AVA INFRASTRUCTURE FUND

The AVA Infrastructure Fund ("AVA IF" or "the Fund") is a closed-end fund registered with the Securities and Exchange Commission, Nigeria

Quarterly Investors Report
For the period ended 30th September 2026

OVERVIEW OF THE FUND

The AVA Infrastructure Fund ("AVA IF" or "the Fund") is a closed-end fund registered with the Securities and Exchange Commission. The Fund seeks to address the infrastructural deficits in Nigeria through the objective provision of long-term institutional capital into infrastructure development. The overall objective of the AVA IF is to spur socio-economic impact.

ASSET ALLOCATION

INSTRUMENT ALLOCATION	% OF NET ASSETS	CURRENT ALLOCATION
Senior Project finance loans	90% – 100%	37.60%
Convertibles e.g. mezzanine instruments	0% – 10%	0%
Money Market instruments, Bank deposits	0% – 10%	62.40%
Total		100.00%

FUND ACTIVITIES FOR THE QUARTER

During the quarter, the Fund continued to build its pipeline of infrastructure investments. The Investment Committee approved an investment in the power sector; however, the facility was not disbursed, as the project sponsor did not satisfactorily meet the conditions precedent to drawdown.

Two further opportunities, in telecommunications infrastructure and gas distribution, are currently undergoing credit review and transaction documentation. We continue to work closely with the respective sponsors to advance these transactions, alongside the power sector investment once its conditions precedent are satisfied, and look forward to concluding those that meet the Fund's investment criteria in the coming months.

Investments

The Fund currently holds two active investments within the urban and social infrastructure sector, with an outstanding balance of ₦1.7 billion. Both investments continue to perform in line with expectations and contribute positively to the Fund's overall portfolio.

Our approach remains anchored on disciplined capital allocation and active portfolio oversight, with the aim of delivering attractive risk-adjusted returns to unitholders. Over the medium to long term, the Fund targets returns of approximately 3% to 5% above the yield on comparable 10-year Federal Government of Nigeria bonds.

Distribution

The Fund has made four distribution payments to all unitholders to date, with the next distribution planned for October 2026.
