

CADBURY NIGERIA PLC (A Subsidiary of Mondelez International)

Sustainability Report

2025

We are committed to our stakeholders and will do what is right for our environment

01

Inclusive growth

We're working to make sure our products are not only right for people, but also right for the planet.

02

Efficient operations

Lower energy, water, waste and packaging intensity—measured from a Nigeria baseline.

03

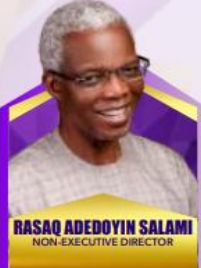

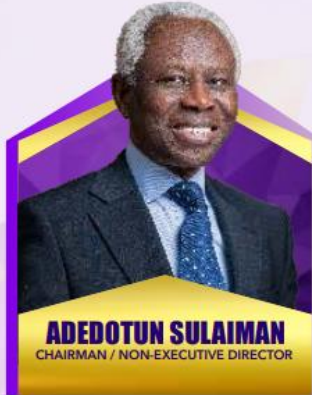

Resilient cocoa

10 years focused on making Cocoa more sustainable. Stronger farmer capability, responsible sourcing and a more secure long-term supply base.

As a leading manufacturer of beloved confectionery, refreshment beverages, and cocoa products in Nigeria and part of the global Mondelēz International family, sustainability is woven into everything we do.

We believe responsible practices aren't just a choice, they are a business imperative. We are committed to delivering world-class products while nurturing the planet and communities that make it all possible.

The generation of shared economic value is our central and enduring commitment

SUSTAINABLE SOURCING

Cadbury Nigeria, through its parent company, Mondelez International, launched Cocoa Life, the company's global cocoa sustainability programme, in July 2022. Cocoa Life now covers six states in Nigeria, namely Ekiti, Ogun, Osun, Ondo, Oyo, and Cross River. The programme has so far registered 8,500 farmers, providing them with training on good agricultural practices that will improve yield and quality of the cocoa beans grown by these farmers.

PERFORMANCE OF OUR BRANDS

Our brands continued to remain relevant and improved top of mind awareness. Bournvita strengthened its consumer presence in the year under review through successful television, digital, and out of home campaigns across major cities. Our Ramadan 50g extra value offer and the installation of over 50 gondolas nationwide, boosted visibility and supported strong sales performance.

Our sustainability journey is guided by four core principles:

Sustainable Sourcing

100% of our packaging materials are locally sourced, empowering Nigerian investors and shortening our supply chain footprint.

Resource Efficiency

We are deeply committed to using resources smarter, more efficient waste management, energy conservation, and smarter logistics.

Performance Driven

We are transparent about our impact, and we keep pushing for more.

Responsibility First

We exceed standards because it's the right thing to do.

Compliance & Engagement

* 96%+ action closure from regulator visits.

Quality Gemba walks keeping safety indicators green

* Successful Safety Month Campaign with staff & contractors

Over Eight (8) years incident-free in Ikeja & Ondo.

Site returned to RRN1 on property loss prevention by GRC (Insurer)

Leadership actively role-modelling safety with Standard Work Process owners in both plants

Cocoa resilience protects livelihoods and long-term supply

01 Diversification & Innovation

Securing high-quality cocoa through geographic flexibility, large-scale farming, and partnerships with food-tech start-ups to develop ingredients such as lab-grown cocoa.

02 Predictive Technology

Investments in enhanced crop forecasting processes designed to improve supply accuracy.

03 Modernized Engagement

Updating smallholder programs to align with evolving regulatory landscapes and consumer expectations.

Cocoa Life is Mondelēz International's global sustainable cocoa sourcing program, which expanded its operations to Nigeria to support local cocoa-producing communities. By the end of 2025, the program successfully reached approximately 8,800 farmers across roughly 320 communities in Nigeria.

Our scorecard separates evidence from ambition

Key Initiative	Progress
Packaging & Circular Economy	Zero packaging waste is our goal. We are designing for recyclability, using the Eco Calculator, and investing in tech to shrink our packaging footprint.
Biodiversity & Plastic Management	We collected as much plastic as we put out, scaling infrastructure and pushing for Extended Producer Responsibility through partnership with Food and Beverage Alliance (FBRA).
CO ₂ Reduction	Continuing low-carbon energy usage (natural gas) to maintain and further reduce emissions, building on our 34% reduction since 2018.
Energy Conservation	We upgraded our boilers, installed solar lamps, battery forklifts – saving energy, cutting costs.
Water Conservation	Our “War Against Leaks” initiative successfully slashed water use 30% (2024) and 62.5% by 2025 (beat target of 52% vs 2018 baseline)
Waste Management	Our cocoa plant has achieved zero waste to landfill as husks are effectively repurposed into fertilizer and biomass fuel. Food waste: -67.40% (beat target of -35% vs 2018 baseline)

Social Responsibility - People come first
What Matters Most: Safety, environment, community impact

Employees lead safety: We train, conduct drills, and engage communities.
Supply Chain: Optimized logistics, fewer emissions. We partner with suppliers to drive sustainability upstream.
