CORONATION INFRASTRUCTURE FUND FINANCIAL STATEMENTS FOR THE EIGHT-MONTH PERIOD ENDED 31 DECEMBER 2025

TRUSTEE'S REPORT

The Trustee hereby presents their Report on the affairs of the Coronation Infrastructure Fund together with the Auditors' Report and Financial Statements as at 31 December, 2025.

Principal activities & business review:

The principal activity of the Coronation Infrastructure Fund is the pooling of funds from individual members of the public and other entities and the investment of such funds in high quality long term Infrastructure Project and government securities as determined by the Fund Manager in accordance with the Trustee Investments Act, the Investments and Securities Act and the Securities and Exchange Commission's Rules and Regulations. The Fund is governed by Trust Deed and Supplemental Deeds with Stanbic IBTC Trustees Limited.

Coronation Infrastructure Fund commenced operations on 29 May 2024, following the successful allocation of 8,700,000 units through a series issuance.

Responsibilities of the Trustees:

- a To retain in its possession or in the possession of such third parties as it may with the consent of the Manager appoint, on a safe custody basis, all the investment and documents of title or value connected therewith.
- b At all times to act with prudence and honesty in relation to all investments and documents of title or value in its custody.
- c To forward to the Manager without delay all notices of meeting in as, reports and circulars received by it or its nominees as holders of any investment.
- d To jointly issue (with the Fund Manager) certificates evidencing ownership of units in the Fund.
- e To demand from the Manager a statement of all issues and sale of units.
- f To grant its consents to the appointment of the Auditors for the Fund.
- g To make the Trust Deed and Supplemental Deeds available for inspection by the unitholders during normal business hours at its head office.
- h To consider and grant approval to all advertisements, circulars or other documents of that nature containing any statement with reference to the offer price of the units or yield therefrom or containing an invitation to buy units issued by the Manager.
- i To convene General Meetings of the unitholders of the Fund and/or to consent to the Manager convening such meetings.
- j To nominate the Chairman of every General Meetings of the Fund.
- k To approve the form of proxy used for the meetings.

Operating Results:

The results for the year are set out on page 2 as extracted from the financial records prepared by the Fund Manager and duly audited in accordance with Provisions of section 169(1) of the Investment and Securities Act.

Compliance:

Asset allocation requirement:

The Fund shall invest in Authorised Investments with at least 90% of the Fund assets being invested in senior debt, securitized debt for infrastructure projects, infrastructure-related assets, companies or SPVs created to finance infrastructure and development while no more than 10% of the Fund assets being invested in, working capital loans, money market instruments or short-term instruments.

Asset Class	Proposes Asset Class	Asset Allocation Range	Target Weighting (%)
Infrastructure Related Debt	Senior Debts, Securitized Debt for Infrastructure projects, Infrastructure related Assets, Companies or SPV's created to finance infrastructure and development	90 - 100	51.46
Money Market Instrument	Working Capital Loans, money Market instruments or Short-term instruments	0 - 10	48.54
Fund Expenses	Expenses Incurred by the Fund	0 - 3.5	1.33

Directors: Olumide Oyetan (Chairman) Emi Agaba-Oloja (Chief Executive) Seyi Egbarin (Executive) Adegbite Adekola Abimbola Afolabi-Ajayi Tosin Leye-Odeyemi Chidi Okezie

Stanbic IBTC Trustees Limited is registered and regulated by the Securities and Exchange Commission, Nigeria as Trustees.

Holding Threshold	
Percentage Of Holding Of the Fund manger	7.00%
Holdings of the Fund Manager	6,000,000.00
Total Holdings	87,900,000.00

According to the Trust Deed, the Fund Manager is to have a minimum of 3% of the Holdings

Register Of Unitholding

1. Registrar's records reported 87,900,000 holdings and 194 Investors
2. The Fund Manager's report via the returns filed with SEC was 87,900,000 holding and 194 Investors.

From our review both the Registrars' report and the Fund managers' report had the same number of holdings and investors.

Filing SEC: The Fund Manager has filed quarterly returns with SEC for Q4 2025.

During the year under review, the Fund did not fully comply with the asset allocation as provided in the Trust Deed. This was primarily due to the timing of fund deployment during the year, as well as provisions made for distributions to unitholders, which was to be paid in January 2026, resulting in a temporary deviation from the prescribed asset allocation. Apart from this, the Fund was administered in accordance with the applicable regulations, taking into cognisance prevailing market conditions, as well as preserving and minimizing possible losses to unitholders' funds.

Administration of the Fund:

The Administration of the Fund is guided by the provisions of the Investments and Securities Act and the Trust Deed and Supplemental Deeds, which the Fund Manager has made concerted efforts to comply with.

The Trustees are of the opinion that the Management of the Fund has been in full compliance with the provisions of the Trust Deed and Supplemental Deeds and the Investment and Securities Act.

Auditor:

Messrs. PricewaterhouseCoopers (PwC) have indicated their willingness to continue in office and shall do so in accordance with Section 169(1) of the Investment and Securities Act.

Parties to the Fund:

Fund Manager - Coronation Asset Management Limited

Trustees - Stanbic IBTC Trustees Limited

STATEMENT OF FUND MANAGER'S RESPONSIBILITIES

The Investments and Securities Act requires the Fund Manager to keep proper books of account and prepare financial statements which give a true and fair view of the state of affairs of the unit trust scheme during the period covered by the financial statements.

In preparing the financial statements, the Fund Manager:

- i selected suitable accounting policies and applied them consistently;
- ii made judgments and estimates that were reasonable and prudent.
- iii prepares its financial statements using suitable accounting policies supported by reasonable and prudent judgements and estimates, that are consistently applied.
- iv ensured that the applicable accounting standards have been followed, and in the case of any material departure, that it was fully disclosed and explained in the financial statements.
- v prepared the financial statements on a going concern basis, and since it was appropriate to assume that the Fund shall continue to exist.

The Fund Manager is also responsible for maintaining adequate financial resources to meet its commitments and to manage the risks to which the Fund is exposed.

In carrying out its responsibilities, the Fund manager may perform the following functions amongst others:

- i. investment advisory services;
- ii. selection of securities for the fund/portfolio;
- iii. publication of financial market periodicals;
- iv. management of funds and portfolios on behalf of investors;
- v. any other role ancillary to any of the above.

The Fund Manager accepts responsibility for the financial statements, which have been prepared using appropriate

accounting policies supported by reasonable and prudent judgments and estimates in conformity with:

- i. International Financial Reporting Standards
- ii. Financial Reporting Council of Nigeria (Amendment) Act 2023
- iii. Investments and Securities Act
- iv. Relevant circulars issued by the Securities and Exchange Commission.

The Fund Manager further accepts responsibility for the maintenance of accounting records that may be relied upon in the preparation of the financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the directors to indicate that the Fund will not remain a going concern for at least twelve months from the date of this statement.

FUND MANAGER'S ANNUAL ASSESSMENT OF, AND REPORT ON, INTERNAL CONTROL OVER FINANCIAL REPORTING

To comply with the assessment requirements of the FRC Guidance on Management Report on Internal Control Over Financial Reporting issued by the Financial Reporting Council of Nigeria, we hereby make the following statements regarding the Internal Controls of Coronation Asset Management Limited for the year ended 31 December 2025:

- i. Coronation Asset Management Limited's management is responsible for establishing and maintaining a system of internal control over financial reporting ("ICFR") that provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards.
- ii. Coronation Asset Management Limited's management used the Committee of Sponsoring Organizations of the Treadway Commission (COSO) Internal Control-Integrated Framework to conduct the required evaluation of the effectiveness of the entity's ICFR;
- iii. Coronation Asset Management Limited's management has assessed that the Company's ICFR, as of the end of 31 December 2025, is effective.
- iv. Coronation Asset Management Limited's external auditor Messrs PricewaterhouseCoopers that audited the financial statements, included in the annual report, has issued an attestation report on management's assessment of the entity's internal control over financial reporting.
The attestation report of Messrs PricewaterhouseCoopers that audited its financial statements will be filed as part of Coronation Asset Management Limited's annual report.

CERTIFICATION OF FUND MANAGER'S ASSESSMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

To comply with the assessment requirements of the FRC Guidance on Management Report on Internal Control Over Financial Reporting issued by the Financial Reporting Council of Nigeria, I hereby make the following statements regarding the internal control over financial reporting of Coronation Asset Management for the period ended 31 December 2025.

I, Aigbovbioise Aig-Imoukhuede, certify that:

I have reviewed the management's assessment of internal control over financial reporting for Coronation Asset Management for the period ended 31 December 2025; Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.

Based on my knowledge, the financial statements and other financial information included in this report fairly present, in all material respects, the financial conditions, results of operations, and cash flows of Coronation Asset Management as of, and for, the periods presented in this report;

- a. I am responsible for establishing and maintaining the internal controls over financial reporting for Coronation Asset Management;
- b. have designed, or caused to be designed, under our supervision, internal controls and procedures to ensure that material information relating to the Company and its subsidiaries is made known to us by others within the Company, particularly during the period in which this report is being prepared;
- c. have designed, or caused to be designed, under our supervision, an internal control system that provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- d. have evaluated the effectiveness of the Company's internal controls and procedures as of a date within 60 days prior to the report date and have presented in this report our conclusions about the effectiveness of the internal controls and procedures based on such evaluation;

I have disclosed, based on our most recent evaluation of the internal control system, to the Company's auditors, the Audit Committee, and the Board of Directors:

- a. There were no significant deficiencies and material weaknesses in the design or operation of the internal control system that are reasonably likely to adversely affect the company's ability to record, process, summarize, and report financial information; and
- b. There was no fraud, whether material or not, involving management or other employees who have a significant role in the company's internal control system.

I have identified, in this report, whether there have been significant changes in internal controls or other facts that could significantly effect the internal controls subsequent to the date of our evaluation, including any corrective actions with respect to significant deficiencies and material weaknesses

Independent practitioner's report

To the Members of Coronation Infrastructure Fund

Report on an assurance engagement performed by an independent practitioner to report on management's assessment of controls over financial reporting

Our opinion

In our opinion, nothing has come to our attention that the internal control procedures over financial reporting put in place by the Fund Manager of Coronation Infrastructure Fund ("the Fund") are not adequate as at 31 December 2025, based on the SEC Guidance on Implementation of Sections 88 – 91 of The Investments and Securities Act 2025 issued by The Securities and Exchange Commission.

What we have performed

We have performed an assurance engagement on the Fund Manager's internal control over financial reporting as of 31 December 2025, based on FRC Guidance on Assurance Engagement Report on Internal Control Over Financial Reporting ("the Guidance") issued by the Financial Reporting Council of Nigeria. The Fund Manager is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Fund manager's annual assessment of, and report on, internal control over financial reporting. Our responsibility is to express an opinion on the Fund's internal control over financial reporting based on our assurance engagement.

Basis for opinion

We conducted our assurance engagement in accordance with the Guidance, which requires that we plan and perform the assurance engagement and provide a limited assurance report on the entity's internal control over financial reporting based on our assurance engagement. As prescribed in the Guidance, the procedures we performed included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our engagement also included performing such other procedures as we considered necessary in the circumstances. We believe the procedures performed provide a basis for our report on the internal control put in place by management over financial reporting.

Definition and Limitations of Internal Control over Financial Reporting

A Fund Manager's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Fund Manager's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Fund; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Fund are being made only in accordance with authorizations of management and directors of the Fund Manager; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Fund's assets that could have a material effect on the financial statements.

PricewaterhouseCoopers
FF Millenium Towers, 13/14 Ligali Ayorinde Street, Victoria Island,
Lagos, Nigeria

www.pwc.com/ng

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other matter

We also have audited, in accordance with the International Standards on Auditing, the separate financial statements of Coronation Infrastructure Fund and our report dated 31 March 2026 expressed an unqualified opinion.

Independent auditor's report

To the Members of Coronation Infrastructure Fund

Report on the audit of the financial statements

Our opinion

In our opinion, Coronation Infrastructure Fund's ("the Fund's") financial statements give a true and fair view of the financial position of the Fund as at 31 December 2025, and of its financial performance and its cash flows for the year then ended in accordance with international financial reporting standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") and the requirements of the Investments and Securities Act and the Financial Reporting Council of Nigeria (Amendment) Act, 2023.

What we have audited

Coronation Infrastructure Fund's financial statements comprise:

- the statement of comprehensive income for the year ended 31 December 2025;
- the statement of financial position as at 31 December 2025;
- the statement of changes in net assets attributable to unitholders for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of material accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards), i.e. the IESBA Code issued by the International Ethics Standards Board for Accountants. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

PricewaterhouseCoopers
FF Millenium Towers, 13/14 Ligali Ayorinde Street, Victoria Island,
Lagos, Nigeria

Other information

The Fund Manager is responsible for the other information. The other information comprises the Parties to the Fund, Trustee's report, Fund manager's report, Statement of Fund manager's responsibilities, Fund manager's annual assessment of, and report on, internal control over financial reporting, Certification of Fund manager's assessment on internal control over financial reporting and Value added statement.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Fund Manager and those charged with governance for the financial statements

The Fund Manager is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRS Accounting Standards and the requirements of the Investments and Securities Act, the Financial Reporting Council of Nigeria (Amendment) Act, 2023, and for such internal control as the Fund Manager determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.

- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

In accordance with the requirements of the Financial Reporting Council of Nigeria, we performed a limited assurance engagement and reported on management's assessment of Coronation Infrastructure Fund's internal control over financial reporting as of 31 December 2025. The work performed was done in accordance with FRC Guidance on Assurance Engagement Report on Internal Control Over Financial Reporting issued by the Financial Reporting Council of Nigeria, and we have issued an unqualified opinion in our report dated 31 March 2026.

NOTES TO THE FINANCIAL STATEMENTS

1 Reporting entity

Coronation Infrastructure Fund (the "Fund") is a closed-end investment fund that operates in Nigeria. The units of the Fund were first allotted to subscribers in May 2024 at a par value of ₦100.00 each. The Fund is governed by a trust deed approved by the Securities & Exchange Commission ("the Commission"), with Coronation Asset Management Limited as the Fund Manager and Stanbic IBTC Trustees Limited as the Trustee of the Fund.

The objective of the Fund is to generate stable long-term income and preserve capital by investing in infrastructure debt assets, while providing investors with diversified and accessible exposure to infrastructure projects through a listed unit trust structure.

2 Summary of material accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 Basis of preparation

The financial statements for the period ended 31 December 2025 have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the IASB. Additional information required by national regulations is included where appropriate.

The financial statements have been prepared in accordance with the going concern principle under the historical cost convention except for financial assets at fair value. The financial statements are presented in Nigerian currency (Naira) and rounded to the nearest thousand.

The financial statements comprise the statement of comprehensive income, the statement of financial position, the statement of changes in net assets attributable to unitholders, the statement of cash flows and the related notes.

The Fund classifies its expenses by the nature of expense method.

2.2 Use of estimates and judgements

The preparation of financial statements in conforming with IFRS requires management to make judgements, estimates and assumptions that can affect the application of the accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period which the estimates are revised and in any future periods affected. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about significant areas of estimation, uncertainties and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in note 3 to the financial statements.

2.3 Functional and presentation currency

The Fund's unitholders are mainly resident in Nigeria with subscriptions and redemptions of units denominated in Naira. The Fund's primary investment activity is to invest in Naira-denominated investment securities and receives investment income in Naira. The liabilities of the Fund are also settled in Naira.

The Fund Manager considers the Naira as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Naira, which is the Fund's functional and presentation currency.

NOTES TO THE FINANCIAL STATEMENTS**2.4 Changes in accounting policy and disclosures****(a) New and amended standards adopted by the Fund**

Below are the IFRSs and International Financial Reporting Interpretations Committee (IFRIC) interpretations that are effective for the first time for the financial year beginning on or after 1 January 2025 that are relevant to the Fund.

None of these standards were early adopted by the Fund

- Amendment to IAS 21- Lack of exchangeability

Amendment to IAS 21- Lack of exchangeability	An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations. The amendment is not expected to have a material impact on the financial statements of the company Effective date is 1 January 2025.
---	--

2.5 Financial assets and liabilities

Classification and measurement of debt assets is driven by the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. A debt instrument is measured at amortised cost if the objective of the business model is to hold the financial asset for the collection of the contractual cash flows and the contractual cash flows under the instrument solely represent payments of principal and interest (SPPI). A debt instrument is measured at fair value through other comprehensive income if the objective of the business model is to hold the financial asset both to collect contractual cash flows from SPPI and to sell. All other debt instruments must be recognised at fair value through profit or loss. An entity may however, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Derivative and equity instruments are measured at fair value through profit or loss unless, for equity instruments not held for trading, an irrevocable option is taken to measure at fair value through other comprehensive income. IFRS 9 also introduces a new expected credit loss (ECL) impairment model.

The Fund's investment portfolio for each asset class is classified according to the entity's business model for managing them.

Classification

- those to be measured subsequently at fair value (either through OCI or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI.

NOTES TO THE FINANCIAL STATEMENTS

Equity instruments

The Fund cannot invest in equity instruments therefore no classification exists.

Subsequent measurement of debt instruments depends on the Fund's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Fund may classify its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in interest income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as a separate line item in the statement of profit or loss.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other operating income. Interest income from these financial assets is included in interest income using the effective interest rate method; losses and impairment expenses are presented in net gains/(losses) on investment securities. Foreign exchange gains are presented as a separate line item in net impairment charge on financial assets.
- **FVPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within net gains/(loss) on investment securities in the year in which it arises.

The Fund reclassifies debt investments when and only when its business model for managing those assets changes.

The Fund determines its business model at the level that best reflects how it manages unitholders funds to achieve its business objective. The Fund's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How information about financial assets and their performance is evaluated by the Fund's management
- The risks that affect the performance of the Fund and the way in which those risks are managed.
- How managers are compensated (e.g., whether the compensation is based on the fair value of the assets or the contractual cash flows that are collected).

In addition to the above, the Fund considers its objective which is to generate regular income by actively investing in investment-grade Infrastructure projects suitable for long-term focused investors who are risk averse, seek capital preservation with moderate income and liquidity. To achieve this objective, the Fund:

- Invests solely in investment grade financial assets;
- Maintains a weighted average maturity of ninety (90) days, which is consistent with the regulatory requirement and advises client of a minimum holding period of ninety (90) days;
- Distributes income to unitholders based on the contractual cash flows from each underlying instrument;
- The Fund's return is communicated to unitholders based on the expected contractual rate on the underlying instruments in the Fund;
- Measures redemption of fund units on an amortised cost basis which is consistent with the regulatory requirement.
- Primarily meets redemption requests first from corresponding inflows from subscriptions, then from cash and cash equivalent and other short-dated financial assets

NOTES TO THE FINANCIAL STATEMENTS

Financial liabilities that are not classified as at fair value through profit or loss are measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

A compound financial instrument that contains both a liability and an equity component is separated at the issue date. Interest expense is included in 'Interest expense' in the Statement of Comprehensive Income. The Fund measures its financial liabilities at amortised cost.

The table below reconciles classification of financial instruments to the respective IFRS 9 category.

	Category (as defined by IFRS 9)	Class	Sub classes
Financial assets	Financial assets at amortised cost	Cash and cash equivalents	Cash in bank
			Short term placements
		Other assets	
	Financial assets at fair value through other comprehensive income	N/A	N/A
	Financial assets at fair value through profit or loss	Investment securities - debt securities	Treasury Bills Commercial Papers
	Category (as defined by IFRS 9)	Class	Sub classes
Financial liabilities	Financial liabilities at amortised cost	Other Liabilities	Management fee payable Trustee fee payable Custodian fee payable Registrar fee payable Auditor's remuneration payable Other Liabilities

2.5.2 Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on the settlement date. All financial instruments are initially measured at fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs.

Subsequent to initial recognition, Financial instruments are measured in accordance with how they are classified, either as amortised cost, fair value through OCI or fair value through profit or loss

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

A financial liability should be derecognised when, and only when, it is extinguished, that is, when the obligation specified in the contract is either discharged or cancelled or expires.

NOTES TO THE FINANCIAL STATEMENTS

2.6 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date. The fair value of an asset or liability reflects its non-performance risk.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction consideration given or received. If the Fund determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis during the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

2.7 Impairment of financial assets

The Fund assesses on a forward-looking basis the expected credit losses ('ECL') associated with its debt instrument assets carried at amortised cost and FVOCI and with the exposure arising from loan commitments and financial guarantee contracts. The Fund recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Staging Assessment

The Fund has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Fund categorises its financial instruments into Stage 1, Stage 2, Stage 3 and POCI, as described below:

- **Stage 1:** On origination, a financial asset (provided that it is not a purchased or originated credit impaired asset) will be in stage 1 of the general model for expected credit losses. Financial assets that have not had a significant increase in credit risk since initial recognition or that (upon assessment and option selected by the Company) have low credit risk at the reporting date remain in stage 1. For these assets, 12-month expected credit losses ('ECL') are recognised. 12-month ECLs are the ECLs that result from default events that are possible within 12 months after the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

• **Stage 2:** Financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date and this option is taken by the Fund) but that do not have objective evidence of impairment. For these assets, lifetime ECLs are recognised. Lifetime ECLs are the ECLs that result from all possible default events over the maximum contractual period during which the Fund is exposed to credit risk. ECLs are the weighted average credit losses, with the respective risks of a default occurring as the weights.

• **Stage 3:** This includes financial assets that have objective evidence of impairment at the reporting date. The Fund records an allowance for the Lifetime ECLs.

• **POCI:** Purchased or originated credit impaired (POCI) assets are financial assets that are credit impaired on initial recognition. POCI assets are recorded at fair value at original recognition and interest income is subsequently recognised based on a credit-adjusted EIR. ECLs are only recognised or released to the extent that there is a subsequent change in the expected credit losses.

Change in credit quality since initial recognition

	Stage 1	Stage 2	Stage 3
Trigger	(Initial Recognition)	(Significant increase in credit risk since initial recognition)	(Credit-impaired assets)
ECL	12-months expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses
Effective Interest Rate (EIR)	EIR on gross carrying amount	EIR on gross carrying amount	EIR on amortised cost (net of ECL)

2.8 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

2.9 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less.

2.10 Accrued expenses

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the

2.11 Interest income

Interest is recognised on a time-proportionate basis using the effective interest method. Interest income includes interest from cash and cash equivalents and debt instruments.

NOTES TO THE FINANCIAL STATEMENTS

2.12 Net gain/(loss) on investments

Net gain from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes, but excludes interest. Net realised gain from financial instruments at fair value through profit or loss is calculated using the weighted average cost method.

2.13 Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are capitalised for financial instruments measured at amortised cost and fair value through other comprehensive income and immediately recognised in profit or loss as an expense for financial instruments at fair value through profit or loss.

2.14 Taxation

The Fund is domiciled in Nigeria. There is no income, corporation, capital gains or other gains or taxes payable by the Fund. Profit accruing to the Fund as is available for payment to unit holders or for investment shall be deemed to be dividends paid or payable by the Fund to the unit holders in proportion to their rights.

2.15 Unitholders transactions

The Fund's units in issue are financial instruments and represent equity interests in the Fund. The units are listed and traded on the Nigerian Exchange Limited, and unitholders are entitled to a proportionate share of the Fund's net assets upon liquidation. The units rank *pari passu* in all material respects and have identical terms and conditions.

Unlike an open-ended fund, the units are not redeemable by the Fund. Accordingly, unitholders can only realise their investment through trading on the stock exchange at prevailing market prices, which may differ from the Fund's net asset value per unit.

Transactions in units occur through the secondary market, and the Fund does not issue or redeem units on a continuous basis after the initial offering, except as may be provided under applicable regulations. The Fund may make periodic distributions to unitholders in accordance with its distribution policy. Such distributions, where declared, are recognised in the statement of changes in net assets attributable to unitholders.

NOTES TO THE FINANCIAL STATEMENTS

3 Financial Risk Management

The Fund maintains positions in a variety of financial instruments in line with its investment management strategy. The Fund's investment portfolio comprises Infrastructure investment. As a result, the Fund has exposure to various types of risk that are associated with its investment strategies, financial instruments and markets in which it invests. These risks include market risk, credit risk and liquidity risk.

3.1 Market Risk

Market risk is the risk that the fair value or cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk reflects interest rate risk, currency risk and other price risks.

i. Interest Rate Risk

Interest Rate Risk (IRR) arises from reduction in market value of an interest rate sensitive instrument or portfolio due to change in interest rates. Changes in interest rates can occur on account of changes to base interest rates (risk free rates) or changes to spreads (risk premium over the risk free rate) on base rates or on account of both.

The primary objectives of the interest rate risk management framework shall be to minimize both reductions in net income and reductions in the Fund's economic value of the fund resulting from changes in future interest rates.

As at 31 December 2025, the Fund's exposure to interest rate risk was in relation to Infrastructure projects which are part of the investments held at amortised cost.

The table below summarizes the Fund's direct exposure to interest rate risk,

Category	Dec 2025 N'000	Dec 2024 N'000
Less than 1 Year	4,768,199	4,984,557
	4,768,199	4,984,557

Other liabilities	826,260	-
	826,260	-

NOTES TO THE FINANCIAL STATEMENTS**Sensitivity analysis - Interest rate risk**

Interest rate risk arises from the possibility that changes in market interest rates will affect the future cash flows or fair values of the Fund's financial instruments. The Fund is exposed to this risk through its investments in interest-bearing instruments, particularly infrastructure bonds, whose values may fluctuate with changes in prevailing market interest rates.

ii. Currency risk

The Fund did not have investments denominated in foreign currency as at 31 December 2025 and as a result was not exposed to foreign exchange risk.

iii. Other price risk

The Fund is not exposed to other price risk.

3.2 Credit Risk

Credit Risk is the possibility of losses associated with the diminution in credit qualities of counterparties. The Fund is subject to credit risk from its holdings in Treasury bills, Placements and Commercial Papers. The Fund limits this exposure to credit loss by placing funds with banks and investing in securities with high credit quality and by diversifying among many issuers. The Fund is also exposed to credit risk from its receivables, which are interest receivables on its Infrastructure Investments.

The maximum exposure to credit risk is the carrying amount of the financial assets as set out below.

1) Sector analysis of credit risk exposure

December 2025	Cash and cash equivalents	Financial assets (Amortised Cost)	Maximum Exposure
	₦'000	₦'000	₦'000
Financial institutions	5	4,755,489	4,755,493
Corporate	-	5,041,275	5,041,275
	5	9,796,764	9,796,769

December 2024	Cash and cash equivalents	Financial assets (Amortised Cost)	Maximum Exposure
	₦'000	₦'000	₦'000
Financial institutions	4,801,701	4,756,194	9,557,895
	4,801,701	4,756,194	9,557,895

All credit risk exposures (without taking into account any collateral held or other credit support) are maintained within Nigeria.

ii) Credit quality of financial assets

The funds financial assets for the current period are classified as stage 1, 2 or stage 3. Classification by credit quality as at 31 December 2025 and 31 December 2024 is set out below;

December 2025	Stage 1	Stage 2	Stage 3	Total
	₦'000	₦'000	₦'000	₦'000
Cash and cash equivalents	4,755,493	-	-	4,755,493
Financial assets (amortised cost)	5,041,275	-	-	5,041,275
	9,796,769	-	-	9,796,769

December 2024	Stage 1	Stage 2	Stage 3	Total
	₦'000	₦'000	₦'000	₦'000
Cash and cash equivalents	9,557,895	-	-	9,557,895
	9,557,895	-	-	9,557,895

NOTES TO THE FINANCIAL STATEMENTS

3.3 Liquidity Risk

Liquidity risk refers to the possibility that the Fund may encounter difficulty in meeting its financial obligations as they fall due, particularly those requiring settlement in cash or other financial assets. The Fund mitigates this risk by maintaining between 0% and 10% of its assets in money market instruments to ensure sufficient liquidity for operational expenses and other short-term obligations, as these instruments can be readily converted to cash.

In addition, the Fund is listed on the Nigerian Exchange, providing unitholders with the ability to trade their holdings and enhance liquidity. Furthermore, each Series of the Fund has a defined tenor, at the end of which the underlying investments are expected to be realised, and capital returned to investors

Liquidity maturity analysis

The tables below analyse the Fund's financial assets and financial liabilities into relevant maturity groupings based on their contractual maturities. The amounts disclosed in the table are the contractual undiscounted cash flows.

31 December 2025	1 - 30 days	31 - 90 days	91 - 180 days	over 181 days	Total

	888,495	-	-	-	888,495

NOTES TO THE FINANCIAL STATEMENTS

3.4 Capital risk management

The capital of the Fund is represented by the net assets attributable to unitholders. Unlike an open-ended fund, the Fund's capital is not subject to subscriptions and redemptions at the discretion of unitholders. The units of the Fund are listed and traded on the Nigerian Exchange Limited, and changes in net assets are primarily driven by investment performance, income earned, expenses incurred, distributions to unitholders, and capital raised through the issuance of new series of units.

The Fund's objective in managing capital is to safeguard its ability to continue as a going concern, provide sustainable returns to unitholders, and maintain a strong capital base to support its investment activities.

In order to maintain the capital structure, the Fund's policy is to perform the following:

- i. Monitor its capital position and liquidity profile relative to its investment strategy and obligations.
- ii. Manage capital through periodic distributions to unitholders and, where applicable, capital raising activities, including the issuance of new series of units.
- iii. Ensure compliance with regulatory requirements and listing rules of the Nigerian Exchange Limited.

3.5 Fair value

(a) Financial instruments measured at fair value

The fair value of financial assets and liabilities traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the year end date.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year end date.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted instruments for which markets were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

The fair value hierarchy has the following levels:

- i. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- ii. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- iii. Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

NOTES TO THE FINANCIAL STATEMENTS
