Aderemi Saka, Managing Director, said:

I am pleased to present NASCON Allied Industries Plc's unaudited financial results for the six months ended 30 June 2026. Our first half performance demonstrates the resilience of our business model, disciplined execution of strategic priorities, and ability to deliver sustainable growth despite a dynamic operating environment.

Revenue increased by 4% to ₦81.2 billion, supported by sustained demand across our core product categories and continued market penetration initiatives. More importantly, our focus on operational efficiency, cost optimization, and margin management enabled us to deliver stronger profitability growth ahead of revenue growth.

Gross profit rose by 9% to ₦40.8 billion, while gross profit margin improved to 50% from 48% in the corresponding period of 2025. EBITDA increased by 6% to ₦24.10 billion, with EBITDA margin strengthening to 30%, reflecting our commitment to operational excellence and disciplined cost management across the value chain.

Profit before tax increased by 28% to ₦29.7 billion, while profit after tax grew by 26% to ₦19.60 billion. Earnings per share also improved by 26% to ₦14.51, reinforcing the quality of our earnings and our ability to translate operational performance into value for shareholders.

Our balance sheet remains strong, with total assets increasing by 45% to ₦161.6 billion and cash and cash equivalents rising by 26% to ₦46.1 billion. This healthy liquidity position provides the flexibility to support growth initiatives, maintain operational resilience, and capitalize on emerging opportunities.

Beyond our financial performance, we are delighted to announce another significant capital market milestone. During the period, NASCON Allied Industries Plc was admitted into the prestigious Nigerian Exchange (NGX) 30 Index following the Exchange's half-year review of its market indices. This inclusion places NASCON among the thirty most capitalized and liquid companies on the Nigerian Exchange and reflects the sustained confidence of investors in our business fundamentals, corporate governance standards, and long-term growth prospects.

As we look ahead to the second half of the year, we remain focused on driving operational efficiency, strengthening our market leadership position, optimizing our product portfolio, and creating sustainable value for all stakeholders. We are confident that our strategic initiatives, strong financial position, and dedicated workforce will continue to support profitable growth and long-term shareholder returns.

About Nascon Allied Industries Plc

NASCON Allied Industries Plc is Nigeria's leading refiner and distributor of household, food processing and industrial use salt. The company has since evolved with additional business lines to include Seasoning with production. It has facilities in Lagos State (Apapa), Ogun State (Ota), and Rivers State (Port Harcourt).

The Apapa refinery, located in the Apapa Port of Lagos, was commissioned in 2001. The Port Harcourt refinery located in the seaport in Rivers State was commissioned in 2003. The Oregun plant was commissioned in 2004 to produce refined salt. Oregun plant was converted to a fleet workshop in 2021 with the commissioning of the new state-of-the-art refinery at Salt Village, Apapa.

We made a strategic decision in 2011 to grow the company through new product lines. We took advantage of our existing site in Ota and we commissioned a state-of-the-art Seasoning plant in 2014. Our plants are primarily powered through the National Grid with generators fueled by gas or diesel, with combined capacity to generate 6.1MW of power.

A member of the Dangote Group of companies, NASCON is squarely committed to achieving the mission and vision of the group through our products and every interaction.
