## INTRODUCTION

Prestige Assurance Plc ("the Company") remains committed to the highest standards of corporate governance, recognising that sustainability is achievable only through sound governance practices, which are necessary for effective management and control of the Company's business with a view to maintaining the shareholders' value and meeting the expectations of other stakeholders. Our commitment reflects a deliberate focus on sustainable growth and value creation anchored on our core values. In furtherance of the commitment to high ethics, conduct, we regularly review our processes and practices to ensure compliance with the legislative and best practice changes in the global corporate governance environment.

During the year ended 31st December 2025, the Company complied with the provisions of its Memorandum and Articles of Association, the Companies and Allied Matters Act 2023 (CAMA), the Nigerian Code of Corporate Governance 2018 (the "Nigerian Code") issued by the Financial Reporting Council of Nigeria (FRCN), along with its Audit Regulation, the Nigerian Exchange Limited (NGX) Listing Rules, SEC Rules, Corporate Governance Guidelines of the Securities and Exchange Commission (SEC), the Nigerian Insurance Commission (NAICOM) Corporate Governance Guidelines 2021, International Best Practices, and its Internal Governance Policies. These covers a wide range of issues including Board structure, quality of Board members, duties of the Board, conduct of the Board of Directors, Committees of the Board, and rights of Shareholders.

This report serves as a testament to our dedication to sound governance principles, which underpin our pursuit of long-term value creation for our stakeholders.

## 1. COMPOSITION OF BOARD OF DIRECTORS

The governance of the Company resides with the Board of Directors, which, as the highest governing body, is central to the Company's corporate governance framework. The Board is accountable to shareholders for creating and delivering sustainable value through its effective stewardship and management of the Company. It is responsible for ensuring the efficient operation of the Company and for overseeing the full discharge of its legal, financial, and regulatory obligations.

The Board is responsible for setting and monitoring the implementation of the Company's corporate strategy, reviewing overall performance, managing material conflicts of interest, and providing strategic direction and oversight to Management. It approves the terms of reference and procedures of all Board Committees, monitors the effectiveness of the Company's governance processes and structures, and reports to shareholders on the stewardship of the Company's resources. These oversight responsibilities are discharged through its various Committees, of which there are five, established to ensure effective management and direction of the Company.

The Board comprises individuals with diverse disciplines, skills, and competencies, selected on the basis of their professional backgrounds, industry experience, integrity, and knowledge of the Company's operations. The Directors are fully cognisant of their responsibilities and possess a clear understanding of the Company's strategic objectives. The effectiveness of the Board is underpinned by its appropriate tenure and mix of skills, enabling it to exercise sound judgement in matters relating to the Company's business. In discharging their duties, the Directors act in good faith, with due care, skill, and diligence, and in the best interests of the Company and its stakeholders.

The Board is of an appropriate size relative to the scale and complexity of the Company's operations and comprises a balanced mix of Executive Directors, Non-Executive Directors, and Independent Non-Executive Directors. The number of Non-Executive Directors exceeds that of Executive Directors, thereby ensuring effective oversight. Furthermore, there is a clear separation between the roles of the Chairman and the Managing Director, and both individuals are not members of the same extended family, in line with established corporate governance principle.

In compliance with the provision of the Company's Articles of Association, the Board of Directors comprises eight (8) members, including the Chairman, who is an Independent Non-Executive Director. The Board further comprises four (4) other Non-Executive Directors, one of whom represents minority shareholders, one (1) Managing Director, one (1) Executive Director, and one (1) additional Independent Non-Executive Director appointed in accordance with the criteria prescribed by the National Intelligent Commission (NAICOM) and the Nigerian Code of Corporate Governance for the appointment of Independent Non-Executive Directors. The Independent Non-Executive Director does not hold any significant shareholding interest in the Company and has no material business relationship with the Company that could impair independence.

The membership of the Board as at 2025, year-end is as follows:

| S/N | NAMES OF BOARD MEMBERS     | DESIGNATION                        | GENDER |

\* Mrs. Smriti Sekhawat resigned on 21st December 2025;

\* Mr. Umesh Radhak, assumed office on 17th June 2025

## ROLES OF KEY OFFICERS OF THE BOARD

The key offices of the board and their roles are stated under:

### i. THE CHAIRMAN

In alignment with the Nigerian Code of Corporate Governance and established best practices, the roles of the Chairman of the Board and the Managing Director are separate and held by different individuals. This structure ensures a clear division of responsibilities, powers, and authority, promotes effective attacks and balances, and reinforces the independence of the Board. The Chairman and the Managing Director are not members of the same extended family. Furthermore, the Chairman of the Board does not serve as a member or a predecessor of any of the Board Committees.

The Chairman provides strategic leadership and is responsible for overseeing the governance and effectiveness of the Board, ensuring that it operates efficiently and fully discharges its statutory, legal, and regulatory obligations. The Chairman also manages the affairs of the Board and sets its agenda in consultation with the Managing Director and the Company Secretary. In addition, the Chairman facilitates the effective contribution of Non-Executive Directors, fostering constructive relationships and open communication both within and outside the Boardroom, and ensuring Non-Executive harmonious interaction between Executive Directors and Independent Directors. The Chairman ensures that Directors are provided with accurate, timely, and clear information to enable informed decision-making, effective monitoring, and the provision of sound advice in support of the Company's success. The Chairman also ensures the orderly and effective conduct of Board meetings and plays a pivotal role in ensuring that the Board and its Committees possess the appropriate mix of skills, experience, and competencies required to achieve the Company's strategic objectives.

### ii. MANAGING DIRECTOR

The Managing Director bears overall responsibility for the execution of the Company's long-term strategy, with a view to creating sustainable value for shareholders and other stakeholders. The Board has delegated responsibility for the day-to-day management of the Company to the Managing Director, who is accountable for providing leadership to Management and overseeing the Company's operations. This includes appointment management, risk management, policy formulation, and the making and implementation of operational decisions aimed at achieving the Company's strategic objectives and ensuring sustainable corporate performance. The Managing Director is accountable to the Board of Directors and is responsible for ensuring that the Company complies fully with the policies of the Board and all applicable regulatory requirements.

Upon appointment, the Managing Director is required to declare any actual or potential conflicts of interest. Such declarations are updated annually, at every Board and Committee Meeting, and as circumstances arise. In line with sound corporate governance practices, the Managing Director does not serve as the chairperson of any Board Committee and is not a member of the Committees responsible for remuneration, audit, or nomination and governance.

### iii. EXECUTIVE DIRECTORS

The Executive Director supports the Managing Director in the operations and management of the Company. In line with corporate governance best practices, the Executive Director does not serve as chairperson of any Board Committee and is not a member of the Committees responsible for remuneration, audit, or nomination and governance. The Executive Director's contract of employment, roles, and responsibilities are set out in a formal contract of employment. Upon appointment, the Executive Director is required to declare any actual or potential conflicts of interest. Such declarations are updated annually, at every Board and Committee meeting, and as circumstances arise.

### iv. NON-EXECUTIVE DIRECTORS

The roles, responsibilities, duties and liabilities of Non-Executive Directors are clearly outlined in their letters of appointment and in the Board Charter. Upon appointment, all Directors undergo an induction programme tailored to their individual inquiries, in accordance with the Directors' Orientation, Induction, and Continuing Education Policy, relevant to the provisions of the Nigerian Code of Corporate Governance. Non-Executive Directors are provided with comprehensive information on Management and all Board-related matters to support their oversight role. Non-Executive Directors have unrestricted access to the Managing Director, the Company Secretary, and the Management team. They are required to declare any actual or potential conflicts of interest upon appointment, and such declarations are subsequently reviewed and updated annually, at every Board and Committee meeting, or as circumstances arise.

### v. INDEPENDENT NON-EXECUTIVE DIRECTOR

The Board includes Independent Non-Executive Directors who are specifically tasked with protection of the rights and interests of shareholders. An Independent Director does not represent any particular shareholder interest, nor does he or she hold any material business interest in the Company, thereby ensuring objective and impartial contributions to the Company's development. The duties, liabilities, and terms of engagement of Independent Non-Executive Directors are clearly defined in their letters of appointment. The Board annually assesses and confirms the independence of each Independent Non-Executive Director through their declarations of conflicts of interest.

All Directors have access to independent professional advice at the discretion of their duties, as provided for in the Company's Board Charter. The Company bears the cost of obtaining such independent professional advice.

### vi. COMPANY SECRETARY

The Company Secretary serves as a key point of contact and support for all Directors, providing independent advice to advise and guide them. The Company Secretary plays a vital role in ensuring the effectiveness of the Board's decisions and the implementation of sound corporate governance practices. Responsibilities include overseeing compliance with Board procedures, the Company's Memorandum and Articles of Association, and all

applicable laws and regulations. By supporting the Chairman and the Board, the Company Secretary helps strengthen governance frameworks that promote long-term shareholder value and integrity in the formulation of an annual Board Plan, alongside the adoption of other strategic matters of the Board level.

A core aspect of the role involves coordinating and acting as a liaison to facilitate the flow of information and communication within the Board, its Committees, and between Management and Non-Executive Directors. The Company Secretary also supports the nomination of new Directors and encourages their ongoing professional development to ensure they are able to contribute effectively to the Board's objectives.

Where necessary, the Board may, through the Company Secretary, engage external consultants or advisers to provide independent expertise. Additionally, the Company Secretary is responsible for organising Board and Committee meetings, developing agendas, attending meetings, and preparing accurate minutes of proceedings.

## 2. GENDER DIVERSITY

The Board recognises that gender diversity is fundamental to the Company's long-term success and sustainability. It enhances the quality of discussions among Directors, better reflects the Company's relationship with its stakeholders, and strengthens overall stewardship.

The Company continues to foster a diverse and inclusive culture by actively promoting increased representation of women on the Board, in management roles, and across the workforce, subject to the availability of vacancies and suitably qualified candidates. Notably, the Company has achieved 50% gender representation on the Board, reflecting its commitment to gender diversity. The Company remains dedicated to advancing other dimensions of diversity in line with global best practices and will report on its ongoing efforts in future disclosures.

## 3. BOARD NOMINATION PROCESS

The process for the selection, nomination and appointment of a candidate to the Board is governed by the Company's Policy on Selection, Appointment, and Succession Planning. This Policy ensures that the Board maintains an optimal combination of experience, skills, and commitment, thereby enhancing its overall effectiveness. The Board establishes and serves upon the criteria for the desired experience and competencies of new Directors. In particular, the criteria for Non-Executive Directors are carefully determined to ensure that proposed appointees contribute positively to the Board's composition. In reviewing the Board's structure, consideration is given to diversity of background, balance, and the appropriate mix of skills and experience among Non-Executive Directors. All appointments are subject to the approval of the National Insurance Commissioner (NACOM). Shareholding in the Company is not a factor in the selection or appointment of a Director. Instead, the following core values are regarded as critical when considering a candidate for appointment:

- i. Integrity
- ii. Professionalism
- iii. Career Success
- iv. Goodwill

## 4. INDUCTION AND CONTINUOUS TRAINING OF BOARD MEMBERS

Upon appointment to the Board and its Committees, all Directors receive a formal induction programme tailored to their individual requirements. New Directors are oriented on the Company and its operations by the Company Secretary, listing the provisions of the Company's Articles of Association, relevant statutory records, regulations, and comprehensive operational information. Directors are provided with a mandate and terms of reference to guide the performance of their duties. Management further facilitates the familiarisation of new Directors with the Company's operations through targeted training sessions or seminars, as required, to ensure they can effectively discharge their responsibilities. The training and development of Directors on matters relating to their corporate functions is a continuous process, aimed at keeping them updated on emerging trends in the insurance industry and changes in the business environment.

The Board maintains a Board Training Policy in accordance with the Nigerian Code of Corporate Governance. The Policy outlines training objectives, scope, programmes, and budget, among other provisions. Directors' training needs are assessed based on the outcomes of Board performance evaluations and peer assessments, consistent with the Board Training Policy. Continuing education supports Directors in reinforcing familiarity with their roles and responsibilities, corporate governance practices, and Company's strategic objectives, operational matters, and the broader business environment.

Directors also participate in additional training sessions as necessary to enhance their knowledge, strengthen their oversight capability, and promote effective Board performance. The following development programmes were attended by Directors during the period under review:

- 1. Solvency Control and Intervention Framework for Insurance and Reinsurance Companies in Nigeria
- 2. Reinsurance Underwriting and Claims – An Evolving Landscape
- 3. Solvency Control and Intervention Framework for Insurance Companies in Nigeria
- 4. APRI Committee Summit: Shaping High Performing Risk Committees
- 5. Navigating the New Insurance Landscape: Strategies for NIRA 2025 Compliance and Growth during the Insurance Directors Conference.

## 5. ANNUAL BOARD APPRAISAL AND EVALUATION

The Corporate Governance Guidelines for the insurance industry recognises that a good corporate governance framework must be anchored on an effective and accountable Board of Directors whose performance is assessed periodically. The assessment of the effectiveness of the Board is key in the

Board Governance Structure. The Board undergoes a rigorous Evaluation process every year to assess the performance of the Board, its committees, individual directors and assessment of the Corporate Governance Framework. The annual appraisal covered all aspects of the Board's structure, composition, responsibilities, processes, relationships, individual members' competencies and respective roles in Board performance, as well as the Company's compliance status with the provisions of NAICOM.

#### 6. ROLE OF THE BOARD

The Board has an approved Charter that specifies the roles, terms of reference and responsibilities of the Board, its Directors and Committees. The Board determines the strategic objectives of the Company to deliver long-term growth and short-term goals. In fulfilling its primary responsibility, the Board is aware of the importance of achieving a balance between commitments to governance principles and economic. The powers reserved for the Board include the following:

- the formulation and approval of the strategic objectives and policies of the Company to deliver long-term value; approval of the Company's strategy, medium- and short-term plan and its annual operating and capital expenditure budget;
- approval of quarterly, half-yearly and full year financial statements (whether audited or unaudited) and any significant change in accounting policies and/or practices;
- ensuring the integrity of annual reports and accounts and all material information provided to regulators and other stakeholders;
- ensuring the establishment and implementation of a governance plan, operational process, warning mechanism and remuneration structure for both the Board and executive directors;
- overseeing the internal audit function, seeking explanations from management in case any of the key audit recommendations are not being addressed;
- establishing the Company's risk management framework and monitoring its effectiveness, issuing the Company's risk appetite and receiving and reviewing risk reports;
- providing oversight over information technology governance, overseeing the effectiveness and adequacy of the internal control system.

#### 7. BOARD MEETINGS

The Board of Directors' meetings are held every quarter, and emergency meetings are convened if the need arises, to consider the Company's financial statements for the period and review management accounts for the quarter. At the meetings, the directors also consider the inputs of Board committees, and any other reports pertaining to issues within the scope of the Board's responsibilities. The Annual Calendar of Board and Committee meetings is approved in advance. Directors are also provided with regular updates on developments in the regulatory and business environment. The Board is committed to its commitment to environmental sustainability operates a secure electronic portal for the circulation of board papers to members. The Board met five (5) times during the period ended December 31, 2025, and the record of attendance of Directors at Board meetings is highlighted below.

#### 8. DELEGATION OF AUTHORITY

The ultimate responsibility for the Company's operations rests with the Board. The Board maintains effective oversight through a well-structured committee structure, which enables detailed consideration of its responsibilities. Each Board Committee operates under written terms of reference and reports regularly to the Board on its activities and key recommendations. The Board delegates authority to the Managing Director to manage the affairs of the Company within the parameters determined by the Board from time to time.

#### 9. BOARD COMMITTEES

The Board carries out its responsibilities through its committees, which in the exercise of their powers as delegated, conform to the regulations laid down by the Board, with clearly defined terms of reference, contained in the charter of each Committee setting out their roles, responsibilities, functions and

scope of authority and procedures for reporting to the Board. Membership of the Committees is structured to take optimum advantage of the skills and experience of Non-Executive Directors.

The Board performed its functions through two Standing Committees during the period under review:

- i. Finance, Investment and General-Purpose Committee.
- ii. Risk, Audit and Compliance Committee.
- iii. Establishment, Remuneration and Governance Committee.
- iv. Statutory Audit Committee.
- v. Strategy Committee.

Through these Committees, the Board is able to more effectively deal with complex and specialised issues and to fully utilise its expertise to formulate strategies for the Company. The Committees render reports to the Board at the Board's quarterly meetings and make recommendations to the Board, which retains responsibility for final decision. A summary of the roles, responsibilities, composition and frequency of meetings of each of the Committees are as stated hereunder.

#### i. Finance, Investment and General-Purpose Committee

In accordance General-Purpose with the Committee's Terms of Reference, the Finance, Investment and Committee responsibilities include: the consideration and approval of all investments above management limit, the review and approval of the Investment policies and Manual on a periodic basis and, in particular the financial implications of new and major investments. The Committee also reviews and make recommendations to the Board of Directors with respect to the Company's periodic and long-term financial strategy and objectives. Mr. Aderonke Adediji is the Chairman, Finance, Investment and General-Purpose Committee.

The Committee meets at least every quarter, and as the need arises. The Committee held five (5) meetings in 2025. The table below shows the attendance of the members of the Committee at meetings held during the year.

| S/N | Names of Directors    | Status   |      | 21th | 22nd | 23rd | 22nd    | 2nd      |

#### ii. Risk, Audit and Compliance Committee

The Board Risk, Audit and Compliance Committee has supervisory functions over risk management, the risk profile, the enterprise-wide risk management framework of the Company and the risk appetite strategy as determined by the Board. The Committee's main objective is to fundamentally ensure that the Company's operations comply with the Risk Management Policy as approved by the Board and the relevant regulatory requirements.

The Committee also considers the nature, extent and categories of the significant risks facing the Company, and the likelihood of such risks materializing, the Company's ability to reduce the incidence and the impact on the business, if the risks do materialize. The Committee is responsible for overseeing management's process for the identification of significant risks across the Company, and the adequacy of prevention, detection and reporting mechanisms.

The Committee also reviews large underwritten risks in order to verify the adequacy of the reinsurance cover. Mr. N.S.R. Chandra Prasad is the Chairman, Risk, Audit and Compliance Committee. The Committee held five (5) meetings in 2025. The table below shows the attendance of the members of the Committee at meetings held during the year.

| S/N | Names of Directors        | Status        | 10th    | 25th     | 20th | 21st | 21st    |

**iii. Establishments, Remuneration and Governance Committee**

The Establishments, Remuneration and Governance Committee has oversight of nominations, remuneration and governance matters. The Committee selects and reviews the skills and experience required on the Board establishing the criteria for appointment to the Board and Board committees, reviewing prospective candidates' qualifications and any potential conflict of interest; assessing the contribution of current Directors against their remuneration liability; and making appropriate recommendations to the Board.

The Committee also ensures that the Board undertakes, an annual performance evaluation of itself, its committees, the Chairman and individual Directors, as well as the Company's corporate governance practices, and that a succession policy and plan exist for the Board, and Senior Management. The Committee develops a formal, clear and transparent framework for the Company's remuneration policies and procedures and ensures the development and periodic review of Board charters, Board committee charters and other governance policies.

The Committee meets quarterly, and as the need arises to deliberate and make recommendations on the Board skill mix and diversity, as well as the remuneration of Directors and Senior Executives of the Company in line with the Company's Remuneration Policy and Corporate Governance best practices. Dr Mosike Agokeri is the Chairman, Establishments, Remuneration and Governance Committee.

The Committee held four (4) meetings in 2025. The table below shows the attendance of the members of the Committee at meetings held during the year.

P – Present

#### 10. REMUNERATION OF NON-EXECUTIVE DIRECTORS

The company's policy on remuneration of non-Executive directors is guided by the provisions of the Companies and Allied Matters Act 2024, MCDOM and SEC Codes which stipulate that the remuneration for Non-Executive Directors' should be limited to Directors' fees and reimbursable travel and hotel expenses. Directors' fees and sitting allowance was paid to only Non-Executive Directors as recommended by the Board Establishment, Remuneration, and Governance Committee.

#### 11. MANAGEMENT TEAM

The Managing Director manages the day-to-day operations of the Company, with support from other members of the Management Team. The Management Team is responsible for ensuring the day-to-day management of the Company's operations in alignment with the strategic direction and policies approved by the Board. The Management ensures that business objectives are achieved through sound decision-making, effective resource allocation and coordinated execution.

The MD oversees the Management Team and is responsible for ensuring that the Management adheres to the approved business plan and practices as well as complies with applicable laws and regulations. The Management Team is made up of the Company's Executives. The Management Team holds formal meetings as the board comes to deliberate on critical issues affecting the day-to-day running of the Company. The list of the Management Team and their portfolio is available in this Annual Report.

#### 12. BOARD CHANGES

During the year 2025, the following Board changes occurred:

| S/N | NAME OF DIRECTOR  | DESIGNATION            | DATE OF CHANGES                            |

| 4   | Mr. Umesh Rajad   | Managing Director      | Assumed office effective on 17th June 2025 |

#### 13. INDEPENDENT ADVICE

The Board of Directors are at their own discretion and at the Company's expense required to seek independent professional advice when required to enable a Member of the Board effectively perform certain responsibilities.

#### 14. RELATIONSHIP WITH SHAREHOLDERS

The Board and Management of the Company ensures that communication and dissemination of information regarding the operations of the Company to shareholders, stakeholders, potential investors and the general public is timely, accurate and continuous. The Company recognizes the rights of its shareholders and other stakeholders, and is driven to deliver desired value to these shareholders and stakeholders. The shareholders are provided with detailed information on the Company's activities and financial results through the annual accounts. They are also provided with the opportunity to make enquiries, submit information, share ideas and express their concerns and opinions on the Company's financial results and on all issues communicated to them at the Annual General Meeting of the Company.

The Annual General Meetings are conducted in a fair and transparent manner where the regulators and other stakeholders are invited. The Company also disseminates its annual reports, providing highlights of all the Company's activities to its shareholders. The Board ensures the protection of the statutory and general rights of shareholders at all times, particularly their right to attend and vote at general meetings. All shareholders are treated equally, regardless of volume of shareholding or stake class. The Board also has a well-defined communication pattern with the shareholders subject based on the Shareholders Engagement Policy available on the company's website.

## 15. INTERNAL MANAGEMENT STRUCTURE

The Company operates an internal management structure where all officers are accountable for duties and responsibilities entrusted to their respective offices and there are clearly defined and acceptable lines of authority and responsibility. An annual appraisal of the duties assigned and dedicated to each person is done by the first quarter of the preceding year.

## 16. COMMUNICATION POLICY

It is the responsibility of Executive Management under the direction of the Board, to ensure that the Board receives adequate information on a timely basis, about the Company's business and operations at appropriate intervals and in an appropriate manner, to enable the Board to carry out its responsibilities. Furthermore, the Board and Management of the Company ensures that communication and dissemination of information regarding the operations and management of the Company to shareholders, stakeholders and the general public is timely, accurate and continuous, to give a balanced and fair view of the Company's financial and non-financial matters.

Such information, which is in plain language, readable and understandable, is available on the Company's website, [www.prestigeassurancet.com](http://www.prestigeassurancet.com).

The website also has an Investors Relations portal where the company's annual reports and other relevant information about the company is published and made accessible to its shareholders, stakeholders and the general public.

## 17. STATEMENT ON THE COMPANY'S ESG ACTIVITIES

The Company is aware of its responsibilities on Environmental, Social and Governance activities and is Committed to economic growth and societal value creation by supporting the development of the insurance industry, supporting internal and external stakeholders as well as the society in which it operates while promoting the education of the present and next generations.

By recycling stationeries, reducing palm production companywide and digitalising all its processes, the Company ensures a more sustainable, healthier social environment for its people and stakeholders. The Company also has a focus on developing its products and services while strengthening its corporate governance structures based on the recognition that the promotion of various initiatives is essential for the maintenance and development of both the economy and society.

Other support provided by the company is referenced under The Donations and Charitable Gifts of the company in this Annual Report.

## 18. RISK MANAGEMENT FRAMEWORK

The Board of Directors have the responsibility of safeguarding, and the maintenance of a sound system of internal control and risk management, and regularly receives reports from the Risk Audit and Compliance Committee on the effectiveness of the Company's risk management processes to support its strategy and objectives. The Board defines the Company's risk appetite and limit. Risk assessments and reviews are conducted at least quarterly for the review of risk management reports.

In line with good corporate governance practice, the Company has established a sound framework for the management of the Company-wide Risks. The Enterprise Risk Framework was developed in accordance with the Company's commitment to establish and sustain risk management in line with international standards and best practices. The Risk Management function primarily ensures minimization of the divergence between expectation and outcome, thus ensuring the realization of more predictable results, which can only be achieved through a robust framework, and clearly defined and independent risk management process.

### i. Scope of Risks

The framework is designed to integrate risk management into the company's business processes, ensuring that all staff members, from top management to frontline employees, are engaged in risk management activities. Therefore, the framework applies to all design inputs, business units, and operations of Prestige Assurance PLC. It covers the full spectrum of risks, including strategic, operational, financial, regulatory, and reputational risks.

### ii. Setting Risk Tolerance Level

Risk tolerance defines the acceptable limits of risk within specific categories (e.g., financial, operational) that align with the overall risk appetite. These levels act as thresholds, guiding decisions and ensuring risk exposure stays within manageable limits.

### iii. Approach to Enterprise Risk Management

The Company strive to embed risk management into the organizational culture, ensuring that it is integral to decision-making processes. By maintaining a balance between risk and opportunity, we protect our assets, enhance operational efficiencies, and sustain long-term value creation for our stakeholders.

### iv. Risk Management Procedures

The process involves engagement with stakeholders also known as risk owners at the various departments within the Company. The engagement takes a one-on-one discussion around the operations within the purview of the risk owners with the aim of assessing the inherent and residual exposures that could hinder the earning capacity of the company. Our risk management process ensures better management, prevention, and compliance with laws and regulations relevant to our business operations. The risk management processes are:

- **Risk Identification:** Proactively identify risks that could affect the company's objectives, through internal reviews, external analysis, and stakeholder input.
- **Risk Assessment:** Evaluate the likelihood and potential impact of identified risks, categorizing them by severity.
- **Risk Response:** Develop strategies to manage risks, such as avoidance, mitigation, transfer, or acceptance, based on risk appetite.
- **Risk Monitoring:** Continuously track risks and the effectiveness of risk responses, ensuring emerging risks are detected and addressed.
- **Risk Reporting:** Communicate risk exposures, responses, and status to key stakeholders, including the Board, management, and relevant departments.

#### 19. HUMAN RESOURCE POLICY HIGHLIGHTS

The Company continues to reinforce governance frameworks, stick to, as well as proactively design human resource practices that will amplify it's strategic dynamics of the workplace. Further, The Human Resources policies are reviewed periodically as part of the company's commitment to ensure continued applicability and growing changes in the Human Resource space and work space dynamics. In furtherance of our strategy, we will continue to embrace multiple change management approaches that guarantee a customer experience culture that provides value to our stakeholders.

- **Recruitment and Selection Policy** seeks to attract, select, recruit and retain talents with the right skill set, aptitude, experience and qualifications to meet business exigencies, whilst offering a rewarding and fulfilling career with opportunities for growth and personal development.
- **Performance Management Policy** establishes and maintain a performance culture, creating an enabling environment for employees to develop their abilities and achieve optimal possible potential to ensure a workplace where the staff performance review process is fair, consistently applied and shall not be perceived nor used as a punitive system. The process is designed to measure the achievement of individual and company strategic goals.
- **Compensation and Benefit Policy** adopts a compensation philosophy that ensures employees are equitably remunerated within competitive market salary scales to drive and reward excellent performance.

#### 20. INSIDER TRADING AND PRICE SENSITIVE INFORMATION

The Company is clear in its prohibition of insider trading by its Board, Management, Officers and related persons who are privy to confidential, price sensitive information. Such persons are further prohibited from trading in the Company's securities where such transactions would amount to insider trading. Directors, insiders and related parties are prohibited from disposing, selling, buying or transferring their shares in the Company for a period commencing from the date of receipt of such insider information until such a period when the information is released to the public or any other period as defined by the Company from time to time.

#### 21. TRADING IN COMPANY SECURITIES

The Company has an Insider Trading Policy, in line with the provisions of the Investment and Securities Act 2025, the Nigerian Exchange Post-Listing Rules, the Nigerian Code of Corporate Governance. The Policy prohibits Directors, employees and any other person in possession of insider information from dealing in the Company's shares during a Non-Authorised Trading Period or Closed Period as defined by applicable laws and regulations.

The Company's Directors and employees are therefore notified of the prohibition on dealing in the Company's shares during the Closed Periods, in accordance with the Investment and Securities Act, 2025, the Post-Listing Rules of the Nigerian Exchange Group and the Company's policy on Insider Trading. The Securities Trading Policy can be found on the Company's website [www.prestigeassuranceplc.com](http://www.prestigeassuranceplc.com).

#### 22. COMPLAINTS MANAGEMENT POLICY

In compliance with the Securities and Exchange Commission's Rule on Complaints Management for Public Companies, the company has in place an investor complaint desk at its head office to resolve complaints arising from dispute covered under the Investment and Securities Act 2025 (ISA). The purpose of the Policy is to establish an effective and efficient complaints management system that is responsive, confidential, available and transparent.

The highlights of the Policy are for

- provides an avenue for customer's complaints and dispute resolutions;
- recognises, promotes and protects the customer's right, including the right to comment and provide feedback on service;
- provide an efficient, fair and accessible framework for resolving customer complaints and and
- incorporating feedback to improve service delivery;
- inform customers on the customer feedback handling processes; and
- provides staff with information about the customer feedback process.

The framework functions to enable complaints to be fully investigated and possible conflicts of interest to be identified and mitigated. A copy of the Complaints Management Policy can be found on the Company's Website, [www.prestigeassuranceplc.com](http://www.prestigeassuranceplc.com).

## 23. STATEMENT ON COMPLIANCE

### i. Code of Business Conduct and Ethics Policy

The company has a Board approved Code of Business Conduct and Ethics which sets out core principles and practices that guide each and every member of the Board, Management and employees in their conduct and decision-making for the company. The directors, Management and employees are stressed with the Code of Business Conduct and Ethics and have declared their understanding of their fiduciary duty to shareholders and other stakeholders of the Company.

All members of staff are expected to strive to maintain the highest standards of ethical conduct and integrity in all aspects of their professional life as contained in the Code of Professional Conduct which prescribes the common ethical standards, culture and policies that governs employee values.

### ii. Anti-Bribery and Corruption Policy

The Board of Directors adopted the Anti-Bribery and Corruption Statement below, in accordance with global best practices and the Company's commitment to uphold the highest standards of ethical business practices. Prestige Assurance Plc remains committed to complying with all applicable laws on anti-bribery and corruption and ensuring that all aspects of its business practices reflect this commitment, including engagements with third parties such as suppliers, customers and other stakeholders.

### iii. Conflict of Interest Policy

The Company has a Conflict of Interest Policy as required by the Nigerian Code of Corporate Governance 2018. The Policy requires Directors and Employees to regularly and as soon as they become aware, declare any actual or potential conflict of interest. Directors declare conflict of interest prior to their appointment, and subsequently annually, or as they arise.

### iv. Whistle Blowing Policy

The Board of Directors adopted the Whistle Blowing Policy, as the Company is committed to conducting its affairs ethically and responsibly. Accordingly, the Company has established a culture where employees feel comfortable to raise any concerns about potential and actual breaches of the Company's internal code of business ethics. The whistle blowing procedure ensures anonymity on any reported incidence(s). The company has a dedicated e-mail address for whistle-blowing procedures.

### v. Data Protection Policy

The Board of Directors adopted the Data Protection Policy, establishing systems to ensure that personal data collected from employees, clients, customers, suppliers, and other stakeholders, are processed in a manner consistent with the requirements of the Nigerian Data Protection Act (NDPA) 2023.

In the year under review, the Company enlisted the services of an authorized Data Protection Compliance Organisation (DPCO) to conduct a comprehensive data protection audit across all business units, aligning with the requirement of the NDPA.

## 24. TENURE OF THE STATUTORY AUDIT COMMITTEE

In accordance with Section 404 (2) of the Companies and Allied Matters Act 2020, the tenure of each Statutory Audit Committee member lasts from the date of election at an Annual General Meeting till the next. The membership may, however, be renewed through re-election at the next Annual General Meeting.

## 25. STATEMENT ON THE BOARD'S LEVEL OF APPLICATION OF THE CORPORATE GOVERNANCE CODE

In accordance with the provisions of the NAICOM Corporate Governance Guidelines for Insurance and Reinsurance Companies in Nigeria, the Nigerian Code of Corporate Governance 2018 and the Securities and Exchange Commission Corporate Governance Guidelines, the Board engaged DC&I Corporate Services Limited to carry out an evaluation of the performance of its Board of Directors to ascertain its level of compliance with the Nigerian Code of Corporate Governance for the year ended December 31, 2025.

The Board, in its commitment to ensure compliance with the Code, has taken steps to remedy gaps identified with the application of the Code. The Board will continue to improve its effectiveness to ensure that it becomes a leading practice reference in Corporate Governance for others to emulate.

### BY ORDER OF THE BOARD

CHIDINMA EKE-LOUIS (MRS.)

Company Secretary

**REPORT OF THE AUDIT COMMITTEE**

In accordance with the Companies and Allied Matters Act, 2020, we have reviewed the audited financial statements of the Company for the year ended 31 December 2025 and report as follows:

The accounting and reporting policies of the Company are consistent within legal requirements and agreed ethics practices, and are in accordance with International Financial Reporting Standards.

The scope and planning of the external audit were adequate.

The Company maintained effective systems of accounting and internal control during the year.

Having reviewed the External Auditor's findings and recommendations on management matters, we are satisfied with management responses thereon.

Dated this 17 March 2026

| Leadway Assurance Company Limited                        | 807,389,393                   | 6.1        | 807,389,393                   | 6.1        |

**iii. The Company's Free Float Position**

The Company is free float deficient of up to 15.49% as at 31<sup>st</sup> December 2025, Thus, has not complied with the free float requirement for companies listed on the Main Board of the Nigerian Exchange Limited (NGX). The Company has obtained an extension of time up to 20<sup>th</sup> August 2027 from the NGX within which to comply and cure the deficiency in the free float requirement.

**11. DIRECTORS' RESPONSIBILITIES IN RELATION TO THE FINANCIAL STATEMENTS**

The Directors are responsible for the preparation of the financial statements that gives a true and fair view of the state of affairs of the Company at the end of each financial year and of the income statement for that year in accordance with the International Financial Reporting Standards (IFRS) and in the manner required by the Companies and Allied Matters Act 2020 (CAMA), Nigerian Insurance Industry Reform Act 2025, and the Financial Reporting Council of Nigeria (Amendment) Act 2023.

The Directors have made an assessment of the Company's ability to continue as a going concern and have no reason to believe that the Company will not remain a going concern for at least twelve months from the date of this financial statement.

**12. ACQUISITION OF OWN SHARES**

The Company did not purchase its own shares during the year under review.

**13. EMPLOYMENT AND EMPLOYEES****i. Diversity in Employment**

The company is an equal opportunity employer. Its recruitment process is devoid of any form of racial, gender or religious bias. The company boasts of a diverse and modern workforce made up of individuals (male and female) with varying skills, backgrounds and experiences. The inclusive environment promotes equity and self-belief among employees and discourages all forms of discrimination. Our policies remain focused on fostering diversity and inclusiveness which are powerful drivers of competitive advantage. The breakdown are as follows.

**a. Composition of Employees by Gender**

1. Total number of females employees – 21
2. Total number of male employees – 59

**b. Board Composition by Gender**

1. Total number of females on the Board – 4
2. Total number of males on the Board – 4

**c. Executive Management (Executive Director to MD) Composition by Gender**

1. Total number of females in Executive Management position – Nil
2. Total number of males in Executive Management position – 2

**d. Top Management (AGM to DGM) Composition by Gender**

1. Total number of females in Top Management position – 3
2. Total number of males in Top Management position – 7

**ii. Employment of Physically Challenged Persons**

It is the Company's policy to consider physically challenged persons for employment bearing in mind the aptitudes and abilities of the applicants concerned and facilities available to them. In the event of any employee becoming disabled in the course of employment, the Company is in a position to arrange appropriate training to ensure the continuous employment of such a person without subjecting him/her to any disadvantage in his/her career development. However, the Company has no employee recorded as disabled.

**iii. Health, Safety and Welfare of Employees**

The Company maintains business premises designed with a view to guaranteeing the safety and healthy living conditions of its employees and customers alike. Fire-fighting equipment are installed in strategic locations within the Company's premises. The Company also subsidizes the medical and transportation expenses of staff and grants them Housing and Lunch allowances. There is a Group Life Insurance Policy for all categories of staff, against occupational and other hazards. It also operates a contributory pension plan in line with the extant Pension Reforms Act. In addition, the Company provides Employee Education Grant to support higher education for one outstanding child for each employee subject to eligibility criteria.

We boosted our workplace Medical Emergency Preparedness with the formal training, retraining and certification of new and old first aiders. The training was conducted by a reputable Health and Safety Firm for the employees. All other health and safety activities were sustained in the reporting year. These included health awareness town hall sessions, health and hygiene inspections of canteen and the commemoration of major world health days such as World Mental Health Day and World Malaria Day.

**iv. Learning and Development**

We firmly believe that employees are the driving force behind business success. We are dedicated to creating a work environment where employees feel valued, inspired and motivated to excel.

The employees are the Company's most valuable and cherished resource. The Company is therefore committed to their continuous training and development which cut across all categories of staff. The courses are aimed at broadening their technical/professional knowledge as well as managerial skills to keep them abreast with new developments in the industry. During the year under review, the Company utilized the professional training services of several organizations for the benefit of staff members.

As we close 2025, the Company remains focused on driving impactful learning initiatives that empower our workforce and contribute to the organization's continued growth and success.

**v. Employee Engagement**

There are regular consultations between the senior and junior staff unions and Management, particularly on matters affecting staff welfare. The employees are regularly provided with information on matters that are of concern to them through established channels of communication.

Throughout the year, we leveraged periodic Town Hall sessions, Open Conversations, and informal platforms to maintain open communication and foster inclusivity. These sessions provided employees with opportunities to share feedback, align on goals, and discuss the company's vision and strategic direction.

**14. CHARITABLE DONATIONS AND CONTRIBUTIONS**

In accordance with the provisions of Section 49(2) of the Companies and Allied Matters Act 2020, the Company did not make any donation or gift to any political party, political association or for any political purpose during the year in review.

A total sum of ₦701,000 (2024: ₦580,000) was donated to non-political and charitable organizations, in order to identify with the aspirations of the community and the environment within which the Company operates.

**15. STATUTORY AUDIT COMMITTEE**

In accordance with Section 404 (3) of the Companies and Allied Matters Act 2020, the Statutory Audit Committee of the Company was constituted at the 55<sup>th</sup> Annual General Meeting held in Lagos, Nigeria on the 23<sup>rd</sup> September 2025, comprising of three (3) shareholders and two (2) Non- Executive Directors namely:

| S/N | Names of Members          | Status                               |
|-----|---------------------------|--------------------------------------|
| 1   | Eng. M.O. Olajiwola Tobun | Chairman/ Shareholder Representative |
| 2   | Mrs Anke Odusote          | Shareholder Representative           |
| 3   | Mr Adelayo Shokoni        | Shareholder Representative           |
| 4   | Mr. N.S.R. Chandra Prasad | Non- Executive Director              |
| 5   | Dr. Nosa Akpaka           | Non- Executive Director              |

The functions of the Statutory Audit Committee are as provided in Section 404(7) of the Companies and Allied Matters Act 2020.

**16. RELATED PARTY TRANSACTIONS**

Details of the related party transactions carried out by the Company are set out in Note 40 of the Financial Statements.

**17. EVENTS AFTER REPORTING DATE**

There were no significant events after the reporting date that could have affected the true and fair view of the Company's state of affairs and disclosures in the financial statements as at that date.

**18. BOARD EVALUATION**

In accordance with the provisions of the NAIACOM Corporate Governance Guidelines for Insurance and Reinsurance Companies in Nigeria, the Nigerian Code of Corporate Governance, 2018 and the Securities and Exchange Commission Corporate Governance Guidelines, the Board in 2023 engaged DCSL Corporate Services Limited to carry out an evaluation of the performance of its Board of Directors to ascertain its level of compliance with the Nigerian Code of Corporate Governance for the year-ended December 31, 2023.

DCSL Corporate Services Limited has carried out Board and Corporate Governance Evaluation Services for 3 consecutive years, from 2023 to date.

**19. AUDITORS**

By a resolution of the shareholders of the Company at the 55<sup>th</sup> Annual General Meeting held in Lagos, Nigeria on the 23<sup>rd</sup> September 2025, Messrs Deloitte and Touche was reappointed as the Company's Independent Auditor.

Deloitte and Touche having satisfied the relevant corporate governance rules on their tenure in office have indicated their willingness to continue in office as Independent Auditors in the Company. In accordance with Section 401(2) of the Companies and Allied Matters Act (CAMA) 2020, therefore, the auditors will be re-appointed at the next annual general meeting of the Company without any resolution being passed.

A resolution will be proposed to authorize the Directors to fix the remuneration of the Independent Auditors.

**BY ORDER OF THE BOARD**

**CHIDINMA IBE-LOUIS (MRS.)**  
Company Secretary  
FRG/2021/PRO/CSAN/002/00000029808

Dated this 17<sup>th</sup> day of March 2026.

**STATEMENT OF CORPORATE RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

In line with the provision of Section 405 of CMAA 2020, we have reviewed the audited financial statements of the Company for the year ended 31 December 2025 and based on our knowledge confirm as follows;

- a) The audited financial statements do not contain any untrue statement of material fact or omit to state a material fact which would make the statements misleading
- b) The audited financial statements and all other financial information included in the statements give a true and fair view of the financial condition and results of operation of the Company as of and for the period ended 31 December 2025
- c) The Company's internal controls have been designed to ensure that all material information relating to the Company is received and provided to the auditors in the course of the audit.
- d) The Company's internal controls were evaluated within 90 days of the financial reporting date and are effective as of 31 December 2025.
- e) That we have disclosed to the Company's auditor and Audit Committee the following information:
  - (i) there are no significant deficiencies in the design or operation of the Company's internal controls which could adversely affect the Company's ability to record, process, summaries and report financial data, and have discussed with the auditor any weaknesses in internal controls observed in the course of audit.
  - (ii) there is no fraud involving management or other employees which could have any significant role in the Company's internal control.
- f) There are no significant changes in internal controls or in the other factors that could significantly affect internal controls subsequent to the date of this audit, including any corrective actions with regard to any observed deficiencies and material weaknesses.

Mr. Umesh Rathod  
Managing Director/CEO

Mr. Oluwadare Emmanuel  
Chief Financial Officer  
FRC/2023/PRC/ICAN/001/0000003649

**STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RELATION TO THE PREPARATION OF THE FINANCIAL STATEMENTS**

The Companies and Allied Matters Act, 2020, requires the Directors to prepare financial statements for each financial year that show the true and fair view, in all material respects, the state of financial affairs of the Company at the end of the year and of its profit or loss and other comprehensive income. The responsibilities include ensuring that the Company:

- a) keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the Company and comply with the requirements of the Companies and Allied Matters Act, 2020;
- b) establishes adequate internal controls to safeguard its assets and to prevent and detect fraud and other irregularities; and
- c) prepares its financial statements using suitable accounting policies supported by reasonable and prudent judgments and estimates and are consistently applied.

The Directors accept responsibility for the preparation and fair presentation of the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with IFRS Accounting Standards as issued by the International Accounting Standard Board, and the relevant provisions of the Companies and Allied Matters Act, 2020, the Insurance Act 2003 and the Financial Reporting Council of Nigeria(Amendment) Act, 2023.

The Directors are of the opinion that the audited financial statements show the true and fair view, in all material respects, the state of the financial affairs of the Company and of its profit and other comprehensive income. The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of the audited financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Company will not remain a going concern for at least twelve months from the date of this statement.

Mrs. Funmi Oyetunji  
Chairman  
FRC/2018/PRO/DIR/003/0000017879

Mr. Umesh Rathod  
Managing Director/CEO  
FRC/2025/PRO/DIR/003/598029

**Assurance Report of Independent Auditor  
To the Shareholders of Prestige Assurance Plc**

**Assurance Report on management's assessment of controls over financial reporting**

We have performed a limited assurance engagement in respect of the systems of internal control over financial reporting of Prestige Assurance Plc as of 31 December 2025, in accordance with the FRC Guidance on assurance engagement report on Internal Control over Financial Reporting and based on criteria established in the Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) ("the ICFR framework"), and the SEC Guidance on Implementation of Sections 80 – 83 of Investments and Securities Act 2007. Prestige Assurance Plc management is responsible for maintaining effective internal control over financial reporting and for assessing the effectiveness of internal control over financial reporting including the accompanying Management's Report on Internal Control Over Financial Reporting.

We have also audited, in accordance with the International Standards on Auditing, the financial statements of the Entity and our report dated May 2026 expressed an *unmodified* opinion.

**Limited Assurance Conclusion**

Based on the procedures we have performed and the evidence that we have obtained, nothing has come to our attention that causes us to believe that the Entity did not establish and maintain an effective system of internal control over financial reporting, as of the specified date, based on the SEC Guidance on Management Report on Internal Control Over Financial Reporting.

**Definition of internal control over financial reporting**

Internal control over financial reporting is a process designed by, or under the supervision of, the entity's principal executive and principal financial officers, or persons performing similar functions, and effected by the entity's board or directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that:

- I. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the entity;
- II. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the entity are being made only in accordance with authorizations of management and directors of entity; and
- III. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the entity's assets that could have a material effect on the financial statements.

## ***Inherent limitations***

Our procedures included the examination of historical evidence of the design and implementation of the Entity's system of internal control over financial reporting for the year ended 31 December 2025. Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## ***Directors' and Management's Responsibilities***

The Directors are responsible for ensuring the integrity of the entity's financial controls and reporting.

Management is responsible for establishing and maintaining a system of internal control over financial reporting that provides reasonable assurance regarding the reliability of financial reporting, and the preparation of financial statements for external purposes in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the ICFR framework.

Section 7(2f) of the Financial Reporting Council of Nigeria (Amendment) Act 2023 further requires that management perform an assessment of internal controls, including information system controls. Management is responsible for maintaining evidential matters, including documentation, to provide reasonable support for its assessment of internal control over financial reporting.

## ***Our Independence and Quality Control***

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality, and professional behavior.

The firm applies the International Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements which require the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

## ***Auditor's Responsibility and Approach***

Our responsibility is to express a limited assurance opinion on the entity's internal control over financial reporting based on our Assurance engagement.

We performed our work in accordance with the FRC Guidance on Assurance Engagement Report on Internal Control over Financial Reporting and the International Standard on Assurance Engagements (ISAE) 3000, Assurance Engagements other than the Audits or Reviews of Historical Financial Information (ISAE 3000) revised. That Standard requires that we comply with ethical requirements and plan and perform the limited assurance engagement to obtain limited assurance on whether any matters come to our attention that causes us to believe that the Entity did not establish and maintain an effective system of internal control over financial reporting in accordance with the ICFR framework.

That Guidance requires that we plan and perform the Assurance engagement and provide a limited assurance report on the entity's internal control over financial reporting based on our assurance engagement.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. As a result, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion on whether the Entity established and maintained an effective system of internal control over financial reporting.

As prescribed in the Guidance, the procedures we performed included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our engagement also included performing such other procedures as we considered necessary in the circumstances.

We believe the procedures performed provide a basis for our report on the internal control put in place by management over financial reporting.

## **INDEPENDENT AUDITOR'S REPORT To the Shareholders of Prestige Assurance Plc**

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the financial statements of Prestige Assurance Plc set out on pages 31 to 164, which comprise the statements of financial position as at 31 December 2025, and the statements of profit or loss and other comprehensive income, the statements of changes in equity and the statements of cash flows for the year then ended, the notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements give a true and fair view of financial position of Prestige Assurance Plc as at 31 December 2025, and its financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, the requirements of the Companies and Allied Matters Act 2020, the Financial Reporting Council Act, 2011, the Nigerian Insurance Industry Reform Act (NIIRA) 2025, and the Financial Reporting Council of Nigeria (Amendment) Act 2023.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the requirements of the International Ethics Standards Board for Accountants' (IESBA) International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), as applicable to audits of financial statements of public interest entities, and other independence requirements applicable to performing audits of financial statements of public interest entities in Nigeria. We have also fulfilled our other ethical responsibilities in accordance with the IESBA Code and other ethical requirements that are relevant to our audit of Financial Statements in Nigeria.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key Audit Matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | How the matter was addressed in the audit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <p><b>Valuation of Insurance Contracts Liabilities</b></p> <p>IFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts.</p> <p>The Company has material insurance contract liabilities of N16.3 billion representing 87% of the Company's total liabilities. Actuarial valuation of these insurance contract liabilities is an area that involves significant judgment over uncertain future outcomes and therefore was an area of significance to our audit.</p> <p>The Company reviews its unexpired risk at the reporting date. Provision for reported claims is based on historical experience; however, the eventual liabilities may differ from the estimated amounts. Furthermore, the estimated liabilities for claims that have occurred but are yet to be reported involve judgment and economic assumptions.</p> <p>Consistent with the insurance industry practice and regulatory guideline, the Company engaged an independent actuary to test the adequacy of the valuation of insurance contract liabilities as at year-end.</p> <p>The complexity of the valuation models may give rise to errors as a result of inadequate/incomplete data or the design or application of the models. Economic assumptions such as interest rates and future inflation rates and actuarial assumptions such as customer behaviour and uniform risk occurrence throughout the period are key inputs used to determine these liabilities.</p> <p>Significant judgement is applied in setting these assumptions and small changes in a number of these key assumptions could have a material impact on the calculation of the liabilities.</p> <p>Insurance contract liabilities, related accounting policies and significant judgments and assumptions are disclosed in Note 28. Insurance contract liabilities to the financial statements.</p> <p>The significant judgment involved and high estimation uncertainties in relation to insurance contract liabilities under IFRS 17 which requires management to apply significant judgment and assumptions over uncertain future outcomes make this an area of significance to our audit and to be included as key audit matter.</p> | <p><b>Our procedures included the following among others:</b></p> <ul style="list-style-type: none"> <li>• Reviewed the product classification, IFRS17 policy and methodology papers.</li> <li>• Reviewed the Actuarial models and IFRS17 Subledgers for completeness and accuracy.</li> <li>• Considered the validity of management's onerous assessment testing which is a key test performed to check that the liabilities are adequate in the context of expected experience. Our work on the onerous assessment test included assessing the reasonableness of the projected cashflows and challenging the assumptions adopted in the context of company and industry norms and specific product features.</li> <li>• Involved our internal actuarial specialist in the review of the key assumptions and judgements in line with general actuarial methods and industry standards and assessment of the adequacy of the insurance liabilities in line with the requirement of IFRS 17.</li> <li>• Ensured the appropriateness of the journals posted, footed, and agreed the figures disclosed in the financial statements to the figures stated in the actuarial valuation after thorough review of the basis and assumptions.</li> <li>• We reviewed the methodology and processes adopted by management for making reserves in the books of the company.</li> <li>• We tested entity's control around reserving process and maintenance of data for valuation of insurance contract liabilities.</li> <li>• We validated the data used in the valuation of the insurance contract liabilities.</li> </ul> <p>We found that the assumptions used by management were comparable with the market, accord with best practices, the key input data used in estimating the fair value of the insurance</p> |

| Key Audit Matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | How the matter was addressed in the audit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <p><b>Valuation of investment in unquoted equity instruments</b></p> <p>The Company has an investment of N6.1 billion in unquoted equity instrument measured at fair value through other comprehensive income. The fair value of the investment is estimated using the Discounted Cash-Flows (DCF) method which requires significant estimates and assumptions including a financial forecast of the investee, growth rates, and discount factors.</p> <p>Investment in unquoted equity instruments (including significant assumptions and judgments) and related accounting policies are disclosed in Note 20.2 Equity instruments measured at fair value through other comprehensive income in the financial statements.</p> <p>The significant judgment involved and uncertainty in relation to estimation of future cash flows and other assumptions from these investments and the macro economic factors affecting such investments make this an area of significance to our audit, and to be included as a key audit matter.</p> | <p><b>Our procedures included the following among others:</b></p> <p>In conjunction with our valuation specialists, we performed the following audit procedures:</p> <ul style="list-style-type: none"> <li>• evaluated the appropriateness of the valuation methodology employed by the external expert and assessed the reasonableness of underlying assumptions used in determining the fair value of the investment in an unquoted equity instrument;</li> <li>• assessed the competence, capabilities, and objectivity; of the external expert engaged by the Directors. We also verified and assessed the expert's qualifications and experience. We discussed the scope of work and confirmed that no scope limitations were imposed upon the expert by the Directors; and</li> <li>• reviewed the qualitative and quantitative disclosures for appropriateness and reasonableness to ensure conformity with disclosure requirements of relevant accounting standards.</li> <li>• We validated the data used in the valuation of the insurance and investment contract liabilities.</li> </ul> <p>Based on the above and other audit procedures carried out on this investment in unquoted equities in the financial statements of the company, we confirmed that the factors and inputs applied by Directors and management in the valuation of its investment are in line with market factors, disclosures in the financial statements in line with the requirements of the accounting standards.</p> |

## Other Information

The directors are responsible for the other information. The other information comprises the information included in the document titled Prestige Assurance Plc Annual Financial Statements for the year ended 31 December 2025, which includes the Directors' Report, the Audit Committee's Report, the Company Secretary's Report, the Report of the External Consultants on the Performance of the Board of Directors, the Statement of Corporate Responsibility for Financial Statements, and Other National Disclosures as required by the Financial Reporting Council of Nigeria which we obtained prior to the date of this report, and the Annual Report, which is expected to be made available to us after that date. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, the requirements of Companies and Allied Matters Act 2020 and Financial Reporting Council Act, 2011, the Nigerian Insurance Industry Reform Act (NIIIRA) 2025 and relevant policy guidelines issued by the National Insurance Commission (NAICOM), and the Financial Reporting Council of Nigeria (Amendment) Act 2023 and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement

resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

In accordance with the Fifth Schedule of Companies and Allied Matters Act 2020 and Section 28(2) of the Insurance Act 2003, we expressly state that we expressly state that:

- i) We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit.
- ii) The Company have kept proper books of account, so far as appears from our examination of those books.
- iii) The Company's financial position and its statement of profit or loss and other comprehensive income are in agreement with the books of account and returns.

## Report on ICFR

In accordance with the requirements of the Financial Reporting Council, we performed a limited assurance engagement and reported on management's assessment of the Entity's internal control over financial reporting as of December 31, 2025. The work performed was done in accordance with FRC Guidance on assurance engagement report on Internal Control over Financial Reporting and based on the procedures we have performed and the evidence obtained, we have issued an Unmodified conclusion in our report dated 15 May 2026. That report is included on page 20 of the financial statements.

**Certification of Management's assessment on Internal Control Over Financial Reporting**

To comply with the provisions of SEC Guidance on Implementation of Sections 60-63 of Investments and securities Act 2007, I hereby make the following statements regarding the internal controls of Prestige Assurance Plc for the year ended 31 December 2025.

I, Umesh Rathod, certify that:

- a. I have reviewed this Management's assessment on internal control over financial reporting of Prestige Assurance Plc;
- b. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the year covered in this report;
- c. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the entity as of, and for, the periods presented in this report;
- d. The entity's other certifying officer and I:
  - i. are responsible for establishing and maintaining internal controls;
  - ii. have designed such internal controls and procedures, or caused such internal controls and procedures to be designed under our supervision, to ensure that material information relating to the entity, and its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - iii. have designed such internal control system, or caused such internal control system to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and preparation of financial statements to external purposes in accordance with generally accepted accounting principles;
  - iv. have evaluated the effectiveness of the entity's internal controls and procedures as of a date within 90 days prior to the report and presented in this report our conclusions about the effectiveness of the internal controls and procedures, as of the end of the period covered by this report based on such evaluation;
- e. The entity's other certifying officer and I have disclosed, based on our most recent evaluation of internal control system, to the entity's auditors and audit committee of the entity's board of directors (or persons performing the equivalent functions):
  - i. All significant deficiencies and material weaknesses in the design or operation of the internal control system which are reasonably likely to adversely affect the entity's ability to record, process, summarize and report financial information; and
  - ii. Any fraud, whether or not material, that involves management or other employees who have a significant role in the entity's internal control system;
- f. The entity's other certifying officer(s) and I have identified, in the report whether or not there were significant changes in internal controls or other facts that could significantly affect internal controls subsequent to the date of their evaluation including any corrective actions with regard to significant deficiencies and material weaknesses.

The accompanying summary of significant accounting policies and notes to the financial statements form an integral part of these financial statements.

## NOTES TO THE FINANCIAL STATEMENTS

## 1. Corporate information

- a) Prestige Assurance Plc ("the Company") was incorporated on 6 January 1970. The Company is a subsidiary of New India Assurance Limited which was established on 18 August 1918.

Its registered office is located at 19, Ugalie Ayorinde Street, Victoria Island, Lagos, Nigeria. The Company is regulated by the National Insurance Commission of Nigeria (NAICOM).

The financial statements for the year ended 31 December 2025 were authorized for issue in accordance with a resolution of the Directors on 17 March 2026.

- b) Principal activity

The Company is licensed to carry out non-life insurance business. The Company provides cover in all classes of insurance, basically non-life treaty and facultative insurance, backed by reinsurer in the London and African reinsurance markets. The products and services by the Company caters general accident, energy, fire, marine, workers compensation, terrorism and bond

## 2.1 Material accounting policies

## 2.1.1 Introduction to material accounting policies

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

## 2.1.2 Basis of presentation and preparation

The financial statements of Prestige Assurance Plc have been prepared on a going concern basis and is presented in order of liquidity. The Directors of the Company have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. The financial statements are presented in Naira and all values are rounded to the nearest thousand (N'000), except when otherwise indicated.

- a) Statement of compliance

The financial statements have been prepared in accordance with IFRS Accounting standards as issued by the International Accounting Standards Board. Additional information required by national regulations, the Companies and Allied Matters Act, 2020, the Financial Reporting Council of Nigeria (Amendment) Act, 2023, Insurance Act, 2003 and its interpretations issued by the National Insurance Commission in its Insurance Industry Policy Guidelines is included where appropriate.

The financial statements comprise the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows, the summary of material accounting policies and the notes to the financial statements.

- b) Basis of measurements

The preparation of these financial statements has been based on the historical cost basis except for investment properties, land and building, financial assets at fair value through profit or loss and equity instruments measured at fair value through other comprehensive income that are measured at revalued amounts or fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets at acquisition date. In accordance with IFRS 17: Insurance Contracts, the Company has applied existing accounting policies for its non-life insurance contracts, modified as appropriate to comply with the IFRS Accounting Standards Framework.

## 2.1.3 Cash and cash equivalents

For the purposes of the statement of cash flows, cash comprises cash balances and deposits with banks. Cash equivalents comprise highly liquid investments (including money market funds) that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value with original maturities of three months or less being used by the Company in the management of its short-term commitments. Cash and cash equivalents are carried at amortised cost in the statement of financial position.

## NOTES TO THE FINANCIAL STATEMENTS – continued

## 1.1.4 Financial Instruments

## a) Recognition and initial measurement

**Initial recognition**

All financial assets and liabilities are initially recognized on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. The Company uses trade date accounting for regular way contracts when recording financial assets transactions.

A financial asset or financial liability is measured initially at fair value plus or minus, for an item not at fair value through profit or loss, direct and incremental transaction costs that are directly attributable to its acquisition or issue. Transaction costs of financial assets and liabilities carried at fair value through profit or loss are expensed in profit or loss at initial recognition.

## a) Day 1 profit or loss

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net trading income. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred. The deferred amounts are recognised in profit or loss when there is a change in a factor (including time) that market participants would take into account when pricing the asset or liability. On this basis, the Company has assessed that amortising the deferred amount on a straight-line basis is appropriate. Any outstanding amount is immediately recognised in profit or loss when the instrument is derecognised or when the input(s) becomes observable.

## b) Amortised cost and gross carrying amount.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

## c) Effective interest method

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e., its amortised cost before any impairment allowance) or to the amortised cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees.

## d) Classification of financial instruments

The Company classifies its financial assets under IFRS 9, into the following measurement categories:

- those to be measured at fair value through other comprehensive income (FVOCI) without recycling (equity instrument),
- those to be measured at fair value through profit or loss (FVTPL) (equity instrument); and
- those to be measured at amortised cost (debt instrument).

The classification depends on the Company's business model (i.e., business model test) for managing financial assets and the contractual terms of the financial assets cash flows (i.e. solely payments of principal and interest – SPPI test). The Company also classifies its financial liabilities at amortised cost. Management determines the classification of the financial instruments at initial recognition.

## NOTES TO THE FINANCIAL STATEMENTS – continued

## e) Subsequent measurements

## ⌘ Financial assets

The subsequent measurement of financial assets depends on its initial classification.

## ✓ Debt instruments

Financial assets at amortised cost: A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is determined using the effective interest method and reported in profit or loss as 'Interest Income'. The amortised cost of a financial instrument is defined as the amount at which it was measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the 'effective interest method' of any difference between that initial amount and the maturity amount, and minus any loss allowance. The effective interest method is a method of calculating the amortised cost of a financial instrument (or group of instruments) and of allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts over the expected life of the instrument or, when appropriate, a shorter period, to the instrument's gross carrying amount.

## ✓ Equity instruments

The Company subsequently measures all equity investments at fair value. The Company has designated its unquoted equity instruments to be measured at fair value through other comprehensive income (FVOCI) since the investments are not held for trading. For these instruments, the Company presents subsequent changes in fair value in other comprehensive income (OCI). This election is made on an investment-by-investment basis at the initial recognition of the instrument.

Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognised in profit or loss as dividend income (under Investment Income) when the company has rights to receive payments is established unless the dividend clearly represents a recovery of part of the cost of the investment. All other equity financial assets are classified as measured at FVTPL. Changes in the fair value of financial assets at fair value through profit or loss are recognised in Net fair value gain/ (loss) gain on financial assets in the profit or loss.

The Company assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the insurer's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.

## NOTES TO THE FINANCIAL STATEMENTS – continued

- how managers of the business are compensated – e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Insurer's stated objective for managing financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

**Solely payments of principal and interest (SPPI) assessment**

If a financial asset is held in either a Hold to Collect or Hold to Collect and Sell model, then an assessment is determined whether contractual cash flows are solely payments of principal and interest on principal amount outstanding at initial recognition is required to determine the classification. Contractual cash flows that are SPPI on the principal amount outstanding are considered as basic lending arrangement with interest as consideration for the time value of money and the credit risk associated with the principal amount outstanding during the tenor of the agreed arrangement. Other basic lending risks like liquidity risk and cost of administration associated with holding the financial asset for the specified tenor and the profit margin that is consistent with a basic lending arrangement.

**(ii) Financial liabilities**

A financial liability is classified at fair value through profit or loss if it is classified as held-for-trading or designated as such on initial recognition. Directly attributable transaction costs on these instruments are recognised in profit or loss as incurred. Financial liabilities at fair value through profit or loss are measured at fair value and changes therein, including any interest expense, are recognised in profit or loss.

**f) Reclassifications**

The Company reclassifies financial assets when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and must be significant to the Company's operations.

When reclassification occurs, the Company reclassifies all affected financial assets in accordance with the new business model. Reclassification is applied prospectively from the 'reclassification date'. Reclassification date is the first day of the first reporting period following the change in business model. Gains, losses or interest previously recognised are not restated when reclassification occurs.

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Company changes its business model for managing financial assets that are debt instruments. A change in the objective of the Company's business occurs only when the Company either begins or ceases to perform an activity that is significant to its operations (e.g., via acquisition or disposal of a business line).

The following are not considered to be changes in the business model:

- A change in intention related to particular financial assets (even in circumstances of significant changes in market conditions)
- A temporary disappearance of a particular market for financial assets (financial liabilities are not reclassified after initial classification).

## NOTES TO THE FINANCIAL STATEMENTS – continued

## g) Modifications of financial assets and financial liabilities

## (i) Financial assets

If the terms of a financial asset are modified, the Company evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value. Any difference between the amortised cost and the present value of the estimated future cash flows of the modified asset or consideration received on derecognition is recorded as a separate line item in profit or loss statement. If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Company recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The amount arising from adjusting the gross carrying amount is recognised as a modification gain or loss in profit or loss as part of impairment loss on financial assets for the year.

## (ii) Financial liabilities

The Company derecognizes a financial liability when its terms are modified, and the cash flows of the modified liability are substantially different. This occurs when the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted, using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

If the exchange or modification is not accounted for as an extinguishment (i.e. the modified liability is not substantially different), any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

## h) Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms. ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For debt instruments at amortised cost, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the credit rating of the debt instrument by international credit rating agencies like S&P Moody's and Fitch as well as local ratings by Augusto and Co. It is the Company's policy to measure ECLs on such instruments on a 12-month basis. Where the credit risk of any bond deteriorates, the Company will sell the bond and purchase bonds meeting the required investment grade.

## NOTES TO THE FINANCIAL STATEMENTS – continued

The Company's debt instruments at amortised cost comprise quoted sovereign bonds, corporate bonds, and others that are graded in the top investment category. The Company's Fixed income Investment portfolio consists of Investment grade and low speculative bonds and, therefore, are considered to be low credit risk investments. It is the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Company uses the ratings from the International Credit Rating Agencies both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Further disclosures relating to impairment of financial assets are also provided in the following: •

Disclosures for significant estimates, judgements and assumptions – Note 2.36

- Financial risk disclosures – Notes 43b in the financial statements.

i) **Write-off**

After a full evaluation of a non-performing exposure, in the event that either one or all of the following conditions apply, such exposure is recommended for write-off (either partially or in full):

- continued contact with the customer is impossible;
- recovery cost is expected to be higher than the outstanding debt;
- amount obtained from realization of credit collateral security leaves a balance of the debt; or • it is reasonably determined that no further recovery on the facility is possible.

All credit facility write-offs require endorsement by the Board Credit and Risk Committee, as defined by the Company. Credit write-off approval is documented in writing and properly initiated by the Board Credit and Risk Committee. The gross carrying amount of an asset is written off (either fully or partially) to the extent that there is no realistic prospect of recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to credit loss expense. This is generally the case when the Company determines that the counterparty does not have assets or sources of income that could generate sufficient cashflows to repay the amount subject to write off. However, the financial assets that are subjected to write off would still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amount due.

j) **Forward looking information**

In its ECL models, the Company relies on a broad range of forward-looking information as economic inputs, such as:

- Inflation rate
- Prime lending rate
- Crude oil price

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

## NOTES TO THE FINANCIAL STATEMENTS – continued

## k) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset. Any interest in such derecognised asset financial asset that is created or retained by the Company is recognised as a separate asset or liability. Impaired debts are derecognised when they are assessed as uncollectible.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

## l) Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, its contractual obligations are discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

## m) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

## 1.2 Interest income and expenses

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

1.2.1 The gross carrying amount of the financial asset; or

1.2.2 The amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than purchase or originated credit-impaired assets, the Company estimates future cash flows considering all contractual terms of the financial instrument, but not expected credit losses. For purchase or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses. The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations regarding the cash flows on the financial asset are revised (excluding modifications) for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the statement of financial position with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in profit or loss.

## NOTES TO THE FINANCIAL STATEMENTS – continued

**a) Amortised cost and gross carrying amount**

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

**b) Calculation of interest income and expenses**

The Company calculates interest income and expense by applying the effective interest rate to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.

However, for financial asset that have become credit-impaired subsequent to initial recognition and is, therefore, regarded as 'Stage 3' the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cure and is no longer credit-impaired, then the Company reverts to calculating interest income on a gross basis.

**1.3 Impairment of non-financial assets**

The carrying amounts of the Company's non-financial assets other than deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

**1.4 Leases**

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**1.4.1 Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**✓ Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (5) Impairment of non-financial assets.

## NOTES TO THE FINANCIAL STATEMENTS – continued

## ✓ Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option if reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the interest rate implicit in the lease if that rate can be determined. If that rate cannot be determined, the Company shall use its incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are included in other liabilities.

## ii. Company as a lessor

Finance lease receivables are recognised when the Company transfers substantially all the risks and rewards of ownership of the leased assets to the leasee. Investment in finance lease at commencement is initially recorded as an asset and a liability at the lower of the fair value of the asset and the present value of the minimum lease payments (discounted at the interest rate implicit in the lease, if practicable, or else at the entity's incremental borrowing rate). The finance lease is recorded as a receivable, at an amount equal to the net investment in the lease.

Interest income on investment in finance lease is recognised in the profit or loss as investment income in the period the interest is receivable. An investment in finance lease is impaired using IFRS 9 expected credit loss model.

## 1.5 Investment property

Investment property is property (land or a building or part of a building or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both. Investment property, including interest in leasehold land (held by a lessee), is initially recognised at cost. Subsequently, investment property is carried at fair value at the reporting date determined by annual valuations carried out by external registered valuers. Gains or losses arising from changes in the fair value are included in determining the profit or loss for the year to which they relate.

Subsequent expenditure on investment property where such expenditure increases the future economic value in excess of the original assessed standard of performance is added to the carrying amount of the investment property. All other subsequent expenditure is recognised as expense in the year in which it is incurred.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. On disposal of an investment property, the difference between the disposal proceeds and the carrying amount is charged or credited to profit or loss.

## NOTES TO THE FINANCIAL STATEMENTS – continued

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If an owner-occupied property becomes an investment property, the Company accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of the change in use.

**1.6 Intangible assets**

Intangible assets comprise computer software purchased from third parties. They are measured at cost less accumulated amortisation and accumulated impairment losses. Purchased computer software are capitalised on the basis of the costs incurred to acquire and bring into use the specific software. These costs are amortized on straight line basis over the useful life of the asset.

Expenditure that is reliably measurable and meets the definition of an asset is capitalized.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful life of the software from the date that it is available for use. The residual values and useful lives are reviewed at the end of each reporting period and adjusted, if appropriate. An intangible asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The estimated useful lives for the current and comparative period are as follows. Computer software 10 years. An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss.

**1.7 Property, plant and equipment****i. Recognition and measurement**

All property, plant and equipment are initially recorded at cost. They are subsequently stated at cost less accumulated depreciation and impairment losses, except for buildings which is at the revalued amount. Historical costs include expenditure that is directly attributable to the acquisition of the assets. An asset is recognized when it is probable that the economic benefits associated with the item flow to the entity and cost can be reliably measured.

**ii. Subsequent costs**

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

**iii. Depreciation**

Depreciation is recognised in the statement of profit or loss on a straight-line basis over the estimated useful lives of each item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives. Depreciation begins when an asset is available for use and ceases at the earlier of the date that the asset is derecognised or classified as held for sale in accordance with IFRS 5, Non-current Assets Held for Sale and Discontinued Operations.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or re-valued amounts over their estimated useful lives.

## NOTES TO THE FINANCIAL STATEMENTS – continued

The estimated depreciation percentage for the current and comparative period are as follows:

|                                          |                      |
|------------------------------------------|----------------------|
| Plant and machinery                      | 2.5%                 |
| Buildings                                | 2% of cost/valuation |
| Furniture, fittings and office equipment | 10%                  |
| Computer equipment                       | 33 1/3%              |
| Motor vehicles                           | 25%                  |

The assets' residual values and useful lives are reviewed at the end of each reporting period and adjusted, if appropriate. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

iv. **Revaluation of building**

Property, plant & equipment are initially recorded at cost. Building is subsequently carried at revalued amount being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

When a property is revalued, any increase in its carrying amount (as a result of revaluation) is transferred to a revaluation reserve, except to the extent that it reverses a revaluation decrease of the same property previously recognised as an expense in the profit or loss.

When the value of a property is as a result of a revaluation, the decrease is charged against any related credit balance in the revaluation reserve in respect of that property. However, to the extent that it exceeds any surplus, it is recognised as an expense in profit or loss.

When revalued assets are being depreciated, part of the surplus is being realized as the asset is used. The amount of the surplus realized is the difference between the depreciation charged on the revalued amount and the lower depreciation which could have been charged on cost now reclassified from property revaluation reserve to accumulated losses but not through profit or loss.

The revaluation of building is carried out every three (3) years or when there are indications of significant changes in the value of the property whichever is shorter.

v. **Derecognition**

An item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

## 2.10 Statutory deposit

Statutory deposit represents a fixed deposit with the Central Bank of Nigeria in accordance with section 10(3) of the Insurance Act, 2003. The deposit is recognised at the cost in the statement of financial position being 10% of the statutory minimum capital requirement of N3 billion for General(non-life) insurance business.

## NOTES TO THE FINANCIAL STATEMENTS – continued

**2.11 Insurance and reinsurance contracts classification (Policy with effect from 1 January 2023)**

The Company issues insurance contracts in the normal course of business, under which it accepts significant insurance risk from its policyholders. As a general guideline, the Company determines whether it has significant insurance risk, by comparing benefits payable after an insured event with benefits payable if the insured event did not occur. Insurance contracts can also transfer financial risk. The Company issues non-life insurance to individuals and businesses. Non-life insurance products offered include fire and special peril, burglary and house breaking insurance, motor insurance, money insurance, marine insurance, plant all risk insurance, workmen's compensation insurance, contractor's all risk insurance, professional indemnity, general accident, engineering, bond, and oil & gas/special risks. These products offer protection of policyholders' assets and indemnification of other parties that have suffered damage as a result of a policyholder's accident.

The Company also issues reinsurance contracts in the normal course of business to compensate other entities for claims arising from one or more insurance contracts issued by those entities. The Company does not issue any contracts with direct participating features.

**2.11.1 Separating components from insurance and reinsurance contracts**

The Company assesses its non-life insurance and reinsurance products to determine whether they contain distinct components which must be accounted for under another IFRS instead of under IFRS 17. After identifying and separating any distinct components, the Company applies IFRS 17 to all remaining components of the (host) insurance contract. Currently, the Company's products do not include any distinct components that require separation.

**2.11.2 Level of aggregation**

IFRS 17 defines the level of aggregation to be used for measuring insurance contracts and their related profitability. This is a key issue in identifying onerous contracts and in determining the recognition of profit or loss and presentation in the financial statements. The starting point for aggregating contracts is to identify portfolios of insurance contracts. A portfolio comprises contracts that are subject to similar risks and managed together. IFRS 17 requires the company to determine the level of aggregation for applying its requirements. The level of aggregation for the Company is determined firstly by dividing the business written into portfolios using the current lines of business framework with consideration for the reasoning segmentation and product types within each line of business to support the definition of similar risk. These lines of business are fire insurance, General accident, Motor insurance, Employee's liability, Marine insurance, Aviation, Oil and Energy, Engineering all risk, Bond, Goods in transit, Terrorism, Mediclaim, Agriculture insurance and Salary protection. Portfolios are further divided based on expected profitability at inception into three categories: onerous contracts, contracts with no significant risk of becoming onerous, and the remainder.

This means that, for determining the level of aggregation, the Company identifies a contract as the smallest 'unit', i.e., the lowest common denominator. However, the Company makes an evaluation of whether a series of contracts need to be treated together as one unit based on reasonable and supportable information, or whether a single contract contains components that need to be separated and treated as if they were stand-alone contracts. As such, what is treated as a contract for accounting purposes may differ from what is considered as a contract for other purposes (i.e., legal or management). IFRS 17 also requires that no group (or level of aggregation) purposes may contain contracts issued more than one year apart.

The Company has elected to group together those contracts that would fall into different groups only because law or regulation specifically constrains its practical ability to set a different price or level of benefits for policyholders with different characteristics. Currently, there is no law or regulation that constrains the Company's practical ability to set a different price or level of benefits for policyholder with different characteristics.

## NOTES TO THE FINANCIAL STATEMENTS – continued

The Company applied a full retrospective approach for transition to IFRS 17. The portfolios are further divided by year of issue and profitability for recognition and measurement purposes. Hence, with each year of issue, portfolios of contracts are divided into three groups, as follows:

- A group of contracts that are onerous at initial recognition (if any)
- A group of contracts that, at initial recognition, have no significant possibility of becoming onerous subsequently (if any)
- A group of the remaining contracts in the portfolio (if any)

The profitability of groups of contracts is assessed by actuarial valuation models that take into consideration existing and new business. For contracts that are not onerous, the Company assesses, at initial recognition, that there is no significant possibility of becoming onerous subsequently by assessing the likelihood of changes in applicable facts and circumstances. The Company considers facts and circumstances to identify whether a group of contracts are onerous based on:

- Historical loss ratio
- Pricing information
- Results of similar contracts it has recognised
- Environmental factors, e.g., a change in market experience or regulations

The Company divides portfolios of reinsurance contracts held applying the same principles set out above, except that the references to onerous contracts refer to contracts on which there is a net gain on initial recognition

**Contract boundary**

The Company includes in the measurement of a group of insurance contracts all the future cash flows within the boundary of each contract in the group. Cash flows are within the boundary of an insurance contract if they arise from substantive rights and obligations that exist during the reporting period in which the Company can compel the policyholder to pay the premiums, or in which the Company has a substantive obligation to provide the policyholder with insurance contract services. A substantive obligation to provide insurance contract services ends when:

- The Company has the practical ability to reassess the risks of the particular policyholder and, as a result, can set a price or level of benefits that fully reflects those risks

Or

Both of the following criteria are satisfied:

- The Company has the practical ability to reassess the risks of the portfolio of insurance contracts that contain the contract and, as a result, can set a price or level of benefits that fully reflects the risk of that portfolio.
- The pricing of the premiums up to the date when the risks are reassessed does not take into account the risks that relate to periods after the assessment date.

A liability or asset relating to expected premiums or claims outside the boundary of the insurance contract is not recognised. Such amounts relate to future insurance contracts.

## NOTES TO THE FINANCIAL STATEMENTS – continued

## 2.12.3 Measurement – Premium Allocation Approach

|                                                                                                     | IFRS 17 Options                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Adopted approach                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Premium Allocation Approach (PAA) Eligibility</i>                                                | Subject to specified criteria, the PAA can be adopted as a simplified approach to the IFRS 17 general model.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | All the Company's products with coverage period of one year or less are measured using the PAA. Where a contract has a coverage period of more than a year, the company will perform the PAA eligibility test as required, where the materiality level for difference in the liability for remaining coverage has been set at +/- 5%.                              |
| <i>Insurance acquisition cash flows for insurance contracts issued</i>                              | Where the coverage period of all contracts within a group is no longer than one year, insurance acquisition cash flows can either be expensed as incurred, or allocated, using a systematic and rational method, to groups of insurance contracts (including future groups containing insurance contracts that are expected to arise from renewals) and then amortised over the coverage period of the related group. For groups containing contracts longer than one year, insurance acquisition cash flows must be allocated to related groups of insurance contracts and amortised over the coverage period of the related group.<br><br>Where there is no significant financing component in relation to the LFRC, or where the time between providing each part of the services and the related premium due date is no more than a year, an entity is not required to make an adjustment for accretion of interest on the LFRC. | The company absorbs (expense) the insurance acquisition expense in the year of occurrence to groups of insurance contracts.                                                                                                                                                                                                                                        |
| <i>Liability for Remaining Coverage (LFRC), adjusted for financial risk and time value of money</i> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | For general business, LFRC would not be discounted except for certain contract (e.g. construction contract).<br>Where contracts have a coverage of more than one year, and where the time between the premium due date and start of coverage period exceeds one year, allowance must be made for accretion of interest on the LFRC (i.e. LFRC will be discounted). |

## NOTES TO THE FINANCIAL STATEMENTS – continued

|                                                                               |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                              |
|-------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Liability for Incurred Claims, (LFIC) adjusted for time value of money</i> | Where claims are expected to be paid within a year of the date that the claim is incurred, it is not required to adjust these amounts for the time value of money.                                                                       | Not all claims incurred are settled within a year as such when the claims are settled after a year period, time value of money will be considered. The company has decided not to adjust for time value of money if the cashflow is expected within a year.                                                                                                                  |
| <i>Insurance finance income and expense</i>                                   | There is an option to disaggregate part of the movement in LFIC resulting from changes in discount rates and present this in OCI and there is another option to recognize the insurance finance income and expense under profit or loss. | When insurance finance income or expenses is disaggregated between profit or loss and other comprehensive income, the amount of insurance finance income or expenses included in profit or loss is determined using the discount rate at the date of the incurred claim. The company has elected to recognize all insurance finance income and expense under profit or loss. |

## 2.12.2 Insurance contracts – Initial measurement

The Company applies the premium allocation approach (PAA) to all the insurance contracts that it issues and reinsurance contracts that it holds, as:

- The coverage period of each contract in the group is one year or less, including insurance contract services arising from all premiums within the contract boundary. Or
- For contracts longer than one year, the Company has modelled possible future scenarios and reasonably expects that the measurement of the liability for remaining coverage for the group containing these contracts under the PAA does not differ materially from the measurement that would be produced applying the general model. In assessing materiality, the Company has also considered qualitative factors such as the nature of the risk and types of its lines of business.

The Company does not apply the PAA if, at the inception of the group of contracts, it expects significant variability in the fulfilment cash flows that would affect the measurement of the liability for the remaining coverage during the period before a claim is incurred. Variability in the fulfilment cash flows increases with, for example:

- The extent of future cash flows related to any derivatives embedded in the contracts.
- The length of the coverage period of the group of contracts.

For a group of contracts that is not onerous at initial recognition, the Company measures the liability for remaining coverage as:

- The premiums, if any, received at initial recognition.
- Minus any insurance acquisition cash flows at that date, with the exception of contracts which are one year or less where this is expensed,
- Plus or minus any amount arising from the derecognition at that date of the asset recognised for insurance acquisition cash flows and
- Any other asset or liability previously recognised for cash flows related to the group of contracts that the Company paid or receives before the group of insurance contracts is recognised.

## NOTES TO THE FINANCIAL STATEMENTS – continued

For contracts beyond one year, the liability for remaining coverage is discounted to reflect the time value of money and the effect of financial risk. For all other contracts, there is no allowance for time value of money as the premiums are received within one year of the coverage period.

Where facts and circumstances indicate that contracts are onerous at initial recognition, the Company performs additional analysis to determine if a net outflow is expected from the contract. Such onerous contracts are separately grouped from other contracts and the Company recognises a loss in profit or loss for the net outflow, resulting in the carrying amount of the liability for the group being equal to the fulfilment cash flows. A loss component is established by the Company for the liability for remaining coverage for such onerous group depicting the losses recognised.

**2.12.3 Reinsurance contracts held – initial measurement**

The Company measures its reinsurance assets for a group of reinsurance contracts that it holds on the same basis as insured contracts that it issues. However, they are adapted to reflect the features of reinsurance contracts held that differ from insurance contracts issued, for example the generation of expenses or reduction in expenses rather than revenue.

Where the Company recognises a loss on initial recognition of an onerous group of underlying insurance contracts or when further onerous underlying insurance contracts are added to a group, the Company establishes a loss-recovery component of the asset for remaining coverage for a group of reinsurance contracts held depicting the recovery of losses.

**2.12.4 Insurance contracts – subsequent measurement**

The Company measures the carrying amount of the liability for remaining coverage at the end of each reporting period as the liability for remaining coverage at the beginning of the period:

- + Plus, premiums received in the period
- + Minus insurance acquisition cash flows
- + Plus, any amounts relating to the amortisation of the insurance acquisition cash flows recognised as an expense in the reporting period for the group
- + Plus any adjustment to the financing component, where applicable
- + Minus the amount recognised as insurance revenue for the services provided in the period +
- Minus any investment component paid or transferred to the liability for incurred claims

The Company estimates the liability for incurred claims as the fulfilment cash flows related to incurred claims. The fulfilment cash flows incorporate, in an unbiased way, all reasonable and supportable information available without undue cost or effort, about the amount, timing and uncertainty of those future cash flows, they reflect current estimates from the perspective of the Company and include an explicit adjustment for non-financial risk (the risk adjustment). The Company does not adjust the future cash flows for the time value of money and the effect of financial risk for the measurement of liability for incurred claims that are expected to be paid within one year of being incurred.

Where, during the coverage period, facts and circumstances indicate that a group of insurance contracts is onerous, the Company recognises a loss in profit or loss for the net outflow, resulting in the carrying amount of the liability for the group being equal to the fulfilment cash flows. A loss component is established by the Company for the liability for remaining coverage for such.

**2.12.5 Reinsurance contracts held – subsequent measurement**

The subsequent measurement of reinsurance contracts held follows the same principles as those for insurance contracts issued and has been adapted to reflect the specific features of reinsurance held.

Where the Company has established a loss-recovery component, the Company subsequently reduces the loss-recovery component to zero in line with reductions in the onerous group of underlying insurance contracts in order to reflect:

## NOTES TO THE FINANCIAL STATEMENTS – continued

that the loss-recovery component shall not exceed the portion of the carrying amount of the loss component of the onerous group of underlying insurance contracts that the entity expects to recover from the group of reinsurance contracts held.

**2.12.6 Insurance acquisition cash flows**

Insurance acquisition cash flows arise from the costs of selling, underwriting and starting a group of insurance contracts (issued or expected to be issued) that are directly attributable to the portfolio of insurance contracts to which the group belongs.

The Company uses a systematic and rational method to allocate:

- (a) Insurance acquisition cash flows that are directly attributable to a group of insurance contracts:
  - (i) to that group; and
  - (ii) to groups that include insurance contracts that are expected to arise from the renewals of the insurance contracts in that group.
- (b) Insurance acquisition cash flows directly attributable to a portfolio of insurance contracts that are not directly attributable to a group of contracts, to groups in the portfolio.

Where insurance acquisition cash flows have been paid or incurred before the related group of insurance contracts is recognised in the statement of financial position, a separate asset for insurance acquisition cash flows is recognised for each related group. The asset for insurance acquisition cash flow is derecognised from the statement of financial position when the insurance acquisition cash flows are included in the initial measurement of the related group of insurance contracts.

After any re-allocation, the Company assesses the recoverability of the asset for insurance acquisition cash flows, if facts and circumstances indicate the asset may be impaired. When assessing the recoverability, the Company applies:

- An impairment test at the level of an existing or future group of insurance contracts; and
- An additional impairment test specifically covering the insurance acquisition cash flows allocated to expected future contract renewals.

If an impairment loss is recognised, the carrying amount of the asset is adjusted and an impairment loss is recognised in profit or loss.

The Company recognises in profit or loss a reversal of some or all of an impairment loss previously recognised and increases the carrying amount of the asset, to the extent that the impairment conditions no longer exist.

**2.12.9 Insurance contracts – modification and derecognition**

The Company derecognises insurance contracts when:

- The rights and obligations relating to the contract are extinguished (i.e., discharged, cancelled or expired)

Or

- The contract is modified such that the modification results in a change in the measurement model or the applicable standard for measuring a component of the contract, substantially changes the contract boundary, or requires the modified contract to be included in a different group. In such cases, the Company derecognises the initial contract and recognises the modified contract as a new contract.

When a modification is not treated as a derecognition, the Company recognises amounts paid or received for the modification with the contract as an adjustment to the relevant liability for remaining coverage.

**NOTES TO THE FINANCIAL STATEMENTS – continued****2.12.10 Presentation**

The Company has presented separately, in the statement of financial position, the carrying amount of portfolios of insurance contracts issued that are assets, portfolios of insurance contracts issued that are liabilities, portfolios of reinsurance contracts held that are assets and portfolios of reinsurance contracts held that are liabilities.

Any assets for insurance acquisition cash flows recognised before the corresponding insurance contracts are included in the carrying amount of the related groups of insurance contracts are allocated to the carrying amount of the portfolios of insurance contracts that they relate to.

The Company disaggregates the total amount recognised in the statement of profit or loss and other comprehensive income into an insurance service result, comprising insurance revenue and insurance service expense, and insurance finance income or expenses.

The Company does not disaggregate the change in risk adjustment for non-financial risk between a financial and non-financial portion and includes the entire change as part of the insurance service result.

The Company separately presents income or expenses from reinsurance contracts held from the expenses or income from insurance contracts issued.

**2.13 Trade payables**

Trade payables (i.e., insurance payables) are recognised when due and measured on initial recognition at fair value less directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest rate method. Trade payables include payables to agents and brokers, payables to reinsurance companies, payables to co-insurance companies and commission payable.

The fair value of a non-interest-bearing liability is its repayment amount. Trade payables are derecognised when the obligation under the liability is settled, cancelled or expired.

**2.14 Provisions and other payables**

Provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions are measured at the best estimate of the expenditure required to settle the obligation at the end of the reporting period. The provisions are reviewed at the end of the reporting period and adjusted to reflect the current best estimate.

Other payables are recognised initially at fair value and subsequently measured at amortised cost using effective interest method.

**2.15 Retirement obligations and employee benefits**

The Company operates the following contribution and benefit schemes for its employees:

*Defined benefit gratuity scheme*

The Company has a defined benefit gratuity scheme for management and non-management staff. Under this scheme, a specified amount as determined by actuarial valuation is contributed by the Company and charged to the statement of profit or loss over the service life of each employee.

**NOTES TO THE FINANCIAL STATEMENTS – continued**

The Company recognizes the following changes in the net defined benefit obligation under “the employee benefit expense”. Service costs comprising current service costs, past service costs, gains and losses on curtailment and non-routine settlements.

Employees are entitled to gratuity after completing a minimum of five continuous full years of service. The gratuity obligation is calculated annually by independent Actuaries using the projected unit credit method. The present value of the gratuity obligation is determined by discounting the estimated future cash outflows using market yields on high quality corporate bonds. The liability recognized in the statement of financial position in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets.

Re-measurement arising from actuarial gains and losses are immediately recognized in the statement of financial position with corresponding debit or credit recognized in the retained earnings through OCI in periods in which they occur. Re-measurements are not reclassified in subsequent periods. Past service costs are recognized in the profit or loss on the earlier of:

- The date of plan amendment or curtailment and,
- The date that the Company recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset using the rate at the beginning of the period. The Company recognizes the net interest in the net defined benefit obligation under “the employee benefit expense”.

**Defined contribution pension scheme**

The Company operates a defined contributory pension scheme for eligible employees. The Company and employees contribute 10% and 8% respectively of the employees’ Basic, Housing and Transport allowances in line with the provisions of the Pension Reform Act 2014. The Company pays the contributions to a pension fund administrator. The Company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefits expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

**Short-term benefits**

Wages, salaries, paid annual leave, bonuses and non-monetary benefits are recognised as employee benefit expenses when the associated services are rendered by the employees of the Company.

**2.16 Income taxes – Company Income Tax and Deferred Tax Liabilities**

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity or in other comprehensive income. Current income tax is the estimated income tax payable on taxable income for the year, using tax rates enacted or substantively enacted at reporting date, and any adjustment to tax payable in respect of previous years.

The tax currently payable is based on taxable results for the year. Taxable results differ from results as reported in the profit or loss because it includes not only items of income or expense that are taxable or deductible in other years, but it further excludes items that are never taxable or deductible. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate.

## NOTES TO THE FINANCIAL STATEMENTS – continued

Deferred tax assets and liabilities are recognised where the carrying amount of an asset or liability differs from its tax base. Deferred taxes are recognized using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes (tax bases of the assets or liability). The amount of deferred tax provided is

based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis. The tax effects of carryforwards of losses and tax credits are recognised as an asset when it is probable that future taxable profits will be available against which these losses can be utilised.

**2.17 Share capital and share premium**

Shares are classified as equity when there is no obligation to transfer cash or other assets. Any amounts received over and above the par value of the shares issued are classified as 'share premium' in equity. Incremental costs directly attributable to the issue of equity instruments are shown in equity as a deduction from the proceeds, net of tax.

**2.18 Dividend on ordinary shares**

Dividends on the Company's ordinary shares are recognised in equity in the period in which they are paid or, if earlier, approved by the Company's shareholders. Dividends for the year that are declared after the reporting dates are dealt with in the subsequent events note.

**2.19 Statutory contingency reserve**

In compliance with Section 21 (2) of Insurance Act, CAP 117 LFN 2004, the contingency reserve is credited with the greater of 3% of gross premium written, or 20% of the net profits. This shall accumulate until it reaches the amount of greater of minimum paid-up capital or 50 percent of net premium.

**2.20 Retainer of earnings**

This reserve represents amount set aside out of the profits of the Company which shall at the discretion of the Directors be applicable for meeting contingencies, repairs or maintenance of any works connected with the business of the Company, for equalising dividends, for special dividend or bonus, or such other purposes for which the profits of the Company may lawfully be applied.

**2.21 Fair value reserve**

The fair value reserve comprises the cumulative net change in the fair value of the equity instruments designated at fair value through other comprehensive income. This amount cannot be recycled to profit or loss in subsequent period even if the instruments are derecognized.

**NOTES TO THE FINANCIAL STATEMENTS – continued****2.22 Property revaluation reserve**

Subsequent to initial recognition, an item of property, plant and equipment may be revalued to fair value. However, if such item is revalued, the whole class of asset to which that asset belongs has to be revalued. The revaluation surplus is recognized in equity, unless it reverses a decrease in the fair value of the same asset, which was previously recognized as an expense, in which case it is recognized in profit or loss. A subsequent decrease in the fair value is charged against this reserve to the extent that there is a credit balance relating to the same asset, with the balance being recognized in profit or loss.

**2.23 Gratuity valuation reserve**

The gratuity valuation reserve comprises the cumulative net change in the re-measurement gain/(loss) on defined benefit plans.

**2.24 Prepayments and other receivables****a) Prepayments:**

Prepayments are payments made in advance for services to be enjoyed in future. The amount is initially capitalized in the reporting period in which the payment is made and subsequently amortised over the period in which the service is to be enjoyed.

**b) Other receivables:**

Other receivables are recognised upon the occurrence of event or transaction as they arise, and derecognised when payment is received or utilised.

**2.25 Contingent assets and liabilities**

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or the Company has a present obligation as a result of past events, but is not recognized because it is not likely that an outflow of resources will be required to settle the obligation, or the amount cannot be reliably estimated.

Contingent liabilities and contingent assets are never recognized rather they are disclosed in the financial statements when they arise.

**2.26 Insurance revenue (Policy applicable with effect from 1 January 2023)**

The insurance revenue for the period is the amount of expected premium receipts (excluding any investment component) allocated to the period. The Company allocates the expected premium receipts to each period of insurance contract services on the basis of the passage of time (pro-rata basis), but if the expected pattern of release of risk during the coverage period differs significantly from the passage of time, then the allocation is made on the basis of the expected timing of incurred insurance service expenses.

The Company changes the basis of allocation between the two methods above as necessary if facts and circumstances change. The change is accounted for prospectively as a change in accounting estimate.

For the periods presented, all revenue has been recognised based on the passage of time.

**NOTES TO THE FINANCIAL STATEMENTS – continued****2.26.1 Loss Components**

The Company assumes that no contracts are onerous at initial recognition unless facts and circumstances indicate otherwise. Where this is not the case, and if at any time during the coverage period, facts and circumstances indicate that a group of insurance contracts is onerous, the Company establishes a loss component as the excess of the fulfilment cash flows that relate to the remaining coverage of the group over the carrying amount of the liability for remaining coverage of the group. Accordingly, by the end of the coverage period of the group of contracts the loss component will be zero.

**2.26.2 Loss recovery components**

Where the Company recognises a loss on initial recognition of an onerous group of underlying insurance contracts, or when further onerous underlying insurance contracts are added to a group, the Company establishes a loss-recovery component of the asset for remaining coverage for a group of reinsurance contracts held depicting the expected recovery of the losses.

A loss-recovery component is subsequently reduced to zero in line with reductions in the onerous group of underlying insurance contracts in order to reflect that the loss-recovery component shall not exceed the portion of the carrying amount of the loss component of the onerous group of underlying insurance contracts that the entity expects to recover from the group of reinsurance contracts held.

**2.26.3 Insurance finance income and expenses**

Insurance finance income or expenses comprise the change in the carrying amount of the group of insurance contracts arising from:

- 2.26.3.1 The effect of the time value of money and changes in the time value of money; and
- 2.26.3.2 The effect of financial risk and changes in financial risk

When the entire insurance finance income or expenses is included in profit or loss, the company discounts the incurred claims at current rates (i.e., the rate at the reporting date). When insurance finance income or expenses is disaggregated between profit or loss and other comprehensive income the amount of insurance finance income or expenses included in profit or loss is determined using the discount rate at the date of the incurred claim.

**i. Net income or expense from reinsurance contracts held**

The Company presents separately on the face of the statement of profit or loss and other comprehensive income, the amounts expected to be recovered from reinsurers, and an allocation of the reinsurance premiums paid.

The Company treats reinsurance cash flows that are contingent on claims on the underlying contracts as part of the claims that are expected to be reimbursed under the reinsurance contract held and excludes investment earnings and commissions from an allocation of reinsurance premiums presented on the face of the statement of profit or loss and other comprehensive income.

**2.27 Other Operating Expenses**

Other operating expenses are expenses other than claims, investment expenses, employee benefits, expenses for marketing and administration and underwriting expenses. They include wages, professional fees, depreciation expenses and other non-operating expenses. Other Operating expenses are accounted for on accrual basis and recognized in the statement of profit or loss upon utilization of the service or at the date of their origin.

**NOTES TO THE FINANCIAL STATEMENTS – continued****2.28 Finance income and expenses**

Finance income and expense for all interest-bearing financial instruments are recognised within 'finance income' and 'finance costs' in the profit or loss using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or liability (or group of assets and liabilities) and of allocating the finance income or finance costs over the relevant period. The effective interest rate is the rate that exactly discounts the expected future cash payments or receipts through the expected life of the financial instrument, or when appropriate, a shorter period, to the net carrying amount of the instrument.

The application of the method has the effect of recognising income (and expense) receivable (or payable) on the instrument evenly in proportion to the amount outstanding over the period to maturity or repayment. In calculating effective interest, the Company estimates cash flows considering all contractual terms redemption, are included in the calculation to the extent that they can be measured and are considered to be an integral part of the effective interest rate.

Cash flows arising from the direct and incremental costs of issuing financial instruments are also taken into account in the calculation. Where it is not possible to otherwise estimate reliably the cash flows or the expected life of a financial instrument, effective interest is calculated by reference to the payments or receipts specified in the contract, and the full contractual term. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

**2.29 Income tax expense**

Income tax expense comprises current income tax, education tax, police development levy, information technology development levy and deferred tax. [See note 2.18]

**2.30 Earnings per share**

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

**2.31 Trade Receivables**

Trade receivables are recognized when due. The premium receivables arising from insurance contracts issued and include amounts due from agents, brokers and insurance contract holders. Premium receivables are those for which credit notes issued by brokers are within 30 days in conformity with the "NO PREMIUM NO COVER" NAICOM policy.

**2.32 Statement of Cash Flows**

A statement of cash flows, when used in conjunction with the rest of the financial statements, provides information that enables users to evaluate the changes in net assets of an entity. Its financial structure (including its liquidity and solvency) and its ability to affect the amounts and timing of cash flows in order to adapt to changing circumstances and opportunities.

**NOTES TO THE FINANCIAL STATEMENTS – continued**

According to IAS 7 Statement of Cash Flows, an entity shall report cash flows from operating activities using either:

- (a) the direct method, whereby major classes of gross cash receipts and gross cash payments are disclosed; or
- (b) the indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

The Company has adopted the direct method in reporting cash flows from operating activities because it provides more details about operating cashflows which may be useful in estimating future cash flows.

**2.33 Changes in accounting policies and disclosures****2.33a New and amended IFRS standards that are effective for the current year.**

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and in the manner required by the Companies and Allied Matters Act of Nigeria, the Financial Reporting Council of Nigeria Act, the Banks and other Financial Institutions Act of Nigeria, and relevant Central Bank of Nigeria circulars. The same accounting policies and methods of computation are followed in the financial statements as compared with the most recent annual financial statements.

**i) Classification of liabilities as current or Non-current and Non-current Liabilities with Covenants – Amendments to IAS 1**

The amendments to IAS 1 affect only presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. The amendments also clarify that the classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are expected to be effective for annual periods beginning on or after 1 January 2024 with early adoption permitted.

The standards does not affect the presentation or classification of the Company's financial statements.

**ii) Disclosures: Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7**

In May 2023, the Board issued amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures. The amendments specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liability cashflows and exposure to liquidity risk.

The amendments clarify the characteristics of supplier finance arrangements. In these arrangements, one or more finance providers pay amounts an entity owes to its suppliers.

The amendments require an entity to provide information about the impact of supplier finance arrangements on liabilities and cash flows, including terms and conditions of those arrangements, quantitative information on liabilities related to those arrangements as at the beginning and end of the reporting period and the type and effect of non-cash changes in the carrying amounts of those arrangements. The information on those arrangements is required to be aggregated unless the individual arrangements have dissimilar or unique terms and conditions. In the context of quantitative liquidity risk disclosures required by IFRS 7, supplier finance arrangements are included as an example of other factors that might be relevant to disclose.

**NOTES TO THE FINANCIAL STATEMENTS – continued**

The company does not have any supplier finance arrangement as at the end of the financial period and does not foresee entering into any of such arrangements in the future.

**iii) Lease Liability in a Sale and Leaseback – Amendments to IFRS 16**

In September 2022, the Board issued Lease Liability in a Sale and Leaseback (Amendments to IFRS 16). The amendment to IFRS 16 Leases specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

After the commencement date in a sale and leaseback transaction, the seller-lessee applies paragraphs 29 to 35 of IFRS 16 to the right-of-use asset arising from the leaseback and paragraphs 36 to 46 of IFRS 16 to the lease liability arising from the leaseback. In applying paragraphs 36 to 46 the seller-lessee determines 'lease payments' or 'revised lease payments' in such a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use retained by the seller-lessee. Applying these requirements does not prevent the seller-lessee from recognising, in profit or loss, any gain or loss relating to the partial or full termination of a lease, as required by paragraph 46(a) of IFRS 16.

The date of initial application is the beginning of the annual reporting period in which an entity first applied IFRS 16. The amendment does not have a material impact on the Company's financial statements as it is not a seller-lessee in any lease agreement as at the end of the current financial year. The amendment will be applied when the company become a party in any sale and leaseback arrangement.

**iv) IAS 8 (Amendment): Definition of Accounting Estimates**

IAS 8 (Amendment): Definition of Accounting Estimates (effective for annual reporting periods beginning on or after 1 January 2023). The amendment replaces the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition,

Accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty"

Entities develop accounting estimates if accounting policies require items in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not the correction of an error. There was no impact on the Financial Statements from the adoption of this amendment.

**v) IFRS 9 - Derecognition of a financial liability settled through electronic transfer.**

The application guidance in IFRS 9 is amended to clarify the date of initial recognition or derecognition of financial assets and financial liabilities.

The existing application guidance states that a financial liability is derecognised at its settlement date, being the date on which the liability is extinguished because the obligation specified in the contract is discharged, cancelled or expires, or the liability otherwise qualifies for derecognition.

As an alternative to this requirement, the amendments permit an entity to credit a financial liability (or part of it) that will be settled in cash using an electronic payment system to be discharged before the settlement date if, and only if, the entity has initiated a payment instruction that has resulted in:

- the entity having no practical ability to withdraw, stop or cancel the payment instruction
- the entity having no practical ability to access the cash to be used for settlement as a result of the payment instruction
- the settlement risk associated with the electronic payment system being insignificant.

An entity that elects to apply the derecognition alternative for financial liabilities is required to apply it to all settlements made through the same electronic payment system.

## NOTES TO THE FINANCIAL STATEMENTS – continued

## vi) IAS 12 (Income Taxes – Deferred Tax (Pillar Two Model Rules))

IAS 12 clarifies that the Standard applies to income taxes arising from tax law enacted or substantively enacted to implement, the Pillar Two model rules provided by the OECD, including tax law that implements qualified domestic minimum topup taxes described in those rules. The amendments introduce a temporary exception to the accounting requirements for deferred taxes in IAS 12, so that an entity would neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

**IAS 12 – Deferred tax related to Assets and Liabilities arising from a Single Transaction**

IAS 12 (Amendments): Deferred Tax related to Assets and Liabilities arising from a Single Transaction (effective for annual reporting periods beginning on or after 1 January 2023). These amendments clarify and narrow the scope of the exemption provided by the IAS 12 “Income Taxes” standard allowing institutions not to recognize any deferred tax during the initial recognition of an asset and a liability. All leases and decommissioning obligations are excluded from the exemption scope for which companies recognise both an asset and a liability and will now have to recognize deferred taxes. From the date of first application of IFRS 16 “Leases”, the Bank have considered the right of use assets and the lease-related liabilities as a single transaction.

Consequently, on the initial recognition date, the amount of deferred tax assets offset the amount of deferred tax liability. The net temporary differences resulting from later variations in the right of use assets and lease liabilities subsequently result in a deferred tax asset as reporting date which is subject to the recoverability criteria of IAS 12 “Income Taxes”.

There was no impact on the Financial Statements from the adoption of these amendments.

## vii) IFRS 17 Insurance Contracts

IFRS 17 (Amendment): Initial Application of IFRS 17 and IFRS 9 – Comparative Information (effective for annual periods beginning on or after 1 January 2022). The amendment is a transition option relating to comparative information about financial assets presented on initial application of IFRS 17. The amendment is aimed at helping entities to avoid temporary accounting mismatches between financial assets and insurance contract liabilities, and therefore improve the usefulness of comparative information for the users of financial statements. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach) •
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The main features of the accounting model for insurance contracts are as follows.

- The measurement of the present value of future cash flows, incorporating an explicit risk adjustment, remeasured every reporting period (the fulfilment cash flows)
- A Contractual Service Margin (CSM) that is equal and opposite to any day one gain in the fulfilment cash flows of a group of contracts, representing the unearned profit of the insurance contracts to be recognised in profit or loss over the service period (i.e., coverage period)
- Certain changes in the expected present value of future cash flows are adjusted against the CSM and thereby recognised in profit or loss over the remaining contractual service period
- The effect of changes in discount rates will be reported in either profit or loss or other comprehensive income, determined by an accounting policy choice.
- The presentation of insurance revenue and insurance service expenses in the statement of comprehensive income based on the concept of services provided during the year under review.
- Amounts that are paid to a policyholder in all circumstances, regardless of whether an insured event happens (non-distinct investment components) are not presented in the income statement, but are recognised directly on the balance sheet
- Insurance services results (earned revenue less incurred claims) are presented separately from the insurance finance income or expense

## NOTES TO THE FINANCIAL STATEMENTS —continued

- Extensive disclosures to provide information on the “recognised amounts from insurance contracts and the nature and extent of risks arising from these contracts”

## 2.33 b Amendments and Standards Issued but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the company's financial statements are disclosed below. The company intends to adopt these standards, if applicable, when they become effective.

## a) Amendments to IFRS 10 and IAS 28—Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture

The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognized in the parent's profit or loss only to the extent of the unrelated investors' interest in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognized in the former parent's profit and loss only to the extent of the unrelated investors' interest in the new associate or joint venture.

The effective date of the amendments is yet to be set by the Board; however, earlier application of the amendments is permitted. In December 2015, the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting.

## b) Lack of exchangeability – Amendments to IAS 21

In August 2023, the Board issued Lack of Exchangeability (Amendments to IAS 21). The amendment to IAS 21 specifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. A currency is considered to be exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations. If a currency is not exchangeable into another currency, an entity is required to estimate the spot exchange rate at the measurement date. An entity's objective in estimating the spot exchange rate is to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions. The amendments note that an entity can use an observable exchange rate without adjustment or another estimation technique.

When an entity estimates a spot exchange rate because a currency is not exchangeable into another currency, it discloses information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments which is not expected to have any impact on the financial statements as the reporting currency and functional currency (the Nigerian Naira) is adequately exchangeable for any other currency, will be effective for annual reporting periods beginning on or after 1 January 2025. Early adoption is permitted but will need to be disclosed. When applying the amendments, an entity cannot restate comparative information.

## c) IFRS 18 – Presentation and Disclosure in Financial Statements

In April 2024, the IASB released IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) which includes presentation and disclosure requirements for all entities applying IFRS Accounting Standards. When effective, IFRS 18 supersedes IAS 1 Presentation of Financial Statements. Entities will continue to apply IAS 7 Statement of Cash Flows, although there are certain limited amendments to IAS 7 as a result of IFRS 18.

**NOTES TO THE FINANCIAL STATEMENTS – continued**

Entities will be required to classify income and expenses in the categories (operating, investing, financing, income taxes and discontinued operations). Enhanced principles on the aggregation and disaggregation of information have been included in IFRS 18. Supporting application guidance will assist in determining whether information about transactions should be included in the primary financial statements or not.

**d) IFRS 19 - Subsidiaries without Public Accountability: Disclosures**

In May 2024, the Board issued IFRS 19 *Subsidiaries without Public Accountability: Disclosures* (IFRS 19), which allows eligible entities to elect to apply reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. Unless otherwise specified, eligible entities that elect to apply IFRS 19 will not need to apply the disclosure requirements in other IFRS accounting standards. An entity applying IFRS 19 is required to disclose that fact as part of its general IFRS accounting standards compliance statement. IFRS 19 requires an entity whose financial statements comply with IFRS accounting standards including IFRS 19 to make an explicit and unreserved statement of such compliance.

An entity may elect to apply IFRS 19 if at the end of the reporting period:

- It is a subsidiary as defined in IFRS 10 *Consolidated Financial Statements*;
- It does not have public accountability; and
- It has a parent (either ultimate or intermediate) that prepares consolidated financial statements, available to public.

An entity has public accountability if its debt or equity instruments are traded in a public market, or it is in the process of issuing such instruments for trading in a public market; or it holds assets in a fiduciary capacity for a broad group of outsiders as one of its primary businesses (i.e., not for reasons incidental to its primary business). The disclosure requirements in IFRS 19 are organised in two subheadings per IFRS accounting standards and where disclosure requirements in other IFRS Accounting Standards remain applicable, these are specified under the subheading of each IFRS accounting standard. IFRS 19 disclosures exclude IFRS 8 *Operating Segments*, IFRS 17 *Insurance Contracts* and IAS 33 *Earnings per Share*.

Therefore, if an entity that applies IFRS 19 is required to apply IFRS 17 or elects to apply IFRS 8 and/or IAS 33, that entity would be required to apply all the relevant disclosure requirements in those standards. IFRS 19 is effective for reporting periods beginning on or after 1 January 2027 and earlier adoption is permitted. If an eligible entity chooses to apply the standard earlier, it is required to disclose that fact. An entity is required, during the first period (annual and interim) in which it applies the standard, to align the disclosures in the comparative period with the disclosures included in the current period under IFRS 19, unless IFRS 19 or another IFRS accounting standard permits or requires otherwise.

**e) Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7**

In May 2024, the Board issued *Amendments to the Classification and Measurement of Financial Instruments* (Amendments to IFRS 9 and IFRS 7), which:

- Clarifies that a financial liability is derecognized on the 'settlement date', i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. It also introduces an accounting policy option to derecognise financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met.
- Clarified how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- Clarifies the treatment of non-recourse assets and contractually linked instruments.
- Requires additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

The amendments will be effective for annual reporting periods beginning on or after 1 January 2026. Entities can early

**NOTES TO THE FINANCIAL STATEMENTS – continued**

adopt the amendments that relate to the classification of financial assets plus the related disclosures and apply the other amendments later. The new requirements will be applied retrospectively with an adjustment to opening retained earnings. Prior periods are not required to be restated and can only be restated without using hindsight. An entity is required to disclose information about financial assets that change their measurement category due to the amendments.

**f) Power Purchase Agreements – Amendments to IFRS 9 and IFRS 7**

In December 2024, the Board issued Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7). The amendments include:

- Clarifying the application of the 'own use' requirements
- Permitting hedge accounting if these contracts are used as hedging instruments
- Adding new disclosure requirements to enable investors to understand the effect of these contracts on company's financial performance and cash flows.

The clarifications regarding the 'own use' requirements must be applied retrospectively, but the guidance permitting hedge accounting has to be applied prospectively to new hedging relationships designated on or after the date of initial application. The amendments will be effective for annual reporting periods beginning on or after 1 January 2026.

**g) IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information**

IFRS S1 sets out overall requirements for sustainability-related financial disclosures with the objective to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to primary users of general-purpose financial reports in making decisions relating to providing resources to the entity. The Company is currently assessing the impact of the standards which will be effective from 1 January 2028 in order to ascertain the significance of impact to have on its financial statements in providing adequate disclosure on this in line with the requirements.

**h) IFRS S2 Climate-related Disclosures**

IFRS S2 sets out the requirements for identifying, measuring and disclosing information about climate-related risks and opportunities that is useful to primary users of general-purpose financial reports in making decisions relating to providing resources to the entity. The Company is currently assessing this in order to ascertain the significance of impact to have on its financial statements in providing adequate disclosure on this in line with the requirements.

**2.34 Significant accounting judgements, estimates and assumptions**

In the application of the Company's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision, and future periods if the revision affects both current and future periods.

**2.34.1 Critical judgements in applying the Company's accounting policies.**

The following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in financial statements.

**a) Insurance product classification and contract liabilities**

The Company's non-life insurance contracts are classified as insurance contracts. As permitted by IFRS 17,

## NOTES TO THE FINANCIAL STATEMENTS – continued

Insurance contracts are those contracts where the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk, by comparing benefits paid with benefits payable if the insured event did not occur. Insurance contracts can also transfer financial risk. Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or expire.

**b) Liability for remaining coverage**

The company uses the following key assumption for its liability for remaining coverage: Earnings pattern for IRC (Liability for Remaining coverage) includes two (2) options under the PAA, they are

- Pro-rata temporis (passage of time)
- Risk based curve

For insurance contracts which automatically qualify for PAA (i.e., with coverage period not exceeding 1 year), the passage of time or pro-rata temporis pattern will be used. This approach is almost identical to the 365th method that is currently used for determining IFRS 4 unearned premium reserves (UPR). However, contracts which automatically qualify for PAA does not necessarily imply that the uniform earnings curve will be appropriate. For example, seasonality of claim incidence under certain class of policy would normally require calibration of the earnings curve. But the default curve will be uniform unless facts and circumstances indicate otherwise, i.e., there is sufficient credible data and grounds that the incidence of risk may not be linear.

For contracts with coverage period exceeding 1-year, actuarial investigations will be conducted by deriving the claims incidence pattern using historical claims data. Actual observed claims incidence curve is tested for goodness of fit by applying standard statistical techniques. In the absence of credible claims data, an equivalent risk incidence curve will be sourced from our international reinsurers. If external risk curve is not available, then by default a uniform earnings curve will apply.

The yield curve published by Nigeria Actuary Society (NAS) will be applied to both insurance and reinsurance contracts.

**c) Claims payment pattern for liability for incurred claims**

In estimating the claims payment pattern for liability for incurred claims, the company sets:

1. An assumption regarding the future timing of claim settlement is required as the IFRS 17 requires the determination of probability weighted future cash flows. Weighted future cash flows will include expected claim payment, expected cost of settling the claims, unallocated claim expenses that are integral to the claim cost but due to system limitations they cannot be allocated to individual claims (e.g. cost of pool of contract cars), legal costs incurred or expected to be incurred for litigated claims, minor recoveries from third party insurers, salvage and subrogation and directly attributable maintenance expenses. For reinsurers UC, same cashflows shall apply as described above but the cash flows are apportioned according to reinsurance arrangement.

Run off triangles are used to project future claims payment generated by direct insurance contracts and claim recovered from reinsurance contracts. Actual claims paid and outstanding claim reserves are grouped by accident year cohorts.

Methodology Used for claims reserving is defined by the Company's Reserving Policy and Reserving Guidance, and it relies on the Basic Chain Ladder as well as the Bornhuetter-Ferguson method. Same methodology is applied to claims generated by direct contracts and claim recovered from reinsurance contracts.

## NOTES TO THE FINANCIAL STATEMENTS – continued

The best estimate for claims development or payment to ultimate is determined by the link ratio estimator for each period of development. This is achieved by selecting the weighted averages or simple averages of link ratios for each period of claims development until the ultimate period when the claims development is deemed to be fully run off. For each reserving class that best estimate claim payment pattern is derived separately on a gross basis insurance contracts and reinsurers' share (claim recovered from reinsurance contracts). The process of selecting link ratios often involves identifying outliers and excluding them. Analysis of Actual versus Expected claim reserves is carried out to assess adequacy of best estimate payment pattern estimated in prior year/period. Where significant deviations are noted, further investigations are carried out to ascertain whether this is indicative of a new trend in the underlying claim development process or whether this is caused by the occurrence of abnormally large claims that tend to distort the latest link ratios or whether it was caused by certain specific events impacting the claims process that are not expected to recur in the future (e.g. restructuring of claims department, or installing a new admin system or claim backlog). If the cause of the deviation is driven by changes in the claims development process which is expected to be recurring or be permanent in the future (e.g., application of new case reserving practice), then judgement is applied in choosing the link ratio for the most recent accident year cohort.

Consideration is also given on the need to allow for a tail factor for projecting claims payment beyond the available data horizon.

2. Claim payment pattern will be derived for each reserving class or portfolio (portfolio if there is only one reserving class).
3. Basically, the payment pattern provides probabilities to project the settlement of claims in future time periods.
4. For a given portfolio or reserving class, same payment pattern will be applied to project the payment of OCR (outstanding claim reserve), IBNR reserve and Risk Adjustment estimates over future time periods.
5. Existing reserving models (primarily the Basic Chain Ladder) will be used to derive the payment probabilities from the link ratios obtained from paid triangles.
6. Pattern will be derived once a year, that is, at the year-end valuation. It is expected that same payment pattern will be used in the UC cashflow modelling for interim valuation periods and roll forward.
7. However, for reserving class or portfolios which exhibit significant volatility, payment pattern might be reviewed and revised more frequently and also pattern used in UC model will need to be updated. A change in payment pattern will lead to a change in fulfilment cashflows arising from non-financial assumption change. This change or delta in fulfilment cashflow will be accounted for as an insurance service expense.
8. Changes of payment pattern during a financial year will only be considered if justified by facts and circumstances. Examples of facts and circumstances could be as follows: major changes in claim reporting and settlement processes that would invalidate existing payment pattern (e.g. non-life claims backlog can be quite common arising from dispute in settlement amount or change in policy administration system, occurrence of major external systemic events such as a pandemic related lockdown will impact the development factors, hence invalidate existing payment pattern).
9. It is to be noted that, for consistency, the same payment pattern as used for claim projection will be applied in the projection of Risk Adjustment estimates. The same approach would be used to derive the payment pattern for modelling the UC cashflows for a portfolio of reinsurance contracts.

**NOTES TO THE FINANCIAL STATEMENTS – continued**

10. Moreover, it is required to allocate the projected OCR, IBNR and RA to issue year cohorts /underwriting year cohorts. This will necessitate the application of an allocation driver. Projected IBNR, OCR and RA cashflows will be allocated to underwriting year by making use of weights. Weights, as a proxy for coverage, for each underwriting year will be derived from earned premium /revenue (as computed for the URC). For internal reporting needs, further allocation of IBNR, OCR and RA (risk adjustment) down to more granular levels (issue year cohorts/distribution channels/ cover-section/ client types) will be required. Earned premium weights, as described above, will also be used for a more granular allocation of projected OCR, IBNR and RA.

**Insurance acquisition cash flows**

For the company's PAA eligible contracts, the company recognizes insurance acquisition cashflows as an expense immediately. The effect of electing to recognise insurance acquisition cash flows as an expense when incurred for a group of insurance contracts is to increase the liability for remaining coverage and reduce the likelihood of any subsequent onerous contract loss. There would be an increased charge to profit or loss on incurring the expense, offset by an increase in profit released over the coverage period.

**Onerous groups**

For groups of contracts that are onerous, the liability for remaining coverage is determined by the fulfilment cash flows. Any loss-recovery component is determined with reference to the loss component recognised on underlying contracts and the recovery expected on such claims from reinsurance contracts held.

**Time value of money on liability for remaining coverage**

For Engineering contracts and Marine cargo contracts, the Company adjusts the carrying amount of the liability for remaining coverage to reflect the time value of money and the effect of financial risk using discount rates that reflect the characteristics of the cash flows of the group of insurance contracts at initial recognition. While for other business lines, the company has elected not to discount the liability for remaining coverage.

**Discount rates**

Insurance contract liabilities are calculated by discounting expected future cash flows at a risk-free rate, plus an illiquidity premium where applicable. Risk free rates are determined by reference to the yields of highly liquid high grade rated sovereign securities in the currency of the insurance contract liabilities. The illiquidity premium is determined by reference to observable market rates. The projected claims under the incurred but not reported (IBNR) reserves have been discounted using discount rate published by Nigerian Actuarial Society as at 31st December, 2025.

**Risk adjustment for non-financial risk**

The risk adjustment for non-financial risk is the compensation that the Company requires for bearing the uncertainty about the amount and timing of the cash flows of groups of insurance contracts. The risk adjustment reflects an amount that an insurer would rationally pay to remove the uncertainty that future cash flows will exceed the expected value amount.

The Company has estimated the risk adjustment using a confidence level (value at risk) approach in which a full IFRS 17 liability distribution is generated across all non-financial risks and risk adjustment is calculated as the difference between the best estimate liability and the liability value at the chosen confidence level. We have used the Value at Risk (VAR) approach to estimate the Risk Adjustment. We have used the historical claims as per the data used in the IBNR calculation and have ranked the claims and the development factors from the claims and have applied a 70% confidence level to determine the risk adjustment. We considered different confidence level but ended up adopting 70% confidence level as the risk adjustment produced using 70% confidence level best represents the amount of the additional liability that the company needs to hold to cover the uncertainty about the amount and timing of the cashflows that arises from non-financial risk as the company fulfils its insurance contracts.

**NOTES TO THE FINANCIAL STATEMENTS – continued****2.3: 2 Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

**a) Estimating the incremental borrowing rate**

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

The Company estimates the IBR using observable inputs (such as EGN Bond interest rates) and is required to make certain entity-specific adjustments (such as the company's stand-alone credit rating, or to reflect the terms and conditions of the lease) and assets specific adjustment (such as property yield).

**b) Fair value of financial instruments using valuation techniques**

The Directors use their judgment in selecting an appropriate valuation technique. Where possible, financial instruments are marked at prices quoted in active markets. In the current market environment, such price information is typically not available for all instruments and the Company uses valuation techniques to measure such instruments. These techniques use "market observable inputs" where available, derived from similar assets in similar and active markets, from recent transaction prices for comparable items or from other observable market data. For positions where observable reference data are not available for some or all parameters the Company estimates the non-market observable inputs used in its valuation models.

Other financial instruments are valued using a discounted cash flow analysis based on assumptions supported, where possible, by observable market prices or rates although some assumptions are not supported by observable market prices or rates.

**c) Valuation of non-life insurance contract liabilities**

For non-life insurance contract, estimates have to be made for the expected ultimate cost of all future payments attaching to incurred claims at the reporting date. These include incurred but not reported ("IBNR") claims. Due to the nature of insurance business, ultimate cost of claims is often not established with certainty until after the reporting date and therefore considerable judgement, experience and knowledge of the business is required by management in the estimation of amounts due to contract holders. Actual results may differ resulting in positive or negative change in estimated liabilities.

The ultimate cost of outstanding claims is estimated by using a range of standard actuarial claims projection techniques, such as loss ratio method and BCL methods. The BCL method assumes that past experience is indicative of future experience i.e., claims recorded to date will continue to develop in a similar manner in the future while loss ratio method is used for classes with limited claims payments or history and therefore a BCL method would be inappropriate. The loss ratio method allows for an estimate of the average ultimate loss ratio which needs to be assumed, it uses the incurred and paid to date loss ratio that have been experienced to date in previous accident years.

Additional qualitative judgement is required as significant uncertainties remain such as future changes in

## NOTES TO THE FINANCIAL STATEMENTS – continued

inflation, economic conditions, attitude to claiming, foreign exchange rates, judicial decisions and operational process.

Similar judgements, estimates and assumptions are involved in the assessment of losses attaching to unearned premium exposures. The methods used are based on time apportionment principles together with significant judgement to assess the adequacy of these liabilities and the attached uncertainty. The carrying value at the reporting date of non-life insurance contract liabilities is M 16,356,456,820 (2024: M16,514,276,000).

d) ~~Taxes~~

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

The carrying value at the reporting date of net deferred tax liabilities is M779,411,000 (2024: M387,616,000). Further details on taxes are disclosed in Note 15 to the financial statements.

## e) Valuation of pension benefit obligation

The cost of defined benefit pension plans, and other post-employment benefits, and the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rate of return on assets, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Details of the key assumptions used in the estimates are contained in Note 29 to the financial statements.

The carrying value at the reporting date of gratuity benefit obligation is Nil (2024: M323,908,000).

## f) Valuation of investment properties

The Company carries its investment properties at fair value, with changes in fair value being recognised in profit or loss. The Company engaged an independent valuation specialist to assess fair value as at 31 December 2025. A valuation methodology based on discounted cash flow model was used as there is a lack of comparable market data because of the nature of the properties.

The determined fair value of the investment properties is most sensitive to the estimated yield as well as the long-term vacancy rate. The key assumptions used to determine the fair value of the investment properties are further explained in Note 24 to the financial statements.

## g) Impairment losses on financial assets

The measurement of impairment losses both under IFRS 9 across all categories of financial assets in scope requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk.

These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are output of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include

- i. S&P credit grading model of obligors which assigns PDs to the individual grades
- ii. The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment

## NOTES TO THE FINANCIAL STATEMENTS - continued

- iii. Development of ECL models, including the various formulas and the choice of inputs
- iv. Determination of associations between macroeconomic scenarios and economic inputs, such as unemployment rates, inflation rate, GDP growth rate and crude oil price, and the effect on PDs, EADs and LGDs

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

The determination of whether a financial asset is credit impaired focuses exclusively on default risk, without taking into consideration the effect of credit risk mitigants such as collateral or guarantees. Specifically, the financial asset is credit impaired and in stage 3 when: The Company considers the obligor is unlikely to pay its credit obligations to the Company. The termination may include forbearance actions, where a concession has been granted to the borrower or economic or legal reasons that a qualitative indicator of credit impairment; or contractual payments of either principal or interest by the obligor are past due by more than 90 days.

For financial assets considered to be credit impaired, the ECL allowance covers the amount of loss the Company is expected to suffer. The estimation of ECLs is done on a case-by-case basis for non-homogenous portfolios, or by applying portfolio-based parameters to individual financial assets in this portfolio by the Company's ECL model for homogenous portfolios.

Forecast of future economic conditions when calculating ECLs are considered. The lifetime expected losses are estimated based on the probability-weighted present value of the difference between:

- 1) The contractual cash flows that are due to the Company under the contract; and
- 2) The cash flows that the Company expects to receive.

Elements of ECL models that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LT/ECL basis and the qualitative assessment
- The development of ECL models, including the various formulas and the choice of inputs Determination of associations between macroeconomic scenarios and economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

## 2.34.2 Estimates and assumptions

- i) Regulatory authority and financial reporting

The Company is regulated by the National Insurance Commission (NAICOM) under the National Insurance Act of Nigeria. The Act specifies certain provisions which have impact on financial reporting as follows:

- I. Section 20 (1a) provides that provisions for unexpected risks shall be calculated on a time apportionment basis of the risks accepted in the year.
- II. Section 20 (1b) which requires the provision of 10 percent for outstanding claims in respect of claims incurred but not reported at the end of the year under review.
- III. Sections 21 (1a) and 22 (1b) require maintenance of contingency reserves for general and life businesses respectively at specified rates as set out under note (32) and note 2.22 to cover fluctuations in securities and variation in statistical estimates.
- IV. Section 24 requires the maintenance of a margin of solvency to be calculated in accordance with the Act

**NOTES TO THE FINANCIAL STATEMENTS – continued**

as set out under note 4(c).

- V. Section 10(3) requires insurance companies in Nigeria to deposit 10 percent of the minimum paid-up share capital with the Central Bank of Nigeria as set out under note 24;
- VI. Section 25 (1) requires an Insurance Company operating in Nigeria to invest and hold investment in Nigeria assets equivalent to not less than the amount of policy holders' funds in such accounts of the Insurer. See note 17 for assets allocation that covers policy holders' funds.

The Financial Reporting Council of Nigeria (Amendment) Act 2023 which requires the adoption of IFRS by all listed and significant public interest entities provides that in matters of financial reporting, if there is any inconsistency between the Financial Reporting Council of Nigeria (Amendment) Act 2023 and other Acts which are listed in Section 59(1) of the Financial Reporting Council of Nigeria (Amendment) Act 2023, the Financial Reporting Council of Nigeria (Amendment) Act 2023 shall prevail. The Financial Reporting Council of Nigeria acting under the provisions of the Financial Reporting Council of Nigeria (Amendment) Act 2023 has promulgated IFRS as the national financial reporting framework for Nigeria. Consequently, the following provision of the National Insurance Act, 2003 which conflict with the provisions of IFRS have not been adopted.

- (v) Section 22(1a) which requires additional 25 percent of net premium to general reserve fund.

**2.35 Segment Reporting**

Operating segment is reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segment, has been identified as the Board of Directors of Prestige Assurance Plc. It is the Board of Directors that has responsibility for planning and controlling the activities of the Company. Prestige Assurance Plc is a one segment i.e. non-life insurance business.

23 Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year.

|                                                                                                        |            |            |
|--------------------------------------------------------------------------------------------------------|------------|------------|
|                                                                                                        | 2025       | 2024       |
| The following reflects the income that shareholders used in the basic earnings per share computations: |            |            |
| Net profit attributable to ordinary shareholders (€'000)                                               | 13,564     | 3,216,560  |
| Weighted average number of shares for the year ('000)                                                  | 18,252,562 | 18,223,562 |
| Basic earnings per ordinary share (€cent)                                                              | 0.72       | 17.42      |
| Diluted earnings per ordinary share (€cent)                                                            | 0.72       | 17.42      |

\* During the period, the Company issued bonus shares and new ordinary shares (see note 31.1 and 31.2 respectively). The Company has restored the 2015 Special Year Bonus and diluted EPS from 0.02 (€cent/share) to 0.72 (€cent/share) to reflect the impact of bonus shares issued and the bonus shares had already been included in the weighted average number of shares.

Investment property is stated at fair value, which has been determined based on valuation performed by J.C. Olsen & Co (HK) (JOC)/JOCV/000000011001, a professional firm of House Surveyors and Valuers who are accredited independent valuers, and signed by J.C. Olsen (JOC/00000000000000000000) as at 31 December 2025, their valuations are based on the following three types of investment properties: The fair value of the properties has been determined using the income approach as accretion with that recommended by the International Valuation Standards Committee. Valuations are performed on an annual basis and the fair value gains and losses are recorded within the Profit or Loss.

The Company's investment property was acquired during the reporting period. Thus, the Company did generate a sum of 418,587 million (rental) income from its investment property for the year ended 31 December 2025 (2024: HK\$1,172 million). Total operating expenses arising in respect of such properties during the reporting year, which sum of HK\$1,024 million included administrative expenses.

There are no restrictions on the realizability of investment property or the receipt of income and proceeds of disposal. The Company has no contractual obligation to purchase, develop or dispose investment property prior to sale or encumbrance.

The fair value disclosed on investment properties is as follows:

|                                     | Fair value measurement using   |                               |                                 |           |

|                            | Contingencies at effective gross rent              | 5%                            | 274,899/                                    | 244,158/  |
|                            | Management and Maintenance cost per annum per cent |                               | (279,183)                                   | (248,828) |

The Investment/income approach centers around the view that the value is "the present worth of future right to income". It looks only to property's future income as may be reasonably be anticipated during the estimated economic life of the property.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related re-letting, redevelopment, or refurbishment. The appropriate duration is typically driven by market behaviour that is a characteristic of the class of real property. Periodic cash flow is typically estimated as gross income less vacancy, non-recoverable expenses, collection losses, lease incentives, maintenance cost, agent and commission costs and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

### 32 Retirement benefit obligation

The Company operates a defined benefit staff gratuity plan where qualifying employees receive a lump sum payment based on the number of years served after an initial qualifying period of five years and gross salary on date of retirement.

The most recent actuarial valuations of the present value of the defined benefit obligation were carried out at 31 December 2024 by Zamara Consulting Actuaries Nigeria Limited. This is an independent Actuary Consultant registered with the Financial Reporting Council of Nigeria (FRCN) with FRC number FRC/2018/NAS/03000012910 and signed by James I. Olubayi, FIA with FRC number FRC/2019/00000012910.

In 2025, the Board of Directors of Prestige Insurance Company undertook a strategic review of the company's employee benefit arrangements. Following this review, a decision was made to terminate the unfunded Defined Benefit scheme and settle all outstanding obligations as at 30 June 2025. This decision was communicated to all eligible staff, and arrangements were put in place to ensure a fair and transparent settlement process.

The settlement involves the payment of the present value of accrued benefits to all eligible employees as at the cut-off date. The company will utilize its bank and cash balances to discharge these obligations in full, thereby extinguishing the liability from its statement of financial position. The settlement will be accounted for in accordance with applicable accounting standards, with no resulting gain or loss on settlement recognized in the profit or loss for the year ending 31 December 2025.

For members of staff participating in the Defined Benefit plan, any outstanding staff loans were secured against their entitlements under the scheme. This arrangement ensured that the company maintained a level of security over the loans provided to employees, reducing the risk of non-recovery in the event of staff departure or other unforeseen circumstances.

At the point of settling the Defined Benefit Obligation, the company offset the outstanding staff loan balances against the amounts due to each eligible member. Consequently, the net settlement paid to staff reflected the accrued benefit less any staff loans outstanding as at the date of settlement. This approach ensured that the company recovered all outstanding staff loans efficiently, while employees received their net entitlement in accordance with the agreed settlement terms.

The principal assumptions used for the purposes of the actuarial valuations were as follows.

|                         |                                |
|-------------------------|--------------------------------|
| Discount rate           | 18.10%                         |
| Rate of salary increase | 18.05%                         |
| Mortality               | A1967 - 1970 rated down 1 year |

|                                                             | 2025  | 2024     |
|-------------------------------------------------------------|-------|----------|
|                                                             | N'000 | N'000    |
| <i>The amounts recognised in profit or loss</i>             |       |          |
| Current service cost                                        | -     | 19,962   |
| Interest cost                                               | -     | 45,725   |
| Total, included in staff costs                              | -     | 65,687   |
| <i>The amounts recognised in other comprehensive income</i> |       |          |
| Actuarial (loss)/gain - change in assumption (Note 13)      | -     | (34,325) |
| Actuarial (loss)/gain - experience adjustment (Note 13)     | -     | (279)    |
| Re-measurement (loss)/gain on net defined benefit plans     | -     | (34,554) |

The plan is unfunded.

*Sensitivity analysis*

Reasonable possible changes at reporting date to one of the relevant actuarial assumptions holding other assumptions constant, would have affected the defined benefit obligation by the amount shown below.

|                                      | Increase       | Decrease       |
|--------------------------------------|----------------|----------------|
|                                      | N'000          | N'000          |
| Staff Gratuity Scheme                |                |                |
| Discount rate (1% movement)          | (0)            | (0)            |
|                                      | (2024: 16,208) | (2024: 15,208) |

32 Retirement benefits obligation - continued

The analysis does not take account of the full distribution of cashflow expected under the plan, it does provide an approximation of sensitivity of the assumption shown.

The sensitivity analyses above have been determined based on a method that extrapolates the impact on the defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

The following are the expected payments or contributions to the defined benefit plan in future years.

|                                                          | 2024    |
|----------------------------------------------------------|---------|
|                                                          | N'000   |
| Within the next 12 months (next annual reporting period) | 27,887  |
| Between 2 and 5 years                                    | 52,289  |
| Between 5 and 10 years                                   | 90,040  |
| Beyond 10 years                                          | 153,692 |
| Total expected payments                                  | 323,908 |

|                                        |         |
|----------------------------------------|---------|
| <b>37.1 Gratuity valuation reserve</b> |         |
| At 1 January                           | 2,293   |
| Actuarial gain during the year         | -       |
| Transfer to retained earnings          | (2,293) |
| At 31 December                         | -       |

This comprise of the cumulative actuarial gain on change in assumption and experience adjustment.

|                                    |           |
|------------------------------------|-----------|
| <b>37.2 Fair value reserve</b>     |           |
| At 1 January                       | 4,194,950 |
| Gains on valuation during the year | 502,646   |
| At 31 December                     | 4,697,596 |

The fair value reserve shows the effects from the fair value measurement of financial instruments & comprehensive income. Any gains or losses recognised are non-recycling when the assets are derecognised.

|                                             |         |
|---------------------------------------------|---------|
| <b>37.3 Property revaluation reserve</b>    |         |
| At 1 January                                | 903,122 |
| Arising during the year                     | -       |
| Transfer to retained earnings (Note 38.3.1) | -       |
| At 31 December                              | 903,122 |

**37.3.1** This relates to revalued surplus being realised during the year as the assets are being used. The amount is charged on revalued amount and depreciation that would have been charged based on the historical cost.

This comprised cumulative fair value changes on valuation of leasehold land & building net of deferred tax.

### 42 Contingencies and commitments

The Company, in its ordinary course of business, is presently involved in 3 cases as a defendant (31 December 2024: 3 cases).

#### Legal 1

Sara Foods Ltd Vs. Prestige Assurance Plc & 2 others (Idowu Sofola & Co.)

#### Facts and contingent liability

The claimant, a sister company of Sara Product Limited allegedly had a fire policy. The insured claimed ₦40,427,434.77 as compensation for fire out break in the factory. Due to the fact that the premium on the policy had not been paid in full and in advance prior to the loss, the defendant repudiated the claims.

#### Update/status

The Court of Appeal delivered judgment on 5 July 2017 and declared the the contract of Insurance unenforceable. The insured, dissatisfied with the Court decision, has now filed an appeal with the Supreme Court. Should in case the case is delivered in favour of the insured, Prestige's ultimate liability would not exceed 60% of the claim.

### 42 Contingencies and commitments

#### Legal 2

Mrs. Kikelomo Kola Fasemu Vs. Prestige Assurance Plc

##### Facts and contingent liability

The Claimant is a former employee of the Company instituting a case against the Company for wrongful dismissal and seeking a declaration that the circumstances of her termination constituted a redundancy. She seeks claim and payment of N20,518,206 being termination benefits and N7,486,475 being gratuity. Prestige Plc filed a counter claim of N16,502,677 being the balance outstanding on the housing loan taken by the claimant while she was an employee.

##### Update/status

Trial was concluded and judgement delivered by the court on 25 April 2018, wherein the entire claims of the claimant failed. The claimant aggrieved, has filed an appeal to the Court of Appeal. Prestige Assurance Plc has also filed a counter appeal in dissatisfaction with certain portions of the judgment. Both appeal have been consolidated and are set to argue same

#### Legal 3

Mr Robert Marshall Effiom-Desouza Vs Prestige Assurance Plc

##### Facts and contingent liability

Mr. Robert Marshall Effiom-Desouza ('Insured') took out an Insurance policy, Prestige Salary Protection Shield (PSPS) which is one of the company's products to provide cover for loss of employment. Mr Effiom upon the loss of his job, and pursuant to the claims schedule advised by the company at the inception of the Policy, the insured then lodged a claim in the sum of N8,250,000.

The insured dissatisfied with Prestige's position, filed the above action. The Court declared that the principle of indemnity is not applicable to the Policy Document and therefore cannot be invoked to amend the provisions of the Agreement voluntarily entered by parties. The company was ordered to pay to the insured a total sum of N8,250,000.00 and the sum of N250,000.00 being nominal damages for breach of contractual duty which is a total sum of N8m.

##### Update/status

The Company filed a Notice of Appeal, Motion for Extension of Time and Motion for Stay of Execution while the Insured filed a Motion Ex parte for Garnishee Proceeding wherein the court ordered the garnishee (Eco Bank) to pay the sum of N8m as stated to the Registrar of the Court for safe keeping, which will be given to the successful party at the appeal.

## 43 Events after the reporting date

There were no events after the reporting date which could have a material effect on the disclosures and the financial position of the Company as at 31 March 2026 and on its profit or loss and other comprehensive income for the year then ended.

## 44 Asset and Liability Management

Asset and Liability Management (ALM) attempts to address financial risks the Company is exposed to which includes interest rate risks, foreign currency risks, equity price risks and credit risks. The major financial risk is that in the long run its investment proceeds are not sufficient to fund the obligations arising from its insurance contracts. ALM ensures that specific assets of the Company is allocated to cover reinsurance and liabilities of the Company.

The Company manages these positions within an ALM framework that has been developed to achieve long-term investment returns in excess of its obligations under insurance and investment contracts. The notes below show how the Company has managed its financial risks.

| ASSETS                                                              | Insurance funds   | Shareholders' Funds | 2015              |

#### 46 Management of insurance and financial risk

The Company issues contracts that transfers insurance risk. This section summarises the main risks linked to short-term insurance business and the way they are managed.

##### (i) Insurance risk

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is fortuitous and therefore unexpected and unpredictable.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Company faces under its insurance contracts is that the actual claims and indemnity payments exceed the carrying amount of the insurance liabilities.

The Company has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the volatility of the expected outcome.

##### (ii) Frequency and severity of claims

The frequency and severity of claims can be affected by several factors, the most significant resulting from events like fire and allied perils and their consequences and liability claims. Inflation is another factor that may affect claims payments.

Underwriting measures are in place to enforce appropriate risk selection criteria or not to renew an insurance contract if the perceived level of risk is very high.

The reinsurance arrangements for proportional and non-proportional treaties are such that the Company is adequately protected and would only suffer predetermined amounts.

##### (iii) Concentration of insurance risk

The following table shows the concentration of claims by class of business gross and net of reinsurance.

31 December 2025

|                       | Outstanding claims |                |              |

The Company takes all reasonable steps to ensure that it has adequate information regarding its claims exposures. However, given the uncertainty establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established. The liability for these contracts contains a provision for IBNR and a provision for reported claims not yet paid at the reporting date. The Company has ensured that liabilities on the statement of financial position at year end for existing claims whether reported or not, are adequate.

The Company has in place a series of quote-share and excess-of-loss covers in each line of business of the last four years to cover for losses on lease contracts.

## Notes to the financial statements - continued

### 46 Management of insurance and financial risk - continued

#### b Financial risk management

The Company is exposed to financial risks through its financial assets, financial liabilities and insurance and reinsurance assets and liabilities. In particular, the key financial risk is that investment proceeds are not sufficient to fund obligations arising from insurance contracts.

The most important components of this financial risk are:

- Market risk (which includes currency risk, interest rate risk and equity price risk)
- Credit risk;
- Liquidity risk;
- Capital management; and
- Fair value estimation.

These risks arise from open position in interest rate, currency and equity products, all of which are exposed to general and com market movements.

The Company's risk management policies are designed to identify and analyse risks, to set appropriate risk limits and control, and monitor the risks. The Company regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice.

The Board recognises the critical importance of having efficient and effective risk management policies and systems in place.

To this end, there is a clear organisational structure with delegated authorities and responsibilities from the Board to Board Committees, executives and senior management. Individual responsibility and accountability are designed to ensure a disciplined, conservative and constructive culture of risk management and control.

#### 1 Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices.

The Company has established policies which set out the principles that they expect to adopt in respect of managing all the key market risks to which they are exposed. The Company monitors adherence to this market risk policy through the Company's Investment Committee. The Company's Investment Committee is responsible for managing market risk.

The financial impact from market risk is monitored at Board level through Investment reports which examine impact of changes in market rates on investment returns and asset values. The Company's market risk policy sets out the principles for matching liabilities with appropriate assets, the approaches to be taken where liabilities cannot be matched and the monitoring processes that are required.

#### 2a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates is been reduced since the Company's long-term investment in interest rate instruments are fixed interest rate and majority federal government bonds. The Company is not subject to interest rate risk in the reporting year. This is because the Company has no floating rate investment in the reporting year (2023: nil).

## Notes to the financial statements – continued

### 46 Management of insurance and financial risk – continued

#### b Financial risk management – continued

##### Ab Equity price risk

The Company's equity price risk exposure relates to financial assets whose value fluctuates as a result of changes in market prices. The Company has unquoted equities designated as equity instruments through other comprehensive income whose fair value is determined using a valuation technique because of the lack of active market for these instruments.

The sensitivity analysis for equity price risk illustrates how changes in the fair value of equity securities will fluctuate because of changes in market prices, whether those changes are caused by factors specific to the individual equity issuer, or factors affecting all similar equity securities traded in the market:

A 1% movement in market prices will result in an unrealised gain or loss for the year of +/N=5.3 million (December 2024: +/N=2.9 million)

Management monitors movements of financial assets and equity price risk movements on a monthly basis by assessing the expected changes in the different portfolios due to parallel movements of a 10% increase or decrease in the Nikkei 225 index index with all other variables held constant and all the Company's equity instruments without particular index moving programmatically.

##### Ac Currency risk

The Company purchases reinsurance contracts internationally, thereby exposed to foreign currency fluctuations.

The Company's primary revenues are with respect to the US Dollar.

The Company also has a number of investments in foreign currencies which are exposed to currency risk. The Investment Committee closely monitors currency risk exposures against pre-determined limits. Exposure to foreign currency exchange risk is not hedged.

##### Sensitivity risk

If the Naira had weakened/strengthened against the following currencies with all variables remaining constant, the impact on the results for the year would have been as shown below mainly as a result of foreign exchange gains/losses.

The Company financial assets and financial liabilities by currency is detailed below.

A 6% (2024: 5%) movement in Naira against the foreign exchange rate in USD will result in +/N= 149.85 million loss (2024: +/N= 124.7 million gain), in Euro, +/N= 7.14 million gain (2024: +/N=7 million), and in pounds sterling, +/N= 6.04 million gain (2024: +/N= 3.3 million gain)

E Credit risk

Credit risk is the risk that one party to a financial instrument will fail to honour its obligations and cause the Company to incur a financial loss. Credit

The Company has adopted a policy of dealing only with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The company's maximum exposure is measured on gross amount basis.

The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee annually.

The table below provides information regarding the credit risk exposure of the Company in relation with comparative exposure.

|                                                                                     | Maximum exposure  |                   |

## 46 Management of insurance and financial risk – continued

**Reinsurers' credit exposures**

The Company is, however, exposed to concentration of risks with respect to their reinsurers due to the nature of the reinsurance market and the restricted range of reinsurers that have acceptable credit ratings. The Company is exposed to the possibility of default by their reinsurers in respect of share of insurance liabilities and payments in respect of claims already paid.

The Company manages its reinsurance counterparty exposures and the reinsurance department has a monitoring role over this risk.

This exposure is monitored on a regular basis for any shortfall in the claims history to verify that the contract is progressing as expected and that no further exposure for the Company will arise.

Management also monitors the financial strength of reinsurers and there are policies in place to ensure that risks are ceded to top-rated and credit worthy reinsurers only.

**Industry analysis**

The table below provides information on the credit exposure of the Company by the level of industry in which it operates.

| 31 December 2021                | Financial services | Government | Others  | Total      |

##### Impairment assessment

The Company's ECL assessment and measurement method is set out below.

Significant increase in credit risk, default and cure

The Company continuously monitors all assets subject to ECLs, in order to determine whether an instrument or a portfolio of instruments is subject to 12mECL or LT-ECL. The Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers that there has been a significant increase in credit risk when any contractual payments are more than 30 days past due. In addition, the Company also considers a variety of indicators that may indicate up to three ways by assessing whether there has been a significant increase in credit risk:

The Company's process to assess changes in credit risk is multi-factor and has three main elements (or 'pillars'):

- a quantitative element (i.e. reflecting a quantitative comparison of PD at the reporting date and PD at initial recognition);
- a qualitative element; and
- 'backstop' indicators.

##### Quantitative elements

The quantitative element is the primary indicator of significant increases in credit risk, with the qualitative element playing a secondary role. The quantitative element is calculated based on the change in lifetime PDs by comparing:

- the remaining lifetime PD as at the reporting date; with
- the remaining lifetime PD for this point in time that was estimated based on facts and circumstances at the time of initial recognition of the exposure (adjusted where relevant for changes in prepayment expectations).

##### Qualitative elements

In general, qualitative factors that are indicative of an increase in credit risk are reflected in PD models on a timely basis and thus are included in the quantitative assessment and form a separate qualitative assessment. However, if it is not possible to include all current information about such qualitative factors in the quantitative assessment, they are considered separately in a qualitative assessment of whether there has been a significant increase in credit risk.

If there are qualitative factors that indicate an increase in credit risk that have not been included in the calculation of PDs used in the quantitative assessment, the Company recalibrates the PD or otherwise adjusts its estimate when calculating ECLs.

#### b Asset liability management - continued

##### 1 Credit risk - continued

##### Backstop indicators

Instruments which are more than 90 days past due or have been granted forbearance are generally regarded as having significantly increased in credit risk and may be credit-impaired. There is a rebuttable presumption that the credit risk has increased significantly if contractual payments are more than 30 days past due; this presumption is applied unless the Company has reliable and supportable information demonstrating that the credit risk has not increased significantly since initial recognition.

During the year, there has been no significant increase in credit risk on the financial assets of the Company. However, a Corporate bond held by the Company defaulted during the year and was considered credit-impaired individually using lifetime PD.

##### Expected credit losses

The Company assesses the possible default events within 12 months for the calculation of the 12mECL and lifetime for the calculation of LT-ECL. Given the investment policy, the probability of default for new instruments acquired is generally determined to be minimal and the expected loss given default ratio varies for different instruments.

Amounts being from ECL

Inputs, assumptions and techniques used for estimating impairment

When determining whether the credit risk (i.e. Risk of default) on a financial instrument has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both qualitative and quantitative information analysis based on the Company's experience, expert credit assessment and forward looking information. The Company primarily identifies whether a significant increase in credit risk has occurred for an exposure by using days past due and assessing other information obtained externally.

Wherever available, the Company monitors changes in credit risk by tracking published external credit ratings. To determine whether published ratings remain up to date and to assess whether there has been a significant increase in credit risk at the reporting date that has not been reflected in the published rating, the Company also reviews changes in bond yields together with available price and regulatory information about issuers.

Where external credit ratings are not available, the Company makes each exposure to a credit risk grade based on data that is determined to be predictive of the risk of default (including but not limited to the audited financial statements, management accounts and cashflow projections, available regulatory and press information about the borrowers) and apply experienced credit judgement. Credit risk grades are defined by using qualitative and quantitative factors that are indicative of the risk of default and are aligned with the external credit rating definition from Moody's and Standard and Poor.

The Company has assessed that the credit risk of a financial asset has not increased significantly since the initial recognition if the financial asset has low credit risk at reporting date. The Company considers a financial asset to have low credit risk when its credit risk rating is equivalent to the globally understood definition of "Investment grade". The Company considers this to be BBB or higher based on the Moody's rating.

#### Notes to the financial statements - continued

#### 46 Management of insurance and financial risk - continued

##### b Financial risk management - continued

##### ii Credit risk - continued

As a back stop, the Company considers that a significant increase in credit risk occurs no later than when the asset is more than 30 days past due. Days past due are determined by counting the numbers of days since the earliest elapsed due date in respect of which full payments have not been received. Two days are determined without considering any grace period that might be available to the borrower.

The Company monitors the effectiveness of the criteria used to identify significant increase in credit risk by regular reviews to confirm that:

- The criteria are capable of identifying significant increase in credit risk before an exposure is in default;
- The criteria do not align with the point in time when the asset becomes 30 days past due;
- The average time between the identification of a significant increase in credit risk and default appears reasonable;
- Exposures are not generally transferred from 12-month ECL measurement to credit impaired; and
- There is no unwarranted volatility in loss allowance from transfers between 12-month ECL and Lifetime ECL measurement.

##### Modified financial assets

The contractual terms of a financial asset may be modified for a number of reasons, including changing market conditions and other factors not related to a current or potential credit deterioration of the borrower. An existing financial asset whose terms have been modified may be derecognized and the renegotiated asset recognized as a new financial asset at fair value in accordance with the accounting policies. When the terms of a financial asset are modified and the modification does not result in derecognition, the determination of whether the asset's credit risk has increased significantly reflects a comparison of:

- the risk of default occurring as the reporting date based on the modified term with
- The risk of default occurring estimated based on data on initial recognition and the original contractual terms.

##### Definition of default

A default is considered to have occurred with regard to a particular obligor when either or both of the two following events have taken place:

- The Company considers that the obligor is unlikely to pay its credit obligations to the Company in full, without recourse by the insurer to actions such as realising security (if held);
- The obligor is past due more than 90 days on any material credit obligation to the Company.

A default is considered to have occurred with regard to a particular obligor when either or both of the two following events have taken place:

- The Company considers that the obligor is unlikely to pay its credit obligations to the Company in full, without recourse by the insurer to actions such as realising security (if held);
- The obligor is past due more than 90 days on any material credit obligation to the Company.

The elements to be taken as indication of unwillingness to pay include:

- The insurer puts the credit obligation on non assessed status;
- The insurer makes a charge-off or account-specific provision resulting from a significant perceived decline in credit quality subsequent to the Company taking on the exposure;
- The insurer sells the credit obligation at a material credit-related economic loss;
- The insurer ceases to a distressed restructuring of the credit obligation where this is likely to result in a diminished financial obligation caused by the material forgiveness, or postponement, of principal, interest or (where relevant) fees.

Analysis of inputs to the ECL model under multiple economic scenarios

An overview of the approach to estimating ECLs is set out in Note 2.3.3(h) Summary of significant accounting policies. To ensure completeness and accuracy, the Company obtains the data used from third party sources (Moody's rating agency, government agencies, Monetary authorities in Nigeria, etc.) and a team of experts within its credit risk department verifies the accuracy of inputs to the Company's ECL model (including determining the weights attributable to the multiple scenarios). The following table set out the key drivers of expected loss and the assumptions used for the Company's base case estimate, ECLs based on the base case, plus the effect of the use of multiple economic scenarios for each of the four geographic regions, as at 31 December 2025 and 2024.

The tables show the values of the key forward looking economic variables/assumptions used in each of the economic scenarios for the ECL calculations. The figures for "Subsequent years" represent a long-term average and so are the same for each scenario.

| Key driver<br>31 December 2025 | ECL scenario | Assigned probability | 2025  | 2027  | 2028  | Subsequent years |

(i) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its insurance liabilities as they fall due. Prestige mitigates this risk by having an investment strategy which focuses on liquidity and capital preservation before income return.

This table below presents the cash flows receivable/payable by the Company. The amounts disclosed in the table are the contractual undiscounted cash flows. All liabilities are presented on a contractual cash flow basis except for the insurance liabilities, which are presented with their expected cash flow.

###### Valuation inputs

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair values are determined at prices quoted in active markets. In the current environment, such price information is typically not available for all instruments and the Company applies valuation techniques to measure such instruments. These valuation techniques involve maximum use of market observable data but at some points management estimate other than observable market inputs within the valuation model. There is no standard model and different assumptions would generate different results.

Our inputs are subject to a control framework designed to ensure that input variables and output are assessed independent of the risk taker. These inputs and outputs are reviewed and approved by a valuation committee. The Company has minimal exposure to financial assets which are valued at other than quoted prices in an active market.

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

|                                                                     | At 31 December 2021        |                        | At 31 December 2020        |                        |
|---------------------------------------------------------------------|----------------------------|------------------------|----------------------------|------------------------|
|                                                                     | Carrying<br>value<br>m'000 | Fair<br>value<br>m'000 | Carrying<br>value<br>m'000 | Fair<br>value<br>m'000 |
| <b>Financial assets</b>                                             |                            |                        |                            |                        |
| Fair value through profit or loss                                   | 537,968                    | 537,938                | 295,768                    | 295,768                |
| Equity instruments at fair value through other comprehensive income | 6,121,836                  | 6,122,896              | 6,816,751                  | 6,816,853              |
| Debt instruments at amortised cost                                  | 12,899,305                 | 12,899,834             | 13,833,355                 | 13,899,872             |
| <b>TOTAL</b>                                                        | <b>19,559,109</b>          | <b>19,560,668</b>      | <b>20,945,874</b>          | <b>20,112,493</b>      |

The management assessed that the fair values of cash and cash equivalents, other receivables and borrowings (book balances) approximate their carrying amounts largely due to the short-term maturities of these instruments.

###### Fair Value Hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of fair value hierarchy. This grouping is determined based on the lowest level of significant inputs used in fair value measurement, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as a price) or indirectly (as a derived from price)
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2. Fair value measurement – continued

The hierarchy of the fair value measurement of the Company's financial assets and financial liabilities are as follows:

|                                                                           | Level 1    | Level 2 | Level 3   | Total      |
|---------------------------------------------------------------------------|------------|---------|-----------|------------|
|                                                                           | N'000      | N'000   | N'000     | N'000      |
| <b>31 December 2025</b>                                                   |            |         |           |            |
| <b>Financial assets</b>                                                   |            |         |           |            |
| Financial assets at fair value through profit or loss – listed securities | 537,988    | -       | -         | 537,988    |
| Equity instrument at FVOCI (Unlisted)                                     | -          | -       | 6,122,836 | 6,122,836  |
| Assets for which fair value are disclosed                                 |            |         |           |            |
| Debt securities at amortised cost                                         | 12,650,834 | -       | -         | 12,650,834 |
| <b>31 December 2024</b>                                                   |            |         |           |            |
| <b>Financial assets</b>                                                   |            |         |           |            |
| Financial assets at fair value through profit or loss – listed securities | 255,768    | -       | -         | 255,768    |
| Equity instrument at FVOCI (Unlisted)                                     | -          | -       | 4,016,853 | 4,016,853  |
| Assets for which fair value are disclosed                                 |            |         |           |            |
| Debt securities at amortised cost                                         | 13,759,843 | -       | 51,434    | 13,811,277 |

The following methods and assumptions were used to estimate the fair value:

• The fair values of the financial assets at fair value through profit or loss are based on active market price quotations at the reporting date.

• The fair values of the unlisted equity instruments have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, the discount rate, credit risk and volatility. The probability of the various outcomes within the range can be reasonably assessed and are used to estimate the separate fair value for these non-listed equity instruments.

• The fair values of debt instruments at amortised cost is based on market comparison of similar securities on quoted active prices in active market. This is adjusted for accrued interest on the instrument after the last interest coupon payment date. The Company values these investments at closing bid price.

The significant unobservable inputs used in the fair value measurements categorised within Level 3 of the fair value hierarchy, together with a quantitative sensitivity analysis at 31 December 2025 and 2024 are shown below:

Enterprise Assurance is committed to the engagement of various enterprise risk that could hinder the achievement of its strategic objectives. In doing this, the Company follows its internal control and enterprise risk management policies which was developed according to the provisions of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and approved by the National Auditing Commission, NACOM. While this framework does not provide answers to all the questions and the challenges experienced by the market in the past year, its engagement has strengthened our organisation's resilience to major risk exposures.

Corporate philosophy and objectives are clearly defined and has been integrated into our decision making process. Some of the components of our enterprise risk management system are:

## Notes to the financial statements - continued

### 26 Management of Insurance and financial risk - continued

#### a Financial risk management - continued

##### Enterprise risk management - continued

**Governance System:** The overall responsibility for the management of our enterprise risks resides with the Board through its Enterprise Risk Management (ERM) Committee. This committee works closely with the Chief Risk Officer/ERM Steering Committee to ensure significant risks are not only identified but escalated to the Management and Board. The functional Managers are saddled with the responsibility to carry out regular assessment of existing, newly identified and emerging risk applicable to the functional operations.

**Risk Identification & Assessment:** Risks associated with the Company's operations that may affect its strategic objectives and overall performance are regularly identified and evaluated by management. This process involves a dynamic and interactive procedure where line staff, functional managers, chief risk officer and management staff attempt to identify significant risk should new, across risk exposures from them and suggest concepts to combat them. In the course of the year, the Company encountered some significant risks.

| Significant Risk   | Impact on Operations                                |
|--------------------|-----------------------------------------------------|
| Reputational Risks | Brand Image of the Company                          |
| Financial Risks    | Paid higher value on claims due to Rura destruction |
| Legal Risks        | Increasing management cost,                         |

**Risk Control & Mitigation:** Risk control activities are engaged at different levels and by different functional units. Its major focus is to reduce the impact of losses from identified risk categories and emerging significant risks. Some of the existing risk categories and control measures are:

| Risk Categories    | Control Measures                                                                                                 |
|--------------------|------------------------------------------------------------------------------------------------------------------|
| Insurance Risks    | Formulation of underwriting policies and acceptance of risk defined to the Underwriting Department and branches. |
| Financial Risks    | Interest rate gap analysis, reports, pricing based on actuarial model testing                                    |
| Strategic Risks    | Insured Risk Strategy Committee                                                                                  |
| Hazard Risks       | Risk and Control Assessment, Monitoring and Control Measures                                                     |
| Reputational Risks | Our diligence, Trend in Customer Complaints and customer feedback mechanism.                                     |

**Internal & External Communication:** In line with the Company's philosophy of open communication, management provides relevant information to staff, Board, shareholders and industry regulators. This enhances the achievement of our corporate objectives in various ways. We do this by sharing regular information with staff, provision of standard operating systems and standard level agreements to facilitate internal operations. We also provide quarterly reports to the Board, Securities and Exchange Commission, Nigerian Stock Exchange and the National Insurance Commission on all aspects of the Company's operations.

**Risk Monitoring:** Management undertakes ongoing monitoring of the operations of the Company through the policies of internal audit and control and the risk management department of the Company. Adherence to existing policies are checked, control activities are evaluated and deficiencies are identified and corrected.

**Enterprise-wide Risk Management Principles**

Prestige Assurance Plc tries as much as possible to balance its portfolio while maximising our value to stakeholders through an approach that mitigates the inherent risk.

To ensure effective and economic use of resources, we operate strictly by the following principles:

- The Company will not take any action that will compromise its integrity
- The Company will at all times comply with all government regulations and uphold best institutional practice.
- The Company will build an enduring risk culture, which shall permeate the entire organisation
- The Company and all time held a balanced portfolio and adhere to guidelines on investment issued by the regulator and Finance and General Purpose Committee of the Company;
- The Company will ensure that there is a disaster insurance in place for the business above its limit and also prompt payment of such premiums.

**Approach to Risk Management**

In Prestige Assurance, there are levels of authority put in place for the oversight function and management of risk so create and promote a culture that mitigate the negative impact of risks facing the Company.

**The Board**

The Board sets the organisation's objectives, risk appetite and approves the strategy for managing risk. There are various committees related to terms of which their various functions are geared towards minimising likelihood impacts of risks faced by the Company.

**The Audit Committee**

The Board Audit Committee performs the following functions:

- 1.) Perform oversight function on accounting and financial reporting
- 2.) Work with the external auditors
- 3.) Ensure regulatory compliance
- 4.) Monitoring the effectiveness of internal control processes within the Company.

**Board Risk Committee**

This is made of a technical committee that oversees the business process. The functions include:

- 1.) Reviewing of Company's risk appetite
- 2.) Oversee management's process for the identification of significant risk across the Company and the adequacy of prevention, detection and reporting mechanisms.
- 3.) Review and reviewing risk register at least three times for adequacy of relevance and company's participation.
- 4.) Review and recommend for approval of the Board, risk strategy, risk procedures and framework for new products and services.

**Board Investment Committee**

- 1.) Set the investment limit and the type of business the Company should invest in
- 2.) Review and approve the above Company's investment policy
- 3.) Approve investments over and above management's approval limit
- 4.) Ensure that there is a professional support in order to meet the targeted goals of the Company.

Information on writing Risk

C Capital Management

The main objectives of the Company when managing capital are:

To ensure that the minimum Capital Requirement of ₦20 billion as required by the Insurance Act CAP 137, LFN 2004, is maintained at all times

This is a risk based capital method of maintaining the minimum amount appropriate for an insurance company to support its overall business operations in consideration of its size and risk profile. The calculation is based on applying capital factors to amongst others, the Company's assets, outstanding claims, retained profit and other risk and credit risk, to ensure a certain capital adequacy ratio.

To safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and;

To provide an adequate return to shareholders by paying dividends and other services commensurate with the level of risk.

The Insurance Act CAP 137, LFN 2004 specifies the amount of capital that must be held in proportion to the Company's liabilities, i.e. in respect of outstanding claim liability risk, unearned premium liability risk, investment risk, catastrophe risk and reinsurance credit.

The Company is also subject to a solvency requirement under the Insurance Act CAP 137, LFN 2004 and is required to maintain its solvency at the minimum capital required at all times. Solvency margin is the excess of admissible assets in Nigeria over admissible liabilities in Nigeria and shall not be less than the minimum paid up capital or 15% of the gross premium income less reinsurance premiums paid off during the year, whichever is higher in accordance with section 26 of the Insurance Act CAP 137 (FN, 2004).

The Company's capital requirement ratio and solvency margin exceed the requirements of the Insurance Act CAP 137, LFN 2004.

d Finance Act 2021 - Part 14 - Insurance Act

The Federal Government of Nigeria, by Federal Republic of Nigeria Official Gazette, dated 28 January 2022 amended the Finance Act, 2021. The Finance Act 2021 (Part on Insurance Act) in sections 23, 24, and 25 contains provisions which amended Sections 9, 23 and 102 of Insurance Act, 2003, as previously retained in paid up share capital. The Sections of the Act amended the Insurance Act by substituting the words "paid up share capital" with words "Capital requirement" and wherever they appear in Insurance Act 2003, the word "Capital requirement" was introduced and inserted in Section 102 of the Insurance Act. By the provisions of Section 35 "Capital Requirement" means:

Notes to the financial statements – continued

46 Management of Solvency and Capital risk – continued  
Financial Act 2021 – Part IX – Insurance Act – continued

(a) In the case of existing company –

- (i) the excess of admissible assets over liabilities, less the amount of own shares held by the company,
- (ii) subordinated liabilities subject approved by the Commission, and
- (iii) any other financial instrument as prescribed by the Commission.

For this purpose, Admissible Assets are defined as:

Share Capital, Share Premium, Retained Earnings, Contingency Reserves and other admissible assets subject to the approval of the Commission

(b) In the case of a new company –

- (i) Government Bonds and Treasury bills,
- (ii) Cash and bank balances, and
- (iii) Cash and cash equivalents.

 f. Capital Adequacy Test-continued

**Nigerian Insurance Industry Reform Act (NIIRA) 2025 Minimum Capital Requirement**

The Nigerian Insurance Industry Reform Act (NIIRA) 2025 establishes a comprehensive framework for regulating insurance operations in Nigeria with a strong emphasis on capitalization and improved financial stability. One of its key provisions is the introduction of new minimum capital requirements for insurance penetration, including a minimum capital requirement of ₦15 billion for Non-Life Insurance sector, aimed at strengthening solvency and protecting policyholders. Following the enactment of NIIRA 2025, the National Insurance Commission (NAICOM) issued a detailed guideline to clarify the implementation of this requirement. The guidelines specify compliance timelines, outline the structure of the Minimum Capital Requirement (MCR), and ensure alignment with both NIIRA 2025 and the NAICOM Act of 1997. Insurers are expected to meet these new thresholds by July 1st 2026, marking a significant shift in Nigeria's insurance regulatory landscape.

**Minimum Capital Requirement**
