12. Changes in Accounting Policies and Estimates

12.1 Unclaimed Dividends

During the year, the Group changed its accounting policy for unclaimed dividends to reflect the requirements of the Finance Act 2020 and the Securities and Exchange Commission (SEC) directive on unclaimed funds.

Under the revised legislation, dividend amounts outstanding for more than six (6) years are required to be transferred to the Unclaimed Funds Trust Fund (UFTF) managed by the Debt Management Office (DMO). Accordingly, unclaimed dividend liabilities that reach six years are derecognised and the corresponding amount is transferred to the UFTF.

This change has been applied prospectively, consistent with IAS 8.29(b), as the change arises from new statutory requirements.

There was no restatement of comparative figures.

12.2 Assets Held for Sale (IFRS 5)

The Group has revised its accounting policy for assets classified as held for sale in order to enhance prudence and reflect recoverability conditions in the Nigerian market.

Under the previous policy, such assets were measured at the lower of carrying amount and fair value less costs to sell, in accordance with IFRS 5.

Under the new policy, assets classified as held for sale for more than 12 months are fully impaired.

12.3 Credit Risk and Default Definition for Trade Receivables

The Group updated its credit-risk assessment methodology relating to trade receivables.

Under the revised estimate, receivables that remain outstanding for more than three (3) years are considered to have experienced a significant increase in credit risk and are presumed to be in default, unless objective evidence indicates otherwise.

The change has been applied prospectively, and its effect is included in the impairment charge for the year.

13. Retirement benefit liabilities

Obligations under defined benefit plans are calculated separately for each plan by estimating the benefit amount that employees have earned in return for their service in the current and prior periods which represent employees' terminal gratuities based on qualifying years of service and applicable emoluments as per operating collective agreement. Management has decided to settle the obligations and it is probable that the amounts due will be paid. Consequently this had been incorporated in the preparation of these interim financial statements.
