

PRESS RELEASE

Regulated Information

Aradel Holdings Plc releases its unaudited results for the period ended 30 June 2026.

Lagos, Nigeria - 31 July 2026: Aradel Holdings Plc ("Aradel", "Aradel Holdings", "the Company" or "the Group"), Nigeria's leading integrated indigenous energy company, today announces its unaudited half year results for the period ended 30 June 2026.

Operational Highlights

- Group production averaged 139.5 kboepd up 523% from 22.4 kboepd in H1 2025.
 - Average daily crude oil production of 55.6 kbopd (H1 2025: 15.5 kbopd), a 258% increase from H1 2025.
 - Average daily gas production increased by 1,121% to 503.2 mmscf/d (H1 2025: 41.2 mmscf/d), driven by improved pipeline availability and sustained customer demand.
- Refined product output of 126.2 million litres, 22% below the comparative period (H1 2025: 161.4 million litres), reflecting constrained feedstock availability and unplanned plant downtime during the first quarter.
 - Q2 2026 recovered to 67.5 million litres, 15% above the first quarter (Q1 2026: 58.7 million litres), following measures taken to secure feedstock supply and restore plant availability.

Financial Highlights

- Gross Revenue of ₦2,491.5 billion, up by 577% (H1 2025: ₦368.1 billion), reflecting higher production volumes together with stronger realised crude oil and gas prices. Average realised price of US\$90.4/bbl and US\$2.08/mmscf
- EBITDA totalled ₦1,389.2 billion, up 688% compared to prior year (H1 2025: ₦176.4 billion).
- Operating profit of ₦1,055.2 billion, up by 789% (H1 2025: ₦118.6 billion), on higher revenue and crude handling income (₦149.8 billion), partly offset by underlift cost and general and administrative costs.
- Net cash generated from operations of ₦975.6 billion, 6.9x the prior period (H1 2025: ₦140.8 billion), reflecting the cash generation of the enlarged Group.
- Cash and cash equivalent of ₦1,717.6 billion as at 30 June 2026 (31 December 2025: ₦1,504.7 billion), up 14%.
- Net debt stood at ₦46.5 billion, a 70% decrease compared to ₦475.1 billion at year end 31 December 2025.

Mr. Adegbite Falade, Chief Executive Officer, commented:

"The Group delivered a strong first-half performance. Revenue of ₦2,491.5 billion and EBITDA of ₦1,389.2 billion, with an EBITDA margin of 55.8%, reflect production of 25.2 mmboe and sustained gas offtake at 503.2 mmscf/d. Refined output strengthened through the period, with second-quarter volumes of 67.5 million litres, 15% above the first quarter, as measures to secure feedstock supply and restore plant availability took effect.

A firmer price environment supported performance, generating net cash from operating activities of ₦975.6 billion and a closing cash balance of ₦1,716.6 billion. This drove the reduction in net debt to ₦46.5 billion at year end, from ₦475.1 billion in the prior year.

Our priorities for the second half of the year are unchanged: optimising our enlarged portfolio and improving operational efficiency. Our enlarged portfolio provides more opportunities to generate stronger cash flow and returns for shareholders and unlocking that potential is our main focus. We reaffirm our full year production guidance of 110 – 140 kboepd and remain committed to operating responsibly in a changing energy landscape and to delivering lasting value for our stakeholders."

Forward looking statements

Certain statements in this document may constitute forward-looking information or forward-looking statements under applicable Nigerian Securities laws (collectively "forward-looking statements"). Forward-looking statements are statements that relate to future events, including the Company's future performance, opportunities, or business prospects. Any statements that express or involve discussions with respect to expectations, forecasts, assumptions, objectives, beliefs, projections, plans, guidance, predictions, future events or performance (often, but not always, identified by words such as "believes", "seeks", "anticipates", "expects", "continues", "may", "projects", "estimates", "forecasts", "pending", "intends", "plans", "could", "might", "should", "will", "would have" or similar words suggesting future outcomes) are not statements of historical fact and may be forward-looking statements.

By their nature, forward-looking statements involve assumptions, inherent risks and uncertainties, many of which are difficult to predict, and are usually beyond the control of management, that could cause actual results to be materially different from those expressed by these forward-looking statements. Undue reliance should not be placed on these forward-looking statements because the Company cannot assure that the forward-looking statements will prove to be correct. As forward-looking information addresses future conditions and events, they could involve risks and uncertainties including, but are not limited to, risk with respect to general economic conditions, regulations and taxes, civil unrest, corporate restructuring and related costs, capital and operating expenses, pricing and availability of financing and currency exchange rate fluctuations. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements.
