NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 30 JUNE, 2026

1 General Information

The principal activities of the Company include provision of services including aircraft/ramp handling, cargo handling, passenger handling, premium lounge, aviation security and baggage reconciliation.

On 3rd of December 2009, SIFAX Shipping Limited and Global Apex Logistic Limited through Skyway Aviation Handling Company Limited acquired 100% interest of the Federal Government in Skypower Aviation Handling Company Limited due to the privatisation of the company.

In 2018, SAHCOL undertook a business combination with Skypower wherein both companies were consolidated with SAHCOL as the surviving entity.

Skyway Aviation Handling Company Limited became a Public Limited Company on 5th October, 2018.

The Corporate Headquarters is located at Skyway Aviation Handling Company Plc. Complex, Cargo Terminal, Murtala Muhammed International Airport, Ikeja, Lagos State, Nigeria.

2 Significant accounting policies

The principal accounting policies applied in the preparation of these condensed financial statements are set out below. These policies have been consistently applied to all the years presented unless otherwise stated.

2.1 Statement of Compliance

The condensed financial statements for the period ended 30 June 2026 have been prepared in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IASB"), and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB (together "IFRS") and requirements of the Companies and Allied Matters Act (CAMA) of Nigeria and the Financial Reporting Council (FRC) Act of Nigeria.

Skyway Aviation Handling Company Limited has consistently applied the same accounting policies and methods of computation in its financial statements as in its 2025 financial statements.

None of the new standards, interpretations and amendments, effective for the first time from 1st January 2025, have had a material effect on the financial statements.

2.2 Basis of preparation

These condensed accounts do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the 2025 Financial Statements.

The financial statements have been prepared under the historical cost convention except for some financial assets and liabilities measured at fair value and amortised cost; inventory at net realisable value; and the liability for defined benefit obligations is recognised as the present value of the defined benefit obligation and related current service cost.

2.3 Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.
