of a Receiver

Upon the appointment of the Receiver, the pending action was stayed in accordance with the mandate of the Receiver and upon the discharge of the Company from Receivership, the matter was relisted for mention.

Status of the matter as of date

The matter came up for mention on 12th January, 2026 and all parties were represented. The matter was further adjourned to 16th February, 2026 for hearing of the substantive suit and the Court directed the Company's lawyer to intimate other counsel in the matter with regards to its negotiations and efforts at settling the indebtedness. Upon the efforts on settlement of the indebtedness by the Company, the matter was further adjourned to June 24, 2026 for report of settlement.

2.3.2 Suit No. I.D./3761/2018 (GTB Plc v. R.T. Briscoe Nigeria Limited)

Guaranty Trust Bank Plc ("GTBank") seeks to recover principally the sum of N185,274,562.54 (One Hundred and Eighty-Five Million, Two hundred and Seventy Four Thousand, Five Hundred and Sixty Two Naira, Fifty-Four Kobo) from R.T. Briscoe Nigeria Limited ("the Company"). In response, the Company has filed a complete Defence against the claim along with a counterclaim against GTBank to recover from GTBank for the sum of N3,096,943,226.00 (Three Billion, Ninety Six Million, Nine Hundred and Forty Three Thousand, Two Hundred and Twenty Six Naira).

Status of the matter as of date

The matter was reffered for mediation at the Multi Door Court House of Lagos, however all efforts by the mediator at the Multi Door Court House of Lagos to amicably resolve the impasse between parties were unsuccessful. The Receiver had also made spirited attempts to reconcile parties, but to no avail. The matter was therefore sent back to the regular court for adversarial adjudication. However due to lack of diligent prosecution, the court struck out the matter but same was relisted. We are yet to be served with a copy of the hearing notice.

2.3.3 With the strategic initiative of the company to raise capital, which is intended to be applied to defray the company's indebtedness to the creditor banks and the working capital requirements coupled with the ongoing discussions/negotiations with the creditor banks, we no longer consider the existence of this case as constituting any material uncertainty to the company's ability to continue as a going concern. Additionally, the Company had over the last couple of years implemented a number of strategic measures which have positively turned around the fortune of the Company. We have no doubt that the lingering court cases with our creditor banks would be amicably resolved in due course.

Some of the measures currently being implemented by the company include:

- **Business Restructuring:** A restructuring exercise was carried out by the Board and Management of the company in 2017 meant to reposition the operating entities within the group for operational efficiencies, following which the group has continued to record commendable growth in turnover, with a Cumulative average growth rate CAGR of 45% recorded over the past 5 years. The group has also had eight consecutive years of reporting operational profits from 2018 to 2025. Our various businesses' results have shown that with the right structure of working capital, they can deliver satisfactory returns as they continue to thrive under harsh economic circumstances.

  Also of worthy of note is that all our major suppliers, both local and foreign, have continued to reaffirm their confidence in the business prospects of our company through their staunch support. Despite the precarious position of the company, we still retain the dealership licenses of our Major Original Equipment suppliers – Toyota Nigeria Limited, Manitou in France and Elgi Air Compressors in India which are the primary sources of our revenue earning potential and competitive advantage.

- **Recapitalisation:** The Company has been actively exploring the raising of additional capital of N10billion pursuant to the approval by the shareholders at two separate AGMs in 2014 and subsequently in 2016, which authorized the Board to raise up to N10 billion by way of equity, debt capital or a combination of both to recapitalize the Company. To actualize this, the Directors retained the services of Messrs. Dunn Loren Merrifield Advisory Partners (DLM) as financial/Investment advisers, to identify potential investors and facilitate the recapitalization exercise.

  The Company is currently exploring possibilities of initiating capital through special private placement, without prejudice to the ongoing RTB Savings and Loans Scheme. The Company is already in discussion with interested prospective investors and at the appropriate time, we would approach the AGM to approve a resolution to raise capital through private placement.

Discharge from Receivership

- Following the notice of discharge dated 15th April, 2025, the Company was discharged from receivership and the assets handed over, following the full settlement of the debt owed by the Company to AMCON. With discharge of the Company from Receivership, this has also brought a fresh challenge vis, the winding up suit which was adjourned indefinitely has now been recommenced. However, as earlier stated, the current engagement of the Company with the creditor banks in respect of the company's indebtedness gives us the assurance that this matter will ultimately be resolved amicably.

- The future of our company lies in its ability to reposition itself and chart a profitable course in the very competitive auto industry which currently accounts for over 80% of our business activities. We are currently also focusing on and developing our technical and real estate busineses which have shown promising prospects over the years but have had restricted growth due to limited working capital. Our company holds licenses for the assembling of motor vehicles and generators in Nigeria and in this regard, we are currently reinforcing our relationship with BYD, a global leader in electric automobiles, metro transportation and alternative energy with whom we recently executed a new MOU. The expected recapitalization of the company will give the needed impetus for the desired growth of our various business activities.

2.3.4 The Directors believe that the above on-going actions and plans will be successful, and remain convinced of the validity of the going concern assumption of the Company. Accordingly, the financial statements have been prepared on the basis of accounting policies applicable to a going concern.

2.4 Use of estimates and judgements

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates, it also requires management to exercise its judgment in the process of applying the group's accounting policies. Changes in assumptions may have a significant impact on the consolidated financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and therefore the group's consolidated financial statements present the financial position and results fairly.

2.5 Functional and presentational currency

The financial statements are presented in Naira, which is the Company's presentational currency. The financial statements are presented in the currency of the primary economic environment in which the Company operates (its functional currency).

3.Changes in accounting policies and disclosures

3.1 New and amended standards and interpretations adopted by the Group and the Company

Below are the standards, amendments and interpretations which are effective 1 January 2025 together with the assessment of their impact on the Group's and the Company's consolidated and separate financial statements.

1. Amendments to IAS 21 - Lack of exchangeability

For annual reporting periods beginning on or after 1 January 2025, Lack of Exchangeability – Amendments to IAS 21. The Effects of Changes in Foreign Exchange Rates specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance,
financial position and cash flows.

The amendments did not have a material impact on the Group's financial statements.

3.2 Standards issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's and the Company's consolidated and separate financial statements are disclosed below.
The Group and the Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective. The Group and the Company will assess the impact of the adoption of these amendments on the consolidated and separate financial statements in their year of initial application.

A. Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7

The amendments will take effect for annual reporting periods starting on or after 1 January 2026. Early adoption is allowed, but it must be disclosed. The amendments apply only to contracts that reference naturedependent electricity; the amendments:

▪ Clarify the application of the ‘own-use’ requirements for in-scope contracts
▪ Amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts
▪ Add new disclosure requirements to enable investors to understand the effect of these contracts on a company’s financial performance and cash flows.

The amendments concerning the own-use exception are to be applied retrospectively, while the hedge accounting amendments should be applied prospectively to new hedging relationships designated from the initial application date. Additionally, the IFRS 7 disclosure amendments must be implemented alongside the IFRS 9 amendments. If an entity does not restate comparative information, it cannot present comparative disclosures.

The Group does not expect that the amendments will have a material impact on its financial statements.

B. Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments:

Disclosures

The Amendments apply for reporting periods beginning on or after 1 January 2026. Early adoption is permitted. The highlights of the Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) are:

Derecognition of a financial liability settled through electronic transfer: The amendments to the application guidance of IFRS 9 permit an entity to deem a financial liability (or part of it) that will be settled in cash using an electronic payment system to be discharged before the settlement date if specified criteria are met. An entity that elects to apply the derecognition option would be required to apply it to all settlements made through the same electronic payment system. Classification of financial assets:

Contractual terms that are consistent with a basic lending arrangement. The amendments to the application guidance of IFRS 9 provide guidance on how an entity can assess whether contractual cash flows of a financial asset are consistent with a basic lending arrangement. To illustrate the changes to the application guidance, th e amendments add examples of financial assets that have, or do not have, contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. Assets with non-recourse features. The amendments enhance the description of the term ‘non-recourse’. Under the amendments, a financial asset has non recourse features if an entity’s ultimate right to receive cash flows is contractually limited to the cash flows generated by specified assets. Contractually linked instruments. The amendments clarify the characteristics of contractually linked instruments that distinguish them from other transactions. The amendments also note that not all transactions with multiple debt instruments meet the criteria of transactions with multiple contractually linked instruments and provide an example. In addition, the amendments clarify that the reference to instruments in the underlying pool can include financial instruments that are not within the scope of the classification requirements.

Disclosures

Investments in equity instruments designated at fair value through other comprehensive income. The requirements in IFRS 7 are amended for disclosures that an entity provides in respect of these investments. In particular, an entity would be required to disclose the fair value gain or loss presented in other comprehensive income during the period, showing separately the fair value gain or loss that relates to investments derecognised in the period and the fair value gain or loss that relates to investments held at the end of the period. Contractual terms that could change the timing or amount of contractual cash flows. The amendments require the disclosure of contractual terms that could change the timing or amount of contractual cash flows on the occurrence (or nonoccurrence) of a contingent event that does not relate directly to changes in a basic lending risks and costs. The requirements apply to each class of financial asset measured at amortised cost or fair value through other comprehensive income and each class of financial liability measured at amortised cost.

The Group and the Company do not intend to early adopt the amendment to the standard prior to its effective date.

Management will assess the potential impact of adopting the amendment on the Group’s and the Company’s financial statements when the amendment becomes effective.

C. IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the Board issued IFRS 18 Presentation and Disclosure in Financial Statements which replaces IAS 1.

IFRS 18 introduces new categories and subtotals in the statement of profit or loss. It also requires disclosure of management-defined performance measures (as defined) and includes new requirements for the location, aggregation and disaggregation of financial information.

Statement of profit or loss

An entity will be required to classify all income and expenses within its statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. In addition, IFRS 18 requires an entity to present subtotals and totals for ‘operating profit or loss’, profit or loss before financing and income taxes’ and ‘profit or loss’.

Main business activities

For the purposes of classifying its income and expenses into the categories required by IFRS 18, an entity will need to assess whether it has a ‘main business activity’ of investing in assets or providing financing to customers, as specific classification requirements will apply to such entities. Determining whether an entity has such a specified main business activity is a matter of fact and circumstances which requires judgement. An entity may have more than one main business activity.

Management-defined performance measures

IFRS 18 introduces the concept of a management-defined performance measure (MPM) which it defines as a subtotal of income and expenses that an entity uses in public communications outside financial statements, to communicate management’s view of an aspect of the financial performance of the entity as a whole to users. IFRS 18 requires disclosure of information about all of an entity’s MPMs within a single note to the financial statements and requires several disclosures to be made about each MPM, including how the measure is calculated and a reconciliation to the most comparable subtotal specified by IFRS 18 or another IFRS accounting standard.

Location of information, aggregation and disaggregation

IFRS 18 differentiates between ‘presenting’ information in the primary financial statements and ‘disclosing’ it in the notes, and introduces a principle for determining the location of information based on identified ‘roles’ of the primary financial statements and the notes. IFRS 18 requires aggregation and disaggregation of information to be performed with reference to similar and dissimilar characteristics. Guidance is also provided for determining meaningful descriptions, or labels, for items that are aggregated in the financial statements.

Consequential amendments to other accounting standards

Narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method from ‘profit or loss’ to ‘operating profit or loss’. The optionality around classification of cash flows from dividends and interest in the statement of cash flows has also largely been removed.

New requirements have been added to IAS 33 Earnings per Share that only permit entities to disclose additional amounts per share, if the numerator used in the calculation meets specified criteria. The numerator must be:

An amount attributable to ordinary equity holders of the parent entity; and

A total or subtotal identified by IFRS 18 or an MPM as defined by IFRS 18.

Some requirements previously included within IAS 1 have been moved to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, which has been renamed IAS 8 Basis of Preparation of Financial Statements. IAS 34 Interim Financial Reporting has been amended to require disclosure of MPMs.

D. IFRS 19 Subsidiaries without Public Accountability: Disclosures

The amendments apply for reporting periods on or after 1 January 2027. Early adoption is permitted. The IASB intends to update IFRS 19 on an ongoing basis as new or amended disclosure requirements in IFRS Accounting Standards are issued. IFRS 19 allows eligible subsidiaries to apply IFRS Accounting Standards with the reduced disclosure requirements of IFRS 19. A subsidiary may choose to apply the new standard in its consolidated, separate or individual financial statements provided that, at the reporting date it is a subsidiary of a parent that applies IFRS Accounting Standards and does not have public accountability.

The Group and the Company do not intend to early adopt the amendment to the standard prior to its effective date.

Management will assess the potential impact of adopting the amendment on the Group’s and the Company’s financial statements when the amendment becomes effective.

E. Annual Improvements to IFRS Accounting Standards - Volume 11.

This contains amendments to five standards as result of the IASB's annual improvements project. The ammendments are effective for annual reporting periods beginning on or after 1 January 2026.

Amendments to:

IFRS 1 First-time Adoption of International Financial Reporting Standards;

IFRS 7 Financial Instruments: Disclosures and it’s accompanying Guidance on implementing IFRS 7;

IFRS 9 Financial Instruments

IFRS 10 Consolidated Financial Statements; and

IAS 7 Statement of Cash flows

The amendment on derecognition of lease liabilities applies only to lease liabilities extinguished on or after the beginning of the annual reporting period in which the amendment is first applied. The IASB's amendments remove the conflict between IFRS 9 and IFRS 15 over the amount at which a trae receivable is initially measured.

Under IFRS 15, a trade receivable may be recognized at an amount that differs from the transaction price – e.g. when the transaction price is variable. Conversely, IFRS 9 requires that companies initially measure trade receivables without a significant financing component at the transaction price. The IASB has amended IFRS 9 to require companies to initially measure a trade receivable without a significant financing component at the amount determined by applying IFRS 15.

The Group and the Company do not intend to early adopt the amendment to the standard prior to its effective date. Management will assess the potential impact of adopting the amendment on the Group's and the Company's financial statements when the amendment becomes effective.

F. Amendments to IFRS 10 and IAS 28

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associatte or a joint venture that is accounted for using the equity method, are recognised in the parent's profit or loss only to the extent of the unrelated investors' interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent's profit or loss only to the extent of the unrelated investors' interests in the new associate or joint venture.

The amendments do not include transition requirements, other than that an entity is required to apply the amendment to IFRS 9:2.1(b)(ii) to lease liabilities that are extinguished on or after the beginning of the annual reporting period in which the entity first applies that amendment.

The Group and the Company do not intend to early adopt the amendment to the standard prior to its effective date. Management will assess the potential impact of adopting the amendment on the Group's and the Company's financial statements when the amendment becomes effective.

G. Translation to a Hyperinflationary Presentation Currency- Amendments

The IASB issued a narrow-scope amendment to IAS 21 in November 2025 to clarify how financial statements are translated when an entity's functional currency is non-hyperinflationary but its presentation currency is hyperinflationary. The amendment requires all amounts, including comparatives, to be translated using the closing exchange rate at the date of the most recent statement of financial position. This eliminates diversity in practice, improves comparability, and enhances consistency in financial reporting. The amendment is effective for annual periods beginning on or after 1 January 2027, with early application permitted.

The Group and the Company do not intend to early adopt the amendment to the standard prior to its effective date.

Management will assess the potential impact of adopting the amendment on the Group's and the Company's financial statements when the amendment becomes effective.

4. Summary of material accounting policies
The significant accounting policies set out below have been applied consistently to all years presented in these consolidated financial statements, unless otherwise stated.

4.1. Basis of consolidation
Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.
Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

i) Business combinations
The Group accounts for business combinations using the acquisition method when control is transferred to the Group (see (a)(ii) below). The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment (see (f) below). Any gain on a bargain purchase is recognised in profit or loss immediately.

ii) Subsidiaries
Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Separate disclosure is made for non-controlling interest.

iii) Non-controlling interests (NCI)
NCI are measured at their proportionate share of the acquiree’s identifiable net assets at the date of acquisition. Changes in the Group’s interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

iv) Loss of control
On the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost.

v) Transactions eliminated on consolidation
Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated on consolidation.

4.2 Foreign currency transactions
Transactions in foreign currencies are translated and recorded in Naira at the actual exchange rates as of the dates of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into naira at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into Naira at the exchange rate when the fair value was determined. Non- monetary items that are measured on historical cost in foreign currency are translated using the exchange rate at the dates of the transactions Foreign currency differences are generally recognised in profit or loss.

4.3 Share capital
The Company has only one class of shares, ordinary shares. Ordinary shares are classified as share capital. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects. Where the Group or any member of the Group purchases the Group’s share capital, the consideration paid is deducted from the shareholders’ equity and held in a separate 'reserve for own shares' account until they are cancelled or disposed. Where such shares are subsequently sold or reissued, any consideration received is included in shareholders’ equity.

Ordinary shares are classified as equity. When new shares are issued, they are recorded in share capital at their par value. The excess of the issue price over the par value is recorded in the share premium reserve. The use of the share premium account is governed by S.120(3) of CAMA. All ordinary shares rank equally with regard to the Company's residual assets. Holders of these shares are entitled to dividends as declared from time to time.

4.4 Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses except as indicated in note (iv) below. Cost includes expenditure that is directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the assets to a working condition for their intended use.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

ii). Derecognition of Property, plant and equipment

An item of property, plant and equipment is derecognized upon disposal or when the asset is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gains or losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within other income in profit or loss.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are recognised as a part of the cost of that asset.

(iii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

iv) Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

The estimated useful lives for the current and comparative years are as follows:

Leasehold land	-	Unlimited
Buildings	-	100 years
Plant & Machinery	-	6.7 years
Furniture & Fittings		6.7 years
I.T Equipment	-	3.3 years
Motor Vehicles	-	4 years

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate, with the effect of changes in estimate is accounted for on a prospective basis.

During the year 2020, the Company reviewed the estimated useful life of its buildings to 100 years as against Leasehold period used in the comparative period, based on an assessment carried out by a professional firm of structural engineers on one of its oldest buildings, in conjunction with Lagos State Material Testing Agency. This is also premised on the fact that Leasehold periods for lands upon which the buildings are sitting are considered unlimited. The new estimate has been applied prospectively inline with the provisions of IAS 8.

Capital work-in-progress is not depreciated. The attributable cost of each asset is transferred to the relevant asset category immediately the asset is available for use and depreciated accordingly.

(iv) Revaluation of Property plant and equipment

With effect from 31 December 2014, the Group adopted the revaluation model for its land and building asset category of its property plant and equipment. After recognition, land and building whose fair value can be measured reliably shall be carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations shall be made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

When an item of property, plant and equipment is revalued, the carrying amount of that asset is adjusted to the revalued amount. At the date of the revaluation, the accumulated depreciation is eliminated against the gross carrying amount of the asset.

If an asset's carrying amount is increased, the increase shall be recognised in other comprehensive income and accumulated in equity in "revaluation surplus". However, the increase shall be recognised in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss.

- If an asset's carrying amount is decreased, the decrease shall be recognised in profit or loss. However, the decrease shall be recognised in other comprehensive income to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The effects of taxes on income, if any, resulting from the revaluation of property, plant and equipment are recognised and disclosed as appropriate.

4.5. Intangible assets

(i) Recognition and measurement

Intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

iii) Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss.

The Company's intangible assets with finite useful lives comprise acquired computer software. The estimated useful lives for the current and comparative years is 5 years.

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

An intangible asset is derecognized upon disposal or when the asset is permanently withdrawn from use and no future economic benefits are expected from the disposal.

4.6 Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. The basis of costing is as follows:

Motor Vehicles - Purchase cost on a specific item identification basis including transportation and clearing cost.

Spares and industrial equipment - Purchase cost on a weighted average basis including transportation and clearing costs.

Property Units - Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as property units. This would normally comprise expenditure incurred in acquiring the properties, production or conversion costs and other costs incurred in bringing them to their existing location and condition and are subsequently measured at the lower of cost and net realizable value.

4.7 Construction work in progress

Construction work-in-progress represents accumulated cost of ongoing real estate projects and is measured using the cost model on the basis of a valuation by an independent valuer. Borrowing costs that are directly attributable to work-in-progress and other directly attributable expenditure are capitalised to work in progress when it is probable that they will result in future economic benefits on completion of the project. To the extent that loans and borrowings are specifically used for the purpose of the work in progress, the amount of borrowing costs eligible for capitalisation is determined as the borrowing costs incurred on the loans and borrowings (measured at amortised cost) during the year less any investment income on the temporary investment of those borrowings.

4.8 Financial instruments

Financial instruments carried at state of financial position date include the loans and receivables, cash and cash equivalents and borrowings. Financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition financial instruments are measured as described below:

4.8.1 Financial assets

The Company classifies its financial assets into the following categories: Financial assets at fair value through profit or loss, at fair value through OCI or at amortised cost. The classification is determined by management at initial recognition and depends on the purpose for which the investments were acquired.

a) Financial assets at fair value through profit or loss

A financial asset is classified into the ‘financial assets at fair value through profit or loss’ category at inception if acquired principally for the purpose of selling in the short term, if it forms part of a portfolio of financial assets in which there is evidence of short-term profit-taking, or if so designated by management. Derivatives are also classified as held for trading unless they are designated as hedges.

b) Financial assets at fair value through other comprehensive income

Financial assets are classified and measured at fair value through other comprehensive income if they are held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

c) Financial assets carried at amortised cost

The Company assesses at each end of the reporting period whether there is objective evidence that a financial asset or company of financial assets is impaired. A financial asset or company of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the group about the following events:

- Significant financial difficulty of the issuer or debtor;
- A breach of contract, such as a default or delinquency in payments;
- It becoming probable that the issuer or debtor will enter bankruptcy or other financial reorganisation.

The disappearance of an active market for that financial asset because of financial difficulties; or observable data indicating that there is a measurable decrease in the estimated future cash flow from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant. If the group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

4.8.2 Derecognition of financial assets
Financial assets are derecognised when the right to receive cash flows from the financial assets has expired or where the company has transferred substantially all risks and rewards of ownership. Any interest in the transferred financial assets that is created or retained by the company is recognised as a separate asset or liability.

Financial liabilities are derecognised when the contractual obligations are discharged, cancelled or expire.

4.8.1.1 Impairment of financial assets

4.8.1.2 Overview of the ECL principles
The Company assesses on a forward looking basis the expected credit losses (ECL) associated with its trade receivables, equity instrument and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts, in this section all referred to as 'financial instruments'. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition.

The measurement of ECL reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes, time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions. Equity instruments are not subject to impairment under IFRS 9.

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL).

For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

4.8.1.3 Credit-impaired financial assets
The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt instruments carried at FVOCI are credit-impaired. Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.
Evidence that a financial asset is credit-impaired includes the following:
- there is significant financial difficulty of a customer (potential bad debt indicator);
- there is a breach of contract, such as a default or delinquency in interest or principal payments;
- the Company, for economic or legal reasons relating to the Customer’s financial difficulty, granting to the Customer a concession that the
- it becomes probable that a counterparty/Customer may enter bankruptcy or other financial reorganisation;
- there is the disappearance of an active market for a financial asset because of financial difficulties; or
- observable data indicates that there is a measurable decrease in the estimated future cash flows from a Company of financial assets.
- the financial asset is 360 days and above past due.

A trade receivable debt that has been renegotiated due to a deterioration in the Customer's financial condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a trade receivable that is overdue for 90 days or more is considered impaired.

4.8.1.4 Presentation of allowance for

Trade receivable allowances for ECL are presented in the consolidated statement of financial position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- loan commitments and financial guarantee contracts: the loss allowance is recognised as a provision, and
- debt instruments measured at FVOCI: no loss allowance is recognised in the consolidated statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in the fair value reserve.

4.8.1.5 Write-off

The Company writes off financial assets, in whole or part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasing enforcement activity and where the Company’s recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

4.8.2 Financial liabilities

4.8.2.1 Initial recognition and measurements

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

ii) Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset’s recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

4.9 Provisions and Contingent liabilities

Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are only disclosed and not recognized as liabilities in the statement of financial position.

If the likelihood of an outflow of resources is remote, the possible obligation is neither a provision nor a contingent liability and no disclosure is made.

4.10 Employee benefits

i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

ii) Post employment benefits

a. Defined contribution plans

A defined contribution plan is a post-employment benefit plan (pension fund) under which the Group/Company pays fixed contributions into a separate entity. The Group/Company has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

In line with the provisions of the Pension Reform Act 2014, the Group has instituted a defined contribution pension scheme for its permanent staff. Staff contributions to the scheme are funded through payroll deductions while the Group/Company's contribution is recognised in profit or loss as employee benefit expense in the periods during which services are rendered by employees.

Employees contribute 8% of their Basic salary, Transport and Housing Allowances to the Fund on a monthly basis. The Group's contribution is 10% of each employee's Basic salary, Transport & Housing Allowances for all employees.

b. Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods, discounting that amount.

The discount rate is the yield at the reporting date on Federal Government bonds, that have maturity dates approximating the terms of the Group's obligations and that are denominated in the currency (Naira) in which the benefits are expected to be paid.

The calculation of the defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iii) Long Service Award

The Group's instituted Long Service Awards scheme instituted for all permanent employees. The Group's obligations in respect of these schemes are the amount of future benefits that employees have earned in return for their service in the current and prior periods. The benefit is discounted to determine its present value. The discount rate is the yield at the reporting date on Federal Government of Nigeria issued bonds that have maturity dates approximating the term of the Company's obligation. The calculation is performed using the Projected Unit Credit method. Any actuarial gains and losses are recognized in profit or loss.

4.11 Revenue

Revenue comprises of the fair value of consideration received or receivable for the goods and services provided, net of value-added tax, rebates and discounts and after elimination of sales within the group.

i) Sale of goods

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of value added tax, sales returns, trade discounts and volume rebates.

Revenue is recognised when persuasive evidence exists that the significant risks and rewards of ownership have been transferred to the buyer, the sales price is agreed or determinable, recovery of the consideration is probable and there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discount will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

Transfer of significant risk and rewards of ownership is determined to be transferred to the buyer at the point of delivery to the buyer. This corresponds generally to the delivery date on the sale to customers.

ii) Rendering of services

Revenue from rendering of services is recognised in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed with reference to surveys of work performed.

iii) Rental income

Revenue from property rentals is recognised in the profit or loss on a straight line basis.

4.12 Finance income and finance costs

Finance income comprises interest income on fixed deposits, loans to third parties. Finance income is recognized as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on loans and borrowings, bank overdrafts and impairment losses recognised on financial assets.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

4.13 Statement of cash flows

The statement of cash flows is prepared using the indirect method. Changes in statement of financial position items that have not resulted in cash flows such as translation differences, fair value changes, equity-settled share-based payments and other non-cash items, have been eliminated for the purpose of preparing the statement. Dividends paid to ordinary shareholders are included in financing activities. Finance cost is also included in financing activities while finance income received is included in investing activities.

4.14 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

i) Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Current tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

ii) Deferred tax

Deferred tax is recognised in profit or loss account except to the extent that it relates to a transaction that is recognised directly in equity. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the amount will be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences:

a. the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.
b. differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future.
c. temporary differences arising on the initial recognition of goodwill.

iii) Tax exposures

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

iv) Minimum taxation

Minimum tax payable is calculated using the tax rate applicable based on certain parameters stipulated in the Nigerian tax law. Any amount by which this minimum amount payable exceeds company income tax is shown as minimum tax expense and presented separately in the statement of profit or loss and other comprehensive income.

4.15 Earnings per share

The Group/Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held and for the effects of all dilutive potential ordinary shares, if any.

4.16 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' operating results are reviewed regularly by the Company's Board of Directors (BOD) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

The Company's primary format for segment reporting is based on business segments. The business segments are determined by management based on the Company's internal reporting structure.

Segment results, assets and liabilities, that are reported to the BOD includes items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

4.17 Dividends

Dividends are recognised as liability in the period they are declared.

Dividends which remained unclaimed for a period exceeding twelve (12) years from the date of declaration and which are no longer actionable by shareholders in accordance with Section 385 of Companies and Allied Matters Act of Nigeria are written back to retained earnings.

4.18 Leases

(i) Leased assets

Leases in terms of which the Group/Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases and the leased assets are not recognized in the Group/Company's statement of financial position.

4.19 Related parties

Related parties include the holding company and other group entities. Directors, their close family members and any employee who is able to exert a significant influence on the operating policies of the Company are also considered to be related parties. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity.

5. Determination of fair values

A number of the Group/Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. See note 6 (g) for basis of determination of fair value for financial assets and liabilities. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

a) Trade and other receivables

Trade receivables are stated at fair value and subsequently measured at fair value through profit or loss, less provision for impairment. Impairment thereon are computed using the simplified IFRS 9 Expected Credit Loss (ECL) Model, where the receivables are aged and probability of default applied on each aged bracket. Trade receivables meet the definition of financial assets and the carrying amount of the trade receivables approximates their fair value.

b) Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract

6. Financial risk management and Financial instruments

The Group and Company has exposure to the following risks from its use of financial instruments:
- Credit risk
- Liquidity risk
- Market risk
- Operational risk.

This note presents information about the Group and Company's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these financial statements.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors has delegated the responsibility for developing and monitoring the Group's risk management policies to the management of the Group. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to controls. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the reporting period was as follows:

	Group		Company	
	2025	**2024**	**2025**	**2024**
	N'000	**N'000**	**N'000**	**N'000**
Trade and other receivables*	**5,911,640**	3,571,111	**6,229,935**	3,509,451
Cash and bank balances	**1,858,118**	714,632	**1,514,175**	548,853
	7,769,758	**4,285,743**	**7,744,110**	4,058,304

* Advance payments, with-holding tax and VAT receivables have been excluded as they are not financial instruments.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Group considers that it is not exposed to major concentration of credit risk in relation to the trade receivables. However, credit risk can arise in the event of non-performance of a counterparty. Purchase limits are established for each customer, which represents the maximum allowed open amount. These limits are reviewed bi-annually. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a cash-and-carry basis.

The Group considers that the concentration of credit risk with respect to trade receivables is limited given that the Group grants a credit period of 30 to 45 days to selected customers, which mitigates the risk of default by customers. In addition, the Group tries to mitigate the credit risk by adopting specific control procedures, including regular assessment the credit worthiness of the counterparty and limiting the exposure to any one counterparty.

Deductions are made on a monthly basis from staff emoluments to recover any outstanding loan liabilities, and any other outstanding loan balance is deducted from an exiting employee's final entitlements. There has been no history of default in respect of amounts due from related companies as such amounts are always settled in full. Accordingly management does not consider any credit risk in respect of amount due from related parties.

The maximum exposure to credit risk for trades and other receivables at the reporting date was:

	Group		Company	
	2025	**2024**	**2025**	**2024**
	N'000	**N'000**	**N'000**	**N'000**
Trade receivables	**3,657,786**	3,050,952	**2,950,124**	2,631,860
Receivables - WHT & VAT deducted	**2,439,842**	1,664,050	**2,350,421**	1,603,594
Receivables - WHT Credit notes received	**1,701,383**	1,449,930	**1,602,934**	1,424,431
Staff loans and advance	**29,360**	5,575	**24,628**	4,194
Amounts due from related parties	**320**	(1)	**1,103,656**	392,643
Other receivables (Note 21.1)	**2,224,174**	514,585	**2,151,527**	480,754
	10,052,865	6,685,091	**10,183,290**	6,537,476
The ageing of trade and other receivables at the reporting date was:				
Not past due	**1,485,038**	1,485,038	**1,473,281**	1,473,281
Past due 91-180 days	**1,650,032**	1,650,032	**2,686,449**	1,600,192
Past due 181-360 days	**276,996**	276,996	**223,609**	223,609
Past due above 360 days	**6,640,799**	3,273,025	**5,799,950**	3,240,394
	10,052,865	6,685,091	**10,183,290**	6,537,476

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	Group 2025	Group 2024	Company 2025	Company 2024
As at 1 January	**1,483,827**	1,497,130	**1,308,887**	1,311,921
Provision no longer required	**(481,894)**	6,339	**(470,468)**	(3,034)
Addition in the year	**-**	(19,642)	**-**	-
Balance as at 31 December	**1,001,932**	1,483,827	**838,419**	1,308,887

Cash and cash equivalents

The Company held cash and cash equivalents which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties, which are reputable and have a sound financial position.

(b) Liquidity risk

Liquidity risk is the risk that the Group and company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's and company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group and company has an appropriate liquidity risk management framework for the Group's and company's short, medium and long term liquidity requirements and makes monthly cash flow projections, which assists in monitoring cash flow requirements and optimizing cash return on investments.

Typically the credit terms with customers are more favourable compared to payment terms to its vendors in order to help provide sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	Note	Carrying amount N'000	Contractual cash flows N'000	1 year or less N'000	1 to 2 years N'000

		17,608,444	17,608,444	4,434,060	**13,174,384**

*Trade and other payables has been adjusted for statutory deductions like PAYE, VAT, WHT, ITF etc. It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

c) Market risk

The Group's activities expose it primarily to the financial risk of changes in foreign currency exchange rates and interest rates. There has been no change to the Group's exposure to market risks or the manner in which it is manages and measures the risk during the year.

i) Foreign currency risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the functional currency of the Group, primarily the Naira. The currencies in which these transactions primarily are denominated are Euro, United States Dollar (USD), Japanese Yen (JPY) and United Kingdom pound sterling (GBP). The currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in foreign exchange rates.

The Group's policy is to ensure that its net exposure in respect of monetary assets and liabilities denominated in foreign currencies are kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short term imbalances.

Exposure to currency risk

The summary of quantitative data about the Company's exposure to currency risk as reported to the Management of the Company based on its risk management policy was as follows:

	31-Dec-25				31-Dec-24			
	Euro	USD	JPY	SAR	Euro	USD	JPY	SAR
Amounts in thousands								
Trade and other receivables		-	-			-	-	
Cash and cash equivalent	1	35	4		1	192	4	
Trade and other payables	-	(31)	-		-	(26)	-	
Net exposure	**1**	**4**	**4**	**-**	**1**	**165**	**4**	**-**

The following significant exchange rates applied during the year:

	Average rate		Year end spot rate	
	2025	2024	**2025**	2024
Euro	1719	1707	1719	1707
United States Dollars (USD)	1478	1660	1478	1660
GBP	1982	2026	1982	2026
JPY	9	11	9	11
SAR	90	88	90	88.00

ii. Sensitivity analysis

A reasonable possible strengthening/ (weakening) of the Naira, as indicated below, against major foreign currencies would have affected the measurement of financial instruments denominated in foreign currency and (increased)/ decreased equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest and inflation rates, remain constant and ignores any impact of forecast sales and purchases.

	Increase / (decrease) in profit or loss	
Effect in thousands of Naira	**2025**	**2024**
Euro (20% weakening of the Naira)	(237)	(235)
USD (20% weakening of the Naira)	(1,401)	(55,162)
GBP (20% weakening of the Naira)	-	-
Yen (20% weakening of the Naira)	(8)	(9)
ZAR (20% weakening of the Naira)	-	-

d) Interest rate risk

The Group adopts a policy of ensuring that its interest rates for its import finance facilities and commercial papers are at a fixed rate, as much as possible, other facilities are at variable rates.

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

	Group		Company	
	Carrying Amount		Carrying Amount	
	2025	2024	**2025**	2024
	₦'000	₦'000	**₦'000**	₦'000
Variable rate instruments				
Bank overdrafts	**14,228,914**	13,174,384	**14,228,914**	13,174,384

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Group's operations.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to management. This responsibility is supported by the development of overall Company standards for the management of operational risk in the following areas:

- Documentation of processes, controls and procedures;
- Periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified by the risk management committee;
- Training and development of employees;
- Appropriate segregation of duties, including the independent authorization of transactions;
- Monitoring of compliance with regulatory and other legal requirements;
- Requirements for reporting of operational losses and proposed remedial action;
- Reconciliation and monitoring of transactions;
- Development, communication and monitoring of ethical and acceptable business practices;
- Risk mitigation, including insurance when this is effective;
- Monitoring of business process performance and development and implementation of improvement mechanisms thereof.

Compliance with the Company's standards, established procedures and controls is supported by periodic reviews undertaken by management. Deficiencies are discussed with management for corrective action with summaries submitted to Board of the Company.

f) Capital management

The Group's objectives, when managing capital, are to safeguard the Group's ability to continue as a going concern in order to provide returns for the shareholders and to maintain an optimal capital structure to reduce cost of capital. In order to maintain or adjust the capital structure, the Company or its subsidiaries may, among other things, issue new shares or convert debt to equity.

The debt to adjusted capital ratio at the end of the year was as follows:

	Group		Company	
	2025	2024	2025	2024
	N'000	N'000	N'000	N'000
Total liabilities	**24,949,245**	21,139,521	**23,733,391**	20,264,829
Less: Cash and cash equivalents	**(1,858,118)**	(714,632)	**(1,514,175)**	(548,853)
Net debt	**23,091,127**	20,424,889	**22,219,216**	19,715,976
Total equity	**(5,660,934)**	(8,478,419)	**(5,780,890)**	(8,465,326)
Debt to adjusted capital ratio	**(4)**	(2)	**(4)**	(2)

Due to the position above, management is exploring various options as detailed in Note 2.3 to achieve a better debt to equity ratio.

g) Accounting classification and fair values

The analysis below shows the carrying amounts of financial assets and liabilities.

	Carrying amount		
	Loans and receivables	Other financial liabilities	Total
	N'000	N'000	N'000
Group			
31 December 2025			
Financial assets not measured at fair value			
Trade and other receivables	10,052,865	**-**	**10,052,865**
Cash and cash equivalents	1,858,118	**-**	**1,858,118**
	11,910,983	**-**	**11,910,983**
Financial liabilities not measured at fair value			
Trade and other payables	**-**	**5,053,777**	**5,053,777**
Bank overdrafts	**-**	**14,228,914**	**14,228,914**
Dividend payable	**-**	**10,647**	**10,647**
	-	**19,293,338**	**19,293,338**
31 December 2024			
Financial assets not measured at fair value			
Trade and other receivables	6,685,091	-	6,685,091
Cash and cash equivalents	714,632	-	714,632
	7,399,723	-	7,399,723
Financial liabilities not measured at fair value			
Trade and other payables	-	4,745,253	4,745,253
Bank overdrafts	-	13,174,384	13,174,384
Dividend payable	-	12,503	12,503
	-	17,932,140	17,932,140

	Carrying amount		
	Loans and receivables N'000	Other financial liabilities N'000	Total N'000
Company			
31 December 2025			
Financial assets not measured at fair value			
Trade and other receivables	10,183,290	-	10,183,290
Cash and cash equivalents	1,514,175	-	1,514,175
	11,697,465	-	11,697,465
Financial liabilities not measured at fair value			.
Trade and other payables	-	3,878,267	3,878,267
Bank overdrafts*	-	14,228,914	14,228,914
Dividend payable	-	10,647	10,647
	-	18,117,828	18,117,828

* Bank overdrafts represents overdue facilities from various banks which has been debited into the Company's current accounts.

	Loans and receivables N'000	Other financial liabilities N'000	Total N'000
Company			
31 December 2024			
Financial assets not measured at fair value			
Trade and other receivables	6,537,476	-	6,537,476
Cash and cash equivalents	548,853	-	548,853
	7,086,329	-	7,086,329
Financial liabilities not measured at fair value			
Trade and other payables	-	3,906,557	3,906,557
Bank overdrafts	-	13,174,384	13,174,384
Dividend payable	-	12,503	12,503
	-	17,093,444	17,093,444

Except as highlighted above, the fair value of all other financial instruments have not been disclosed because their carrying amounts are a reasonable approximation of fair values.

7. Segment Reporting

7.1. Basis of segmentation

The Group has the following strategic divisions, which are its reportable segments. These divisions offer different products and services, and are managed separately because they require different technology and marketing strategies.

The following summary describes the operations of each reportable segment:

Reportable segments	**Operations**
Motor Vehicles	Sale of Toyota & Ford Vehicles
Industrial equipment	Sale and marketing of industrial equipment
Aftersales service	Servicing and maintenance of vehicles
Property development	Facility Management, Development, sale and leasing of property.

The Group Chief Executive Officer (CEO) reviews the internal management reports of each division at least quarterly.

Information about reportable segments

	Segment Revenue N'000	Cost of sales N'000	Gross profit N'000
Group			
31 December 2025

Investments

17.2.1 This represents the Company's initial investment in RTB Savings & Fund which is required by the Trust Deed as the Promoter of the Fund.

17.2.2 Security

The company has provided negative pledges over the assets in respect of its term loans, import finance facilities and overdraft facilities with its bankers.

17.2.3 Capital work in progress

This majorly includes land and building under construction at Magboro (N118.6 million) and other WIP Assets.

17.2.4 Capital commitments

The Group and the Company had no authorised or contracted capital commitments as at the reporting date.

17.3 Depreciation of buildings

The Company's leasehold land at 18 Fatai Atere road, Matori has a certificate of occupancy which will expire in the year 2070, the building on the land is however depreciated over 100 years based on the assessment of useful life of the building carried out by a commissioned firm of Structural Engineers, People & Projects Limited, (whose Principal Partner, Engr. Stephen Adekunle's FRCN Number is FRCN/2019/00000018214) in conjunction with Lagos State Material Testing Agency.

18. Intangible assets

Intangible assets comprise computer software, the analysis of the movements in respect of these assets during the year were as follows:

	23,472	36,097	**23,472**	36,097

The Company's defined benefit end of service gratuity obligation represents the estimated amount of future benefit that employees have earned in return for their service in the current and prior periods and that benefit is discounted to determine its present value. In determining the liability under the defined benefit scheme, consideration is given to future increases in salary rates and the Company's experience with staff turnover. The recognised liability is determined by an independent actuarial valuation performed by **Giant Consultants Limited** using the projected unit credit method. The report was signed on behalf of the firm by Paul Monday Odofin (FRC/2024/PRO/NAS/974208).

The Company also operates a long service award scheme for all permanent employees to reward their meritorious service during employment. The Company's obligations in respect of this scheme is the amount of future benefits that employees have earned in return for their service in the current and prior periods. The recognised liability is determined by an independent actuarial valuation performed by the same firm using the projected unit credit method.

The subsidiaries do not operate long service award scheme and defined benefit end of service gratuity obligation.

During the year, the Entity funded the planned asset with GTL Trustees Limited. The planned asset at 31 December 2025 is N108,671,358.71 (31 December 2024 : N94,731,041.40).

Actuarial (gains) / losses on defined benefit obligation recognised during the year	**(12,666)**	**12,687**	**(12,666)**	**12,687**

29.3. Actuarial assumptions

Principal actuarial assumptions at the reporting date (expressed as weighted averages) fall under two broad categories. Due to unavailability of published reliable demographic data in Nigeria, the demographic assumptions regarding future mortality are based on the rates published jointly by the Institute and Faculty of Actuaries in the United Kingdom (UK).

Financial assumptions	**2025**	2024
The principal actuarial assumptions used were:		
Discount rate	**9%**	9%
Future salary increases	**10%**	10%
Future rate of Inflation	**18%**	15%
Benefit increase rate (Per annum)	**0%**	0%

These assumptions depict management's estimate of the likely future experience of the Company. The same assumptions has been used for both defined benefit obligation and Long Service Award.

Demographic assumptions

Assumptions regarding future mortality are based on published statistics and mortality tables.

Mortality in Service

The rates of mortality assumed for employees are the rates published in the A67/70 Ultimate Tables, published jointly by the Institute and Faculty of Actuaries in the UK.

Sample age	**2025**	2024
25	**7**	7
30	**7**	7
35	**9**	9
40	**14**	14
45	**26**	26

Withdrawal from Service

We have assumed a withdrawal rate for the current valuation that starts at 5% up to age 40 years and decreases to nil withdrawal from age 51 years and above as indicated below.

Age Band (years)	Withdrawal Rate (%)

The company is engaged in various lawsuits that have arisen in the normal course of business. The actual value of contingent liabilities in respect of pending litigations and claims amounted to N400 million as at 31 December 2025 (2024: N428 million). The contingent assets in respect of pending litigations and claims as at 31 December 2025 amounted to N129.93 million (2024 - N129.9 million). In the opinion of the directors, and based on independent legal advice, the company is not expected to suffer any material loss arising from these claims. Thus, no provision has been made in these consolidated financial statements.

c) Financial commitments

As at the end of year, the Company has no financial commitments to any counterparty. The Directors are of the opinion that all known liabilities and commitments, which are relevant in assessing the state of affairs of the Company, have been taken into consideration in the preparation of these financial statements.

35. Impact of Global and Local Dynamics on R.T. Briscoe in 2025

I) External Economic effects

The year 2025 saw Nigeria’s operating environment influenced by a mix of global disruptions and domestic macroeconomic adjustments following the major reforms implemented in earlier years. Globally, the continuation of the Russia–Ukraine conflict sustained volatility in energy and commodity markets, while disruptions to major maritime trade routes, particularly in the Red Sea region, contributed to elevated freight costs and longer shipping times across international supply chains. Climate-related disruptions in several regions also affected agricultural output and transportation networks, highlighting the importance of stability and adaptability in global operations.

In addition, the global economic environment continued to reflect the effects of tight monetary policies across major economies, with relatively high interest rates in the United States, Europe, and other developed markets contributing to tighter global liquidity and a firm US dollar. These conditions placed additional pressure on emerging market currencies and increased the cost of financing and international trade.

Against this global backdrop, Nigeria’s economy showed gradual improvement as the effects of earlier reforms continued to filter through the system. Economic activity strengthened across several sectors, supported by improved foreign-exchange liquidity and continued expansion in key service industries. These developments contributed to a modest recovery in economic activity and helped improve overall business confidence.

Inflationary pressures remained evident during the year, particularly in food and transportation, while monetary policy remained tight as the Central Bank of Nigeria maintained elevated interest rates in its efforts to contain inflation and stabilise the currency.

Foreign-exchange conditions improved relative to the previous year as earlier reforms began to yield results. Increased FX liquidity and improved market confidence helped moderate some of the volatility experienced in prior periods, easing pressures on import-dependent sectors, although elevated costs from earlier currency adjustments continued to influence pricing and operational decisions.

Against this evolving macroeconomic environment, R.T. Briscoe continued to navigate cost pressures while leveraging opportunities created by the broader economic recovery. Adaptive pricing strategies, stronger customer engagement, and operational discipline remained essential in sustaining the Company’s competitive position and overall performance.

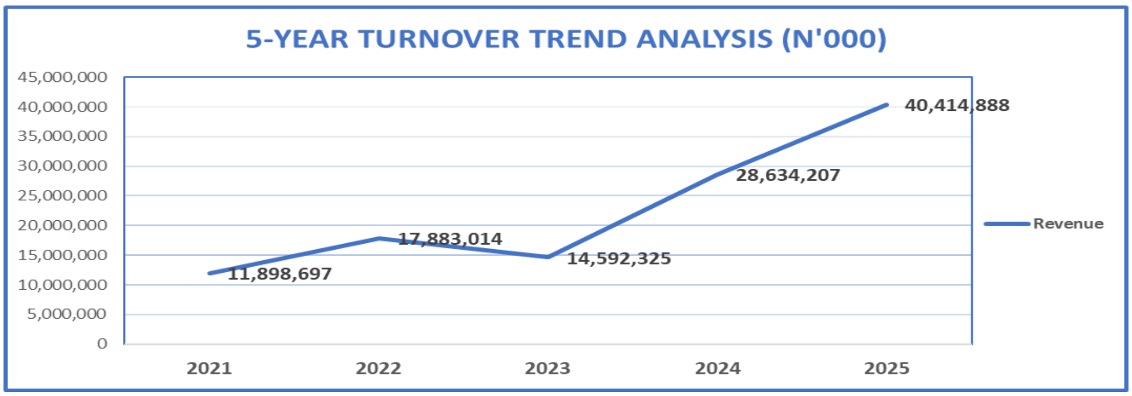
ii) 2025 Performance

In 2025, the Company recorded a turnover of ₦40.4 billion, representing a 41% growth compared to the prior year's ₦28.6 billion and exceeding the budgeted target by 18%. This strong performance reflects the resilience of the business and the sustained contribution of the Company's business units despite prevailing economic pressures.

The Company also recorded a Profit Before Tax of ₦2.9 billion, a significant improvement compared to the ₦1.03 billion achieved in the prior year. This performance highlights the effectiveness of the Company's strategic initiatives and the continued strength of its core operations.

Overall, the result demonstrates the Company's ability to adapt to the evolving economic environment while maintaining operational efficiency and delivering improved financial performance.

(The consolidated turnover trend for 5-year FY period is presented in the chart below; illustrating the growth trajectory of the business over the years).



iii.) Conclusion

As Nigeria's economic environment continues to stabilize following earlier macroeconomic adjustments, greater clarity in foreign exchange dynamics, improved economic activity, and gradual recovery across key sectors are expected to create a more supportive environment for business operations. These developments are anticipated to strengthen investor confidence and support improved planning and investment decisions across both the private and public sectors.

R.T. Briscoe remains focused on strengthening the performance of its business units; Briscoe Motors, Briscoe Material Handling and Equipment (MHE), Briscoe Technical, and Briscoe Properties Limited (BPL), while pursuing opportunities to deepen market penetration and enhance value creation across its operations. Through disciplined cost management, improved operational efficiency, and a continued focus on customer engagement, the Company aims to sustain revenue growth and improve profitability.

Management remains committed to leveraging innovation, technology, and strategic partnerships to enhance service delivery and strengthen the Company's competitive position. At the same time, continued investment in people, systems, and operational capabilities will remain central to sustaining long-term growth.

With its strong heritage, resilient business model, and forward-looking strategic focus, R.T. Briscoe remains well positioned to navigate evolving market conditions while delivering sustainable value to its stakeholders.

36. Events after the reporting date

The Directors are of the opinion that there are no significant transactions that have occurred subsequent to the reporting date, which could have had a material effect on these Consolidated and separate financial statements as at 31 December 2025 that have not been adequately provided for or disclosed in these consolidated and separate financial statements.

37. Comparative figures

Where necessary comparative figures have been reclassified to ensure proper disclosure and uniformity in the current year's presentation. This re-classification have no net impact on these consolidated and separate financial statements.
