MULTI-TREX INTEGRATED FOODS PLC

REPORT OF THE DIRECTORS TO THE MEMBERS FOR THE YEAR ENDED 30 APRIL 2025

The directors have the pleasure in presenting their report and the audited financial statements for the year ended 30 April 2025.

1. Statement of directors' responsibilities

The directors of Multi-Trex Integrated Foods Plc are responsible for the preparation of the financial statements for each financial year, which give a true and fair view of the state of affairs of the Company and of the results of operations and cash flows for that year. In preparing these financial statements, the directors have selected suitable accounting policies and applied them consistently, made judgements and estimates that are reasonable and prudent and in accordance with International Financial Reporting Standards (IFRS) as amended, Companies and Allied Matters Act, 2020 and the provisions of the Financial Reporting Council of Nigeria, Act (Amendment) 2023.

The directors are responsible for ensuring that the company keeps proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company. The directors are also responsible for safeguarding the assets of the Company and taking reasonable steps for the prevention and detection of fraud and other irregularities.

2. Principal activities

Multi-Trex Integrated Foods Plc is engaged in trading and processing of cocoa beans, exportation of industrial cocoa products as well as manufacturing and domestic marketing of cocoa-based consumer products.

3. Results for the Year

	2025 N'000	2024 N'000
Turnover	47,900	1,199,665
(Loss)/profit before taxation	(422,551)	462,933
Taxation	(649)	(22,935)
Deferred Taxation	-	70,940
(Loss)/profit after taxation	(423,200)	510,938

4. Dividend

The directors do not recommend the payment of any dividend in respect of the year ended 30 April 2025 (30 April 2024: Nil) due to losses sustained over the years.

5. Property, plant & equipment

Information relating to changes in property, plant and equipment during the period is given in Note 13 to the financial statements. In the opinion of the directors, the market value of the company's properties is not less than the value shown in the accounts.

6. AMCON Loan

The Company has repaid in full the agreed final settlement amount of, N9,903,000,000 (Nine Billion Nine Hundred and Three Million Naira only) as at 30 April 2025.

7. Corporate Social Responsibility

The company did not carry out any social responsibility in the year under review.

8. Human Resources, Training and Development

There was no training and development during the year under review.

9. Board of Directors

The names of the directors who held office during the period and at the date of this report are as follow:

Dr. Segun Aina OFR	- Chairman/Non -Executive
Mr. Yusuf Isiaka	- Executive/MD/CEO
Hon. Ajibola Ogunsiji	- Non-Executive
Mr. Olu Abayomi Sanya	- Non-Executive
Mr. Anthony Chisnall	- Non-Executive
Dr. Teju Bolujoko	- Non-Executive
Mrs. Moni Owofemi	- Non-Executive
Alhaji Murthada A. Adeniji	- Non-Executive
Mr. Nurain Haasan	- Non-Executive

10. Report on Corporate Governance

The company is committed to ensuring that its businesses are conducted in line with generally accepted ethical standards and best practices. The Board is responsible for ensuring compliance with the relevant laws and the code of corporate governance in all spheres of its operations.

11. The Board of Directors, Composition, Appointment and Training

The Board of Multi-Trex Integrated Foods Plc is responsible for setting rules and operational standards that ensure that the company's business is conducted in line with good corporate practice and relevant legislations. In pursuit of this goal, the Board insists on adherence by the management to best practices and regularly requires and scrutinizes information on internal controls, risks exposures and general developments within the operating environment capable of impacting on the business. The Board ensures that credible and reliable accounting records are maintained which disclose at any time, the financial status of the company and ensures that the company's accounts comply with the Companies & Allied Matters Act 2020 and other enabling statutes. The Board also formulates policies for prevention and detection of fraud and other financial irregularities and for safeguarding the assets of the company.

During the financial year ended 30 April 2025, nine directors served as members of the Board which comprises eight (8) Non-Executive Directors and one (1) Executive Director. The procedure for Board appointment ensures that persons of impeccable character and diverse skills on corporate management are considered for appointment. New Directors are given necessary secretarial support and information for effective participation at Board meetings.

Due to the coming onboard of N-Foods Universal Concept Limited, plans are ongoing to restructure the board with the aim of bringing onboard new members to replace those that will exit. The planned board restructuring will include bringing on board three independent directors in compliance with the relevant provision of CAMA 2020.

The Roles of the Board

The responsibilities of the Board of Directors include the following, amongst others:

- Policy formulation and planning;
- Periodic review and evaluation of Management performance;
- Monitoring and enforcing effective internal control through appropriate committee;
- Risk management and preservation of company assets;
- Management of Share Capital;
- Determination and periodic review of appropriate organizational structure;
- Succession planning and the appointment, training, remuneration and replacement of board members and senior management;
- Overseeing the effectiveness and adequacy of Internal Control systems;
- Overseeing the maintenance of the company's communication and information dissemination policy;
- Performance appraisal and remuneration of board members and senior executives;
- Review of reports and recommendations of its committees;
- Maintaining healthy communication and interaction with shareholders; and
- Ensuring the integrity of financial reports.

Board meetings

The Board met 3 (three) times during the financial year ended 30th April 2025. The Register of the Directors' attendance at the Board meetings will be made available for inspection at the Annual General Meeting. The following is the list of Directors and their attendance at the Board meetings:

Name	Number of Meeting held	Number of meeting attended
Dr.Olusegun Aina OFR	3	3
Hon. Ajibola Ogunsiji	3	-
Mr. Anthony Chisnall	3	3
Mr. Abayomi Sanya	3	3
Dr. Teju Bolujoko	3	3
Mrs. Moni Owofemi	3	3
Alh. Murthada Adeyemi Adeniji	3	3
Mr. Nurain Hassan	3	3
Mr. Yusuf Isiaka	3	3

Board Committees

The Board discharges its responsibilities through the various committees; namely the Governance, Nomination and Compensation Committee, Operations and Business Development Committee and Finance, Risk and Audit Committee. The committees have higher number of Non-Executive than Executive Directors and are guided by approved terms of reference. The following is the composition of the committees and record of attendance at the meetings held during the year:

a. Governance, Nomination and Compensation Committee

At the end of the 2024/2025 financial year, the Committee comprises three Non-Executive Directors. The committee's responsibilities include the review of the sustainability of the establishment, appraisal of the manning levels, review of new policy on employees' condition of service, performance evaluation and remuneration of Executive Directors and Senior Executives. The Committee is chaired by Mr. Abayomi Sanya a Non-Executive Director. The Committee met thrice during the year and the table below shows the list and attendance of members at the meeting.

Name	Number of Meeting held	Number of meeting attended
Mr. Abayomi Sanya	3	3
Hon. Ajibola Ogunsiji	3	2
Mrs. Moni Owofemi	3	3

b. Operations and Business Development Committee

At the tail end of the 2024/2025 financial year, the Committee comprises two Non-Executive Directors and one Executive Director was established. The Committee's responsibilities include operational oversight-monitoring production performance, efficiency & quality and overseeing supply chain, health safety environment, technology, and cost management. The Committee also has business development oversight duties-analysing markets, developing products, expand markets, review sales strategies, evaluate and recommend strategic partnership and sustainability initiatives. The Committee, chaired by Alh. Murthada Adeyemi Adeniji, a Non-Executive Director, did not hold its maiden meeting until after the year-end.

Name	Number of Meeting held	Number of meeting attended
Alh. Murthada Adeyemi Adeniji	-	-
Mr. Yusuf Isiaka	-	-
Dr. Teju Bolujoko	-	-

c. Finance, Risks and Audit Committee

At the end of the 2024/2025 financial year, the committee comprises two Non-Executive Directors and one Executive Director. Its duties include financial oversight-monitoring financial performance, budgeting and forecasting as well as managing capital structure, treasury management, tax, and insurance. The Committee also provides audit oversight by ensuring financial reporting integrity, maintaining internal controls, reviewing internal audit function and significant findings. The Committee is chaired by Mr. Anthony Chisnall. The Committee met once during the year. The following is the list of members and their attendance at the meeting:

Name	Number of Meeting held	Number of meeting attended
Mr. Anthony Chisnall	1	1
Mr. Yusuf Isiaka	1	1
Mr. Nurain Hassan	1	1

Effectiveness of Internal Control

The Board is responsible for maintaining a credible system of internal control to ensure the integrity and reliability of financial systems and corporate information. There exists an effective internal control function within the Company which gives reasonable assurance against any material misstatement or loss. The internal control systems are reviewed periodically to ensure continued relevance to the Company's business and prescribed standards. The company has a whistle blowing policy that allows employees to report any observed breach or fraudulent activities. Such reports are treated with utmost confidentiality and are acted upon swiftly and fairly.

Directors to retire by rotation

In accordance with article 87 of the Company's articles of association, Alhaji Murthada A. Adeniji retire by rotation and being eligible, offer himself for re-election.

Directors' Interest in Share Capital

The interests of directors who held office at the date of this report in the issued share capital of the Company as recorded in the Register of Directors' shareholding and/or as notified by them for the purpose of section 301 of the Companies and Allied Matters Act 2020 are as follows:

The Company is constantly striving to raise its standards of corporate governance, and compliance with all applicable laws, rules, and regulations.

We confirm that during the year ended 30th April 2025, the Company did not incur any fines, penalties, or sanctions from any of its principal regulatory bodies, governmental agencies, or other supervisory authorities.

We remain fully committed to upholding our regulatory obligations and fostering a culture of adherence and ethical conduct throughout the organization.

13. Whistleblowing Policy

Multi-Trex Integrated Foods Plc ("Multi-Trex" or "the Company") is committed to maintaining the highest standards of integrity, ethical conduct, and compliance with all applicable laws and regulations. We believe in fostering an open and transparent work environment where employees feel safe and empowered to raise genuine concerns about serious misconduct without fear of retaliation.

Multi-Trex Whistleblowing Policy ("the Policy") provides a clear and accessible mechanism for all employees, directors, officers, contractors, and third parties working for or on behalf of Multi-Trex to report concerns about wrongdoing within the Company. It aims to:

- Encourage employees to report concerns in good faith.

- Ensure that all reports are treated seriously, confidentially, and investigated promptly and fairly.
- Protect whistleblowers from any form of retaliation.
- Uphold the Company's values of integrity, accountability, and compliance.

This Policy applies to all individuals working for or on behalf of Multi-Trex Integrated Foods Plc, including:

- All permanent and temporary employees
- Directors and officers
- Contractors, consultants, and third-party representatives acting on behalf of the Company

A "protected disclosure" (also known as a "whistleblowing report") is a report made in good faith about a reasonable suspicion of serious misconduct or wrongdoing within the Company.

This includes, but is not limited to, concerns relating to:

- **Financial Impropriety:** Fraud, bribery, corruption, embezzlement, accounting irregularities, or misuse of Company assets.
- **Breach of Legal or Regulatory Obligations:** Violations of Nigerian laws or regulations (e.g., labor laws, environmental laws, anti-corruption laws, data protection laws).
- **Health and Safety Risks:** Acts or omissions that endanger the health and safety of
- **Environmental Damage:** Practices that cause significant harm to the environment.
- **Serious Misconduct:** Gross mismanagement, abuse of authority, serious breach of the Company's Code of Conduct, or other internal policies that could harm the Company's reputation or operations.
- **Discrimination, Harassment, or Bullying:** Serious and systemic issues that are not being adequately addressed through normal grievance procedures.
- **Concealment of any of the above.**

Multi-Trex provides multiple channels for making a whistleblowing report:

Primary Reporting Channels (Internal)

Employees are encouraged to use the following internal channels first, as they allow for the quickest and most effective resolution:

- **Your Immediate Supervisor/Manager:** If you feel comfortable and your supervisor is not involved in the alleged misconduct.
- **Human Resources Department:** For concerns related to workplace conduct, discrimination, harassment, or if you are uncomfortable reporting to your supervisor.
- **Head of Internal Audit:** For concerns related to financial impropriety, fraud, or accounting irregularities.
- **Company Secretary/Legal Department:** For concerns related to legal or regulatory compliance, or if the above channels are not appropriate.
- **Chief Executive Officer (CEO) or a Member of the Board of Directors:** For highly sensitive matters, or if you believe that previous reports have not been adequately addressed.

Reporting Procedures

When making a report, please provide as much detail as possible to facilitate a thorough investigation. This should include:

- The nature of the concern (what happened).

- The names of individuals involved (if known).
- When and where the events occurred.
- Any supporting evidence or documentation.
- Your contact details (optional, but helpful for clarification).

Reports can be made verbally or in writing (email, letter). Written reports are generally preferred as they provide a clear record.

Anonymous Reporting

While Multi-Trex encourages whistleblowers to identify themselves to allow for better communication and investigation, we understand that some individuals may prefer to remain anonymous. Anonymous reports will be investigated to the extent possible, based on the information provided.

However, the ability to investigate and take action may be limited if key information cannot be clarified or corroborated due to anonymity. Even if you report anonymously, we strongly encourage you to provide sufficient detail to enable a meaningful investigation.

Upon receipt of a whistleblowing report, Multi-Trex will follow these steps:

- Acknowledgement:** If the report is not anonymous, the Company will acknowledge receipt of the report within [e.g., 5 business days].
- Assessment:** The designated recipient (e.g HR, Internal Audit, Legal) will assess the report to determine if it falls within the scope of this Policy and warrants an investigation.
- Investigation:** If an investigation is deemed necessary, it will be conducted promptly, thoroughly, impartially, and confidentially. The investigation will be carried out by appropriate personnel, which may include internal departments or external experts.
- Confidentiality:** Every effort will be made to protect the identity of the whistleblower, subject to legal requirements and the needs of a fair investigation. Information will only be shared on a "need-to-know" basis.
- Outcome:** Upon conclusion of the investigation, appropriate action will be taken based on the findings. If the whistleblower has provided contact details, they will be informed of the outcome of the investigation to the extent possible, while respecting the privacy of others involved.

Multi-Trex strictly prohibits any form of retaliation against an employee who makes a protected disclosure in good faith. Retaliation includes, but is not limited to, dismissal, demotion, suspension, harassment, intimidation, discrimination, or any other adverse employment action taken as a direct result of making a good faith report.

Good Faith: A report is considered to be made in good faith if the whistleblower genuinely believes the information they are providing is true, even if the investigation later proves it to be unfounded.

This Policy is not intended to protect employees who knowingly make false reports or reports for malicious purposes. Any employee found to have engaged in retaliation against a whistleblower will be subject to severe disciplinary action, up to and including termination of employment, and potential legal action. If a whistleblower believes they have been subjected to retaliation, they should report it immediately to the Human Resources Department or the CEO/Board.

This Policy is designed to protect employees who make genuine reports of wrongdoing. It is not intended to be used for malicious purposes or to make false accusations. Employees who knowingly make false or vexatious reports, or reports for personal gain, will not be protected under this Policy and may be subject to disciplinary action, up to and including termination of employment.

Disciplinary Action

Any individual found to have engaged in misconduct as a result of a whistleblowing investigation will face appropriate disciplinary action, in accordance with Multi-Trex's Disciplinary Policy, up to and including termination of employment and, where applicable, legal proceedings.

This Whistleblowing Policy will be reviewed periodically by Multi-Trex management and updated as necessary to ensure its continued effectiveness, compliance with legal requirements, and alignment with best practices. All employees will be informed of any significant updates.

14. Securities Trading Policy

The Board of Directors have established an Insider Trading Policy designed to prohibit dealing in Multi-Trex Integrated Foods Plc shares or securities on the basis of potentially price sensitive information that is not yet in the public domain. This is in line with the Rules of the Nigeria Exchange Group (NGX), the Investment and Securities Act (ISA) 2007 and the SEC Rules and Regulations. All Directors complied with the Insider Trading Policy during the year under review.

15. Complaints Management Policy Framework

In compliance with the Securities and Exchange Commission Rule Relating to the Complaints Management Framework of the Nigerian Capital Market ("SEC Rules") 2019, Multi-Trex Integrated Foods Plc. continues to strengthen its complaints management procedure.

The Company has a formal Complaints Management Policy by which complaints arising from issues covered under the Investment and Securities Act 2007 (ISA) are registered, promptly resolved and quarterly submission of same is made to the Nigerian Exchange Regulation

16. Directors' interest in contract

For the purpose of Section 303 of the Companies and Allied Matters Act 2020 none of the Directors has notified the Company of their disclosable interest in contracts which the Company entered into as at 30 April 2025 (2024: Nil)

17. Format of financial statements

The financial statements have been prepared in accordance with the reporting and presentation requirements of the Companies and Allied Matters Act 2020 and are in compliance with the International Financial Reporting Standards reporting format as approved by the Financial Reporting Council of Nigeria (Amendment) Act 2023. The directors consider that the format adopted is the most suitable for the Company.

18. Donations & Sponsorship

No donation/sponsorship was made in the year (2024: Nil)

19. Independent Auditors

Baker Tilly Nigeria have indicated their willingness to continue in office pursuant to Section 401(2) of the Companies and Allied Matter Act 2020. A resolution will be proposed at the Annual General meeting to authorize the directors to fix their remuneration.

By Order of the Board

DIRECTOR

MULTI-TREX INTEGRATED FOODS PLC**STATEMENT OF DIRECTORS' RESPONSIBILITIES
FOR THE YEAR ENDED 30TH APRIL 2025**

The Companies and Allied Matters Act 2020, requires the directors to prepare financial statements for each financial period that give a true and fair view of the state of financial affairs of the company at the end of the period and of its profit or loss. The responsibilities include ensuring that the company:

- a) keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the company and comply with the requirements of the Companies and Allied Matters Act 2020;
- b) establishes adequate internal controls to safeguard its assets and to prevent and detect fraud and other irregularities; and
- c) prepares its financial statements using suitable accounting policies supported by reasonable and prudent judgments and estimates, and are consistently applied.

The directors accept responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with International Financial Reporting Standards and the provisions of the Companies and Allied Matters Act 2020 and in compliance with the Financial Reporting Council of Nigeria (Amendment) Act 2023.

The directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the company and of its loss for the year ended 30th April 2025. The directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

MANAGEMENT'S ANNUAL ASSESSMENT OF, AND REPORT ON, MULTI-TREX INTEGRATED FOODS PLC'S INTERNAL CONTROL OVER FINANCIAL REPORTING

To comply with the provisions of Section 1.3 of SEC Guidance on Implementation of Sections 88-89 of Investments and Securities Act 2025, we hereby make the following statements regarding the Internal Controls of Multi-Trex Integrated Foods Plc for the year ended 30 April 2025:

- i. Multi-Trex Integrated Foods Plc's management is responsible for establishing and maintaining a system of internal control over financial reporting ("ICFR") that provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards.
- ii. Multi-Trex Integrated Foods Plc's management used the Committee of Sponsoring Organization of the Treadway Commission (COSO) Internal Control-Integrated Framework to conduct the required evaluation of the effectiveness of the company's ICFR;
- iii. Multi-Trex Integrated Foods Plc's management has assessed that the company's ICFR as of the end of 30 April 2025 is effective.
- iv. Multi-Trex Integrated Foods Plc's external auditor Messrs Baker Tilly Nigeria that audited the financial statements, included in the annual report, has issued an attestation report on management's assessment of the company's internal control over financial reporting. The attestation report of Messrs Baker Tilly Nigeria that audited its financial statements will be filed as part of Multi-Trex Integrated Foods Plc's annual report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MULTI-TREX INTEGRATED FOODS PLC

Report on an assurance engagement performed by an independent practitioner to report on management's assessment of controls over financial reporting

Our opinion

In our opinion, nothing has come to our attention that the internal control procedures over financial reporting put in place by management of Multi-Trex Integrated Foods Plc ("the company") are not adequate as of 30 April 2025, based on the SEC Guidance on Implementation of Sections 88-89 of the Investments and Securities Act 2025 issued by The Securities and Exchange Commission.

What we have performed

We have performed an assurance engagement on Multi-Trex Integrated Foods Plc's internal control over financial reporting as of 30 April, 2025 based on FRC Guidance on Assurance Engagement Report on Internal Control Over Financial Reporting ("the Guidance") issued by the Financial Reporting Council of Nigeria. The company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Assessment of, and Report on, Multi-Trex Integrated Foods Plc's Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our assurance engagement.

Basis for opinion

We conducted our assurance engagement in accordance with the Guidance, which requires that we plan and perform the assurance engagement and provide a limited assurance report on the entity's internal control over financial reporting based on our assurance engagement. As prescribed in the Guidance, the procedures we performed included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our engagement also included performing such other procedures as we considered necessary in the circumstances. We believe the procedures performed provide a basis for our report on the internal control put in place by management over financial reporting.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other matter

We also have audited, in accordance with the International Standards on Auditing, the financial statements of Multi-Trex Integrated Foods Plc and our report dated 14 May, 2026 expressed as an unqualified Opinion.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF MULTI-TREX INTEGRATED FOODS PLC

Report on the Audit of the Financial Statements

We have audited the financial statements of the Company, which comprise the statement of financial position as at 30 April 2025, the statement of profit or loss and other comprehensive income, statement of changes in equity, and statement of cash flows for the year the ended 30 April 2025, and notes to the financial statements, including a summary of significant accounting policies.

Opinion

In our opinion, the accompanying financial statements give a true and fair view of the statement of financial position of Multi-Trex Integrated Foods Plc as at 30 April 2025, its financial performance and its cash flows for the year ended in accordance with the provisions of both the Companies and Allied Matters Act 2020 and the Financial Reporting Council of Nigeria (Amended) Act 2023

Basis of Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company within the meaning of International Standards on Auditing (ISAs) issued by the International Auditing and Assurance Standards Board (IAASB) and have fulfilled our other responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Going Concern

The company's financial statements have been prepared using the going concern basis of accounting. The use of this basis of accounting is appropriate unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Management has not identified a material uncertainty that may cast significant doubt on the entity's ability to continue as a going concern, and accordingly none is disclosed in the financial statements. Based on our audit of the financial statements, we have also not identified such a material uncertainty. However, neither management nor the auditors can guarantee the company's ability to continue as a going concern.

Key Audit Matters

Key audit matters are the matters that in our professional judgment were of the most significant in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

The key audit matters identified are applicable to the audit of the financial statements.

Key Audit Matter	How the matter was addressed in our audit
1.Long outstanding receivables and payables As mentioned in prior year, certain portion of the company's payables and receivables balances remain outstanding for an extended period. The non movement on these balances still raises concerns over their recoverability or settlement, as well as the adequacy of provisions for doubtful debts or aging payables. The outstanding balances though not material but the risk that some of these balances may not be recoverable or fully settled is still imminent. This could lead to the misstatement of both assets and liabilities in the financial statements.	a) Receivables Review: Our assessment of prior year which includes the reviewing statement of accounts, evaluating the aging profile, and testing the adequacy of provisions for doubtful debts/write offs still stands. We require management's follow up of direct confirmation process with key customers and suppliers to verify the amounts outstanding and identify any disputes or uncertainties to which we have not received complete responses. b) Management's Assessment: No further work apart from prior years examinations by management. Management is also of the opinion that the balances will be further published for public notice (for those customers and suppliers) for clarifications and claims to be substantiated when the company resumes operations. c) Conclusion: Based on the procedures performed, we have assessed the long-outstanding balances to be appropriately disclosed in the financial statements, while we await management's further response for adequate provisions where necessary. We noted no material misstatements regarding the balances as of the reporting date, and we are satisfied with the company's disclosures on the aging of receivables and payables.
2.Classification and valuation of assets in progress The entity has capitalized costs of items imported for refurbishment property, plant & equipment as "Assets in progress". There is a risk these costs might not be appropriately classified or valued under IAS 16 if the assets are not yet ready for use.	The following audit procedures were carried out: - We reviewed contracts and invoices for the imported items. - Verified if costs are eligible for capitalization. - Checked if assets are appropriately disclosed as assets in progress. - Evaluated management's assessment of costs allocation.

Responsibilities of Board of Directors for the Financial Statements

The Board of Directors are responsible for the preparation and fair presentation of these financial statements which are in compliance with the requirements of both the Financial Reporting Council of Nigeria Act 2011 (as amended) and the Companies and Allied Matters Act 2020. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatements, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to express an independent opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (ISAs) issued by the International Federation of Accountants (IFAC). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Report on Other Legal and Regulatory Requirements

The Companies and Allied Matters Act 2020 requires that in carrying out our audit we consider and report to you on the following matters. We confirm that: -

- i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) proper accounting records have been kept by the Company; and
- iii) the Company's statements of financial position and profit or loss and other comprehensive income are in agreement with the accounting records.

MULTI-TREX INTEGRATED FOODS PLC

NOTES TO THE FINANCIAL STATEMENTS

1. Corporate information

The company was incorporated on 30th November 1999 as a limited liability company in accordance with the provisions of the Companies and Allied Matters Act 1990. The company was converted to a Public Liability company on 2 October 2008 in accordance with the provisions of the Companies and Allied Matters Act 1990. The principal activity of the company continues to be the processing of cocoa beans, exportation of industrial cocoa products as well as manufacturing and domestic marketing of cocoa-based consumer products.

2. Accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as amended, including International Accounting Standards (IAS) issued by the International Financial Reporting Interpretation Committee (IFRIC) and in accordance with the requirements of Financial Reporting Council of Nigeria (Amended) Act 2023 and Companies and Allied Matters Act 2020.

The financial statements have been prepared on the historical cost basis. These financial statements are presented in Nigerian Naira, which is the company's functional currency. All financial information presented in naira has been rounded to nearest thousand.

Significant accounting judgments, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

The company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the company. Such changes are reflected in the assumptions when they occur.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of assumption, estimation, uncertainties and critical judgements in applying the accounting policies that have the most significant effect on the amount recognised in the financial statements include the following:

Taxes

Uncertainties exist with respect to the amount and timing of future taxable income. Given the complexity of existing contractual agreements, differences arising between the actual results and the assumptions made could necessitate future adjustment to tax income and expenses already recorded. The company establishes provisions based on reasonable estimates.

Deferred taxes are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Further details of taxes are disclosed in Note 10.

Accounts receivable

The allowance for doubtful accounts involves management judgment and review of individual receivable balances based on an individual customer's prior payment record, current economic trends and analysis of historical bad debts of a similar type.

Property, plant and equipment and intangible assets

Estimates and assumptions are made to determine the depreciation and amortisation rates and useful lives of these assets at the end of the period.

2.2 Summary of significant accounting policies

The following are the significant accounting policies applied by Multi-Trex Integrated Foods Plc in preparing its financial statements:

2.2.1 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses (if any). The cost of property, plant and equipment includes expenditure incurred during construction, delivery and modification. Other subsequent expenditure is capitalised only when it meets the recognition criteria. Where a substantial period of time is required to bring the asset to its intended use, attributable qualifying borrowing costs are capitalised and included in the cost of the relevant asset. The costs of day-to-day servicing of property and equipment are recognised in the income statement as incurred.

Depreciation is charged to profit and loss on straight line basis to write down the cost of each assets to their residual values over the estimated useful lives of the various classes of asset.

Leased assets are depreciated over the shorter of the lease term and their useful lives. Depreciation begins when an asset is available for use and ceases at the date that the asset is derecognised.

The estimated unexpired useful lives for the current and corresponding periods based on revaluation done on 9 September 2021 are as follows:

Leasehold improvements	Over the shorter of the useful life of the items or lease period
Landed property	88 years
Factory & other building	40 years
Plant and machineries	15 years
Furniture, equipment & office equipment	5 years
Motor vehicles	3 years
Road network	40 years
Warehouse	40 years

Depreciation methods, useful lives and residual values are reassessed at each reporting date and adjusted prospectively if appropriate.

Impairment review is carried out when there is an indicator of impairment. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. Impairment losses on non-revalued assets are recognised in the income statement as an expense, while reversals of impairment losses are also stated in the income statement.

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

2.2.2 Biological assets

Biological assets are measured initially and at each reporting date at fair value less expected costs to sell. Fair value may have an incremental effect on deferred tax liability, net assets and the level of volatility in net assets as fair value changes are measured at each reporting date and reported in profit and loss. However, where it is clearly demonstrated that there is no quoted price in an active market and other methods of fair value cannot be reasonably determined or are inappropriate, biological assets are measured at cost less accumulated depreciation and impairment losses. If circumstances change and fair value becomes reliably measurable, fair value less costs to sell is applied.

Change in fair value of biological assets during a period is to be reported in net profit or loss.

The company's biological assets fair value cannot be reliably measured on initial recognition of a biological asset, because there is no quoted price for cocoa trees in an active market. The biological assets mainly cocoa plantation are measured at its cost less any accumulated depreciation and any accumulated impairment losses.

Biological assets are classified as immature plantations and mature plantations. Immature plantations are stated at cost, which consists mainly of the accumulated cost of land clearing, planting of seedlings, fertilizing, up keeping/maintaining the plantations, and allocations of indirect overhead costs up to the time the plantations become commercially productive and available for harvest. At maturity, mature plantations which are regarded as bearer plants are stated at deemed cost while depreciation commences when the biological assets become commercially productive and available for harvest.

Depreciation is calculated on a straight-line basis, over the estimated useful lives of the assets as follows:

	Useful lives
Biological assets	30 years

The residual values, useful lives and methods of depreciation of biological assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.2.3 Agricultural produce

Agricultural produce (the harvested product of the company's biological assets) from the entity's plantation (biological assets) should initially be measured at the fair value less costs to sell at the point of harvest. Agricultural produce comprises of harvested goods such as cocoa bean.

Where an active market for cocoa bean cannot be ascertained, the recent transaction purchase price of the by-product should be used to compute the fair value of the agricultural produce.

A gain or loss arising on initial recognition of agricultural produce (during harvesting) at fair value less costs to sell shall be included in profit or loss for the period in which it arises.

2.2.4 Intangible assets

Intangible assets include purchased computer software and software licences with finite useful lives. The purchased software and licences are recognized as assets if there is sufficient certainty that future economic benefits associated with the item will flow to the entity.

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. After initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses (if any).

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefit embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Depreciable amount is allocated on a systematic basis over its useful life using the straight-line basis in which charges for each period are recognised in the Profit or loss.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss as the expense category that is consistent with the function of the intangible assets.

2.2.5 Taxation

Current income tax

Current income and education taxes liabilities and assets for the current and prior periods is measured at the amount expected to be paid to or recovered from the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted at the reporting date. Current income tax assets and liabilities also include adjustments for tax expected to be payable or recoverable in respect of previous periods.

Current income and education taxes relating to items recognized directly in equity or other comprehensive income is recognized in equity or other comprehensive income and not in profit or loss.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are recognized for all temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.
- Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any tax losses.
- Deferred tax assets are recognized to the extent that it is probable that the taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and used tax losses can be utilized, except:
- When the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.
- Where the deferred tax asset relating to the deductible temporary difference arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax items are recognized in correlation to the underlying transaction either in profit or loss, other comprehensive or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.2.6 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Finished products and work-in-progress

Finished products and work in progress are measured at manufacturing cost and takes into account the production stage reached. Costs include an appropriate share of direct production overhead based on normal operating capacity.

Raw material, packaging material and spare parts

Raw and packaging materials are measured at actual cost, comprising invoice price, duty, freight, and handling charges. Spare parts are valued at the lower of cost and net realisable value. Value reductions and usage of parts are charged to profit or loss. Spare parts that are acquired as part of an equipment purchase and only to be used in connection with this specific equipment are initially capitalised and depreciated as part of the equipment.

2.2.7 Employee benefits Defined contribution plans

A defined contribution plan is a pension plan under which an entity pays fixed contributions into a separate entity. The company has no legal or constructive obligations to pay further contribution if the fund does not hold sufficient assets to pay all employees the benefits relating to employees' service in the current and prior period.

For defined contribution plans, the Company pays contribution to publicly or privately administered pension fund administration (PFA) on a mandatory basis in line with Pension Act. The company has no further payment obligation once the contributions have been paid. The contributions are recognized as employee benefit expenses in profit or loss when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

The company operates a defined contribution scheme in line with the Pension Reform Act 2004. The employees and the company contribute 8% and 10% of basic salary, housing and transport allowances respectively. The company's contributions are accrued and charged to the statement of comprehensive income as and when the relevant service is provided by employees. The company has no further payment obligations once the contributions have been paid.

Defined benefit plans

The company has a defined benefit gratuity scheme. The company's net obligation in respect of these post-employment benefits which represents the amount of future benefits that employees have earned in return of their service in the current and prior years, are determined separately for each plan by a qualified actuary using the projected unit credit method. The calculations are based on actuarial assumptions relating to mortality in service, withdrawal from service, rate of salary increase, inflation rate (p.a) and discount rate which reflect the economic conditions in Nigeria.

The discount rate is the yield at reporting date on high-quality government bonds that have maturity dates approximating the terms of Company's obligations. The obligation is calculated using the projected unit credit method. Any actuarial gains and losses are recognised in other comprehensive income in the period in which they arise.

No actuarial valuation was done in the year

2.2.8 Employee benefits

Termination benefits

Termination benefits are recognised as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date. Termination benefits for voluntary redundancies are recognised if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Short term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

2.2.9 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes, duties, returns, customer discounts and other customer related discounts. The company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The company has concluded that it is acting as a principal in all of its revenue arrangements.

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods, recovery of the consideration is probable, the associated costs can be estimated reliably, there is no continuing management involvement with the products. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

Interest income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income in profit or loss account.

2.2.10 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one party and a financial liability or equity instrument of another party.

- Financial asset**Initial recognition and measurement**

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets.

Multi-Trex Integrated Foods Plc determines the classification of its financial assets at initial recognition. All financial assets are recognised initially at fair value plus directly attributable transaction costs, except in the case of financial assets measured at fair value through profit or loss where transaction costs are recognised as an expense when incurred.

The company's financial assets include cash and short-term deposits and trade and other receivables.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Loans and receivables are initially recognised at the amount expected to be received, less, when material, a discount to reduce the receivables to fair value.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate method. The losses arising from impairment are recognised in the income statement in finance costs for loans and in cost of sales or other operating expenses for receivables.

Cash and short-term deposits and trade and other receivables are classified as loans and receivables and subsequently measured at amortised cost.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- The rights to receive cash flows from the asset have expired
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without delay to a third party under a 'pass-through' arrangement; and either
 - a. the Company has transferred subsequently all the risks and rewards of the asset.
 - or
 - b. the Company has neither transferred substantially nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred or retained substantially all of the risks and rewards of the assets, nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability.

The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

The company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses for items measured at amortised cost, are recognised in the profit and loss. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost, the reversal is recognised in profit and loss.

In addition, for trade receivables that are assessed not to be impaired individually, the company assesses them collectively for impairment, based on the company's past experience of collecting payments, an increase in the delayed payments in the portfolio, observable changes in economic conditions that correlate with default on receivables, etc.

For trade receivables, the carrying amount is reduced through the use of an allowance account and subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance costs in the statement of profit or loss.

- **Financial Liabilities**

Financial liabilities are classified as financial liabilities at fair value through profit or loss, or at amortized cost.

The company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs carried at amortised cost. This includes directly attributable transaction costs. Multi-Trex Integrated Foods financial liabilities compromise trade and other payables and loans and borrowings.

- **Loans and borrowings**

Loans and borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in statement of comprehensive income over the period of the borrowings using the effective interest method.

Loans and borrowings, for which the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date, are classified as non-current liabilities.

- **Trade payables**

Trade payables are subsequently measured at amortised cost using the effective interest method. Financial liabilities are classified as current liabilities if payment is due within 12 months. Otherwise, they are presented as non-current liabilities.

- **Derecognition of financial liabilities**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of comprehensive income.

- **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.2.11 Provisions

A provision is recognised if, as a result of past event the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability.

Future operating costs are not provided for. A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.2.12 Leasing

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date. The arrangement is assessed for whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessee

Operating lease payments are recognised as an operating expense in the income statement on a straight-line basis over the lease term.

2.2.13 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Where the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Company receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset by equal annual instalments. When loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant.

2.2.14 Foreign currency translation

Transactions in foreign currencies are converted to the functional currency of Multi-Trex Integrated Foods at the spot exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the spot exchange rate at that date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognized in other comprehensive income or profit or loss, respectively).

2.2.15 Profit per share

The company presents basic and diluted profit per share data for its ordinary shares. Basic profit per share is calculated by dividing the net profit attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the year.

Diluted profit per share is determined by adjusting the net profit attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares.

2.2.16 Operating Segment

An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of its other components, whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

The company is organised into business unit based on its sales geographical location and has two reportable segments as follows:

- Export sales
- Local sales

No operating segments have been aggregated to form the above reportable operating segments. The company's Executive Board monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on revenue.

2.2.17 Share capital and reserves

Share issue costs

Incremental costs directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instruments.

Dividend on ordinary shares

Dividends on the company's ordinary shares are recognized in equity in the period in which they are paid for, if earlier, approved by the company's shareholders.

Other Capital reserves

This includes gains on revaluation of property plant and equipment.

2.2.18 Impairment of non-financial assets

The company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The company bases its impairment calculation on detailed budgets and forecasts calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit or loss in expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

2.2.19 Cash and cash equivalents

Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less in the statement of financial position.

For the purpose of statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts (if any).

2.2.20 Expenses

Interest expense

Interest expenses are recognised as they accrue in profit or loss, using the effective interest method unless collectability is in doubt.

2.2.21 Financial instrument's risk management, objectives and policies

The company deploys a number of financial instruments (financial assets and financial liabilities) in carrying out its activities. The key financial liabilities of the company comprise bank borrowings and trade payables which are deployed purposely to finance the company's operations and to provide liquidity to support the company's operations. The financial assets of the company include trade and other receivables and cash and short-term deposits also necessarily required for the operations of the company.

The company has exposure to the following risks from its use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

The Board of Directors has overall responsibility for the establishment and oversight of the company's risk management framework.

The company's risk management policies are established to identify and analyze the risks faced by the company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

The company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. The company's Audit Committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the company.

The company's Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

This note presents information about the company's exposure to each of the above risks, the company's objectives, policies and processes for measuring and managing risk, and the company's management of capital.

Further quantitative disclosures are included throughout these financial statements.

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers and deposits with banks. Management has assessed the risk exposure and is taking action to mitigate the higher than usual risks. Intensified and continuous focus is being given in the areas of customers (managing trade receivable).

Concentrations of credit risk are indicated in the notes below and the maximum exposure is also provided on the next page.

Trade and other receivable

The company's management has credit policies in place and the exposure to credit risk is monitored on an ongoing basis. Under the credit policies all customers requiring credit over a certain amount are reviewed and new customers are analysed individually for creditworthiness before the company's standard payment and delivery terms and conditions are offered. Purchase limits are established for each customer and these limits are reviewed regularly.

Customers that fail to meet the company's benchmark credit worthiness may transact with the company only on a cash basis. Outstanding customer receivables are regularly monitored. At 30th April 2025, the company had a customer that owed the company N9.4 million. (2024: A customer that owed the Company N9.4 million) and this accounted for approximately 96% (2024: 96%) of all receivables owing. The requirement for impairment is analysed at each reporting date on an individual basis for major clients. Additionally, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actually incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 16.

The company does not hold collateral as security. Multi-Trex Integrated Foods plc evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

Cash and cash equivalents

The company limits its exposure to credit risk by only investing available cash balance in short term deposits and only with counterparties that have a good credit standing.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum credit risk at the reporting date was:

		2025	2024
	Note	N'000	N'000
Trade receivable	16	9,787	9,787
Other receivables	16	820,809	887,440
Cash and cash equivalent	17	2,044,052	1,929,330
		<u>2,874,648</u>	<u>2,826,557</u>
		=====	=====

The maximum exposure to credit risk for trade and other receivable at the reporting date by geographic region was:

	2025	Restated 2024
	N'000	N'000
Local	830,596	897,227
	<u>=====</u>	<u>=====</u>

Impairment losses

The aging of trade and other receivables at the reporting date was:

Gross amount

30 - 60 days	780,000	-
More than 120 days	<u>50,596</u>	<u>897,227</u>
	<u>830,596</u>	<u>897,227</u>
	=====	=====

Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Recent times have proven the credit markets situation could be such that it is difficult to generate capital to finance long-term growth of the company. The company has a clear focus on financing long-term growth and to refinance maturing debt obligation. Financing strategies are under continuous evaluation.

The table below summarises the maturity profile of the Company's financial liabilities:

Year ended 2025

	On Demand N'000	Less than Demand N'000	3 to 12 months N'000	1 to 3 years N'000	More than 3 years N'000	Total N'000

	=====	=====	=====	=====	=====	=====

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the company's income or the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, whilst optimising the return on risk.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The company's exposure to the risk of changes in foreign exchange rates relates primarily to the company's operating activities (when revenue or expense is denominated in a different currency from the company's functional currency). The company manages its foreign currency risk through adjustment in selling prices of traded goods.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market interest rates. The company exposure to the risk of changes in market interest rates relates primarily to the company's long term debt obligations with floating interest rates. The company manages this risk by ensuring that significant portion of its loans are contracted on fixed interest loan.

At the reporting date the profile of the company's interest-bearing financial instruments was as follows:

2025 financial liabilities	Carrying amount
	N'000
Loans and borrowings	470,044
	=====
2024 financial liabilities	
Loans and borrowings	4,195,269
	=====

Commodity price risk

Commodity price risk is the risk that changes in commodity prices will affect the company's income. The objective of commodity price risk management is to manage and control commodity risk exposures within acceptable parameters, whilst optimising the return on risk. The main commodity exposure relates to the purchase of raw cocoa beans and additives. Commodity price risk is in principle addressed by negotiating fixed prices in supplier contracts with various contract durations. The company does not enter into commodity contracts other than to meet expected usage and sale requirements.

Capital management

Capital includes equity attributable to the equity holders of the company. The primary objective of the company's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholders' value. The company manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the company may adjust the dividend payment to its shareholders, return capital to shareholders or issue new shares. There were no changes in the company's approach to capital management during the year.

3. Standards issued but not yet effective

A number of new standards and amendments to standards and interpretations are issued, but not yet effective, up to the date of issuance of the financial statements. The company intends to adopt these standards, if applicable, when they become effective. None of these is expected to have a significant effect on the financial statements of the company except the following standards set out below:

(i) IFRS 19 "Subsidiaries without public accountability disclosures".

The standard permits eligible subsidiaries to apply reduced disclosure requirements while still following the recognition, measurement and presentation requirements in IFRS accounting standards. To be eligible, a subsidiary must meet certain criteria, including not having public accountability and having an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS accounting standards.

It was issued on May 9, 2024 and is set to be effective for annual reporting periods beginning on or after January 1, 2027, with earlier application permitted.

(ii) Amendments to IFRS 9 & IFRS 7

Amendments to the classification and measurement of financial instruments. These amendments aim to address diversity in accounting practice by making the requirements more understandable and consistent.

It was issued on May 30, 2024 and effective for annual reporting periods beginning on or after January 1, 2026 with earlier application permitted.

(iii) IFRS 18 Presentation and Disclosure in Financial Statements

The standard will replace IAS 1-Presentation of Financial Statements. While the broad structure of financial statements remains unchanged-that is, primary statements supported by accompanying footnote disclosure-there are a number of important changes, particularly pertaining to reporting performance. The key changes that the new standard has introduced include the following:

- an improved structure for the statement of profit or loss,
- enhanced disclosure of management performance measure (MPMs)
- greater clarity on descriptions and aggregation/disaggregation of information.

The standard was issued on 9 April 2024 and effective for annual reporting periods beginning on or after 1 January 2027.

(iv) **Amendments to IAS 21 Effects of changes in foreign exchange rates-lack of exchangeability**

The amendments address situations where a foreign currency is not exchangeable for another currency due to restrictions or other circumstances. When a currency is not exchangeable, IAS 21's usual provisions for translating foreign currency transactions and balances may not be applicable.

Nexim	470,044	470,044	470,044	470,044
AMCON	-	-	3,725,225	3,725,225

i) AMCON Loan

On 14 July 2022, AMCON agreed to a final settlement of an amount of N9,903,000,000 (Nine Billion Nine Hundred and Three Million Naira only). The agreed settlement amount has been repaid partly with FGN Promissory Notes issued in favour of the Company. The balance of N9.1b has been repaid in full by Messrs N-Foods Universal Concepts Ltd (NFUC) in exchange for a total of 70% of Company's shareholding as at 30 April 2025.

ii) Nigerian Export Import Bank Loan

NEXIM Bank loan of ₦470,043,919 was granted to the company through a debt restructuring arrangement to consolidate short and medium-term direct lending facility earlier granted to the company.

The duration of the loan is for 3 years (6 equal and consecutive semi-annual instalment payments) with an interest rate of 14% per annum. The loan is secured with a lien on raw materials to be purchased by the company, corporate guarantee of the company and the assignment of Export Expansion Grant due to the company to NEXIM. The NEXIM loan has a carrying amount of ₦ 470,043,919 (30 April 2024 ₦ 470.043.919).

Principal terms and the debt repayment schedule of the company's loans and borrowings are as follows as:

	Currency	Nominal Rate %	Year of maturity
NEXIM Bank	Naira	14	2013

Fair values

Set out below is a comparison by class of the carrying amounts and fair values of the company's financial instruments that are carried in the financial statements.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- Cash and cash equivalent, trade receivables, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- Long-term fixed-rate and variable-rate borrowings and/or receivables are evaluated by the Company based on parameters such as interest rates, specific country risk factors, and individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken to account for the expected losses of these receivables. As at 30th April 2025, the carrying amounts of such receivables, net of allowances, are not materially different from their calculated fair values.

	2025 ₦'000	2024 ₦'000
25. Employee benefits liability	550,160	547,698
25.1 Non-current		
Staff benefits		
This is the total benefit due to ex-employees of the company as at the closure of business in 2015		
Staff Entitlement	487,478	487,478
Pension	60,220	60,220
	<u>547,698</u>	<u>547,698</u>
25.2 Current		
Staff salary	2,462	-
	<u>2,462</u>	<u>-</u>

	2025 N'000	2024 N'000
26. Trade and other payables		
Trade payables	20,522	12,214
Other payables	72,560	105,026
Related party payable (Note 26.1)	467,599	207,765
Interest payables	525,299	454,699
Accruals	<u>190,293</u>	<u>202,447</u>
	<u>1,276,273</u>	<u>982,151</u>

Trade payables and accruals principally comprise amounts outstanding for trade purchases and ongoing costs. The average credit period taken for trade purchases is 30days. For most suppliers no interest is charged on trade payables.

26.1 Related party payable

Starlink Global Investment Limited is the parent company of N-FUC with the proposed 70% acquisition of majority shareholding in the company.

The balance disclosed is the outstanding of the proceed of trade transaction done in the name of the company that is yet to be remitted as at 30 April 2025.

27. Operating profit/(loss) before working capital change

	<u>(19,603)</u>	<u>899,257</u>

28. Working capital changes

Decrease/(increase) in trade receivables	46,079	(396,404)
Increase in trade and other payables	294,122	242,353
Increase in employees benefit	<u>2,462</u>	<u>-</u>
	<u>342,663</u>	<u>(154,051)</u>

29. Going concern

The Company has an accumulated loss of ₦ 3.33 billion (2024: ₦ 3.06 billion), the company has a working capital ₦ 1.45 billion (2024: Restated ₦1.66 billion). Based on the proactive measures and the ongoing support from strategic investors, management remains confident in the entity's ability to sustain operations and achieve full recovery.

30. Segment information

For management purposes, the company is organized into export and domestic marketing business units, so there are no distinctly identifiable reportable segments and no other geographical location except Lagos for the purpose of segment reporting disclosure in line with IFRS 8. The company only reports product performance at revenue level. Financing and Income taxes are reported company wide.

The Executive management committee monitors the operating results of the whole business for the purpose of making decisions about resource allocation and performance assessment.

The summary below shows the revenue information made available to the Executive management committee.

30 April 2025

Business segment	Export sales N'000	local sales N'000
Total revenue for reportable segment	9,480	38,420
Cost of sales	-	(6,816)
Gross profit	9,480	31,604
	=====	=====

30 April, 2024

Business segment		
Total revenue for reportable segment	1,186,702	12,963
Cost of sales	(750,000)	(5,034)
Gross profit	436,702	7,929
	=====	=====

31. Related Party Disclosure IAS 24

Parties are considered to be related if one party has the ability to control the other party or exercise influence over the other party in making financial and operational decisions, or one-party controls both. The definition includes key management personnel of the company.

The key management personnel, and persons connected with them, are also considered to be related parties. The definition of key management includes the close members of family of key personnel and any entity over which key management exercise control. The key management personnel have been identified as the executive and non-executive directors of the company. Close members of family are those family members who may be expected to influence, or be influenced by that individual in their dealings with the company.

	2025 N'000	2024 N'000
Compensation of key management personnel		
Executive:		
Managing Director's salaries	21,600	21,600
	=====	=====
Non-executive:		
Non-executive annual fees	8,200	7,200
Non-executive Sitings allowance	2,105	1,115
	10,305	8,315
	=====	=====
Chairman	1,450	1,450

2,500,001 - 3,000,000	-	-
3,000,001 - 3,500,000	-	-
Over 3,500,000	<u>1</u>	<u>2</u>
	3	3
	=====	=====

(iii) Staff Numbers

The average number of persons employed by the company during the period was as follows:

Finance and administration	3	3
	=====	=====

33. Comparative figures

Certain comparative figures have been restated to align with the current year disclosures.

34. Litigation and claims

There are no contingent liabilities as at 30th April 2025 (2024: Nil)

35. Capital commitments

There were no capital commitments as at 30th April 2025 (2024: Nil)

36. Events after reporting period

Following the reporting date, the Company advanced steps towards imminent re-commissioning of industrial plants and resumption of full-scale cocoa processing activities, and secured inter-company working capital from strategic investor for bean procurement. Furthermore, the receivership was terminated following final debt settlement with AMCON, and a restructured board was appointed after the first Annual General Meeting in eleven years, with regulatory compliance efforts ongoing with the Nigerian Exchange Group.

37. Approval of financial statements

The Board of Directors approved these financial statements on 14 May, 2026.
