Ecobank Reports 9M26 Profit Before Tax of $737 million; EPS of $0.0148 Revenue of $2.0 billion, up 12%; ROTE of 24.9%

Results Reflect Disciplined Execution of our GTR strategy, Improved Efficiency, and the Benefits of Pan-African Diversification

- **Profit attributable to ETI shareholders** was $364 million, up 17%; **EPS** was up 15% to $0.0148 (1.48 US cents).
- **Profit before tax (PBT)** was $737 million, up 12%.
- **Tangible book value per share** (TBVPS) increased 25% to $0.0815 (8.15 US cents).
- **Return on average assets** (ROA) was 2.0%; **Return on average tangible equity** (ROTE) was 24.9%.
- **Regional ROEs:** CESA 35.9%; AWA 28.0%; UEMOA 22.4%; and NIGERIA 2.6%.
- **Diversified revenue streams,** with net revenue of $2.0 billion, up 12%, and 24.5% of total revenue driven by stable, recurring fee and commission income.
- **Payment revenue** up 9% to $241 million, driven by wholesale payments, up 14% to $119 million, cards, up 5% to $77 million, and remittances, up 25% to $8.1 million. Payment revenue accounts for 12% of total revenue.
- **GTR strategy execution has improved efficiency and strengthened the franchise performance,** with the cost-to-income ratio (CIR) down 20 basis points to 47.8%. Customer deposits grew 14% to $27.5 billion, and CASA deposits grew 16%.
- **Capital position remains sound,** with e*stimated* Group Common Equity Tier 1 (CET1) ratio and Total Capital Adequacy Ratio (CAR) ratio of 12.9% and 16.9% as of 30 September 2026.

Jeremy Awori, CEO of Ecobank Group, stated: "We achieved a profit before tax of $737 million, an increase of 12% year-on-year, and a return on tangible equity of 24.9%. Net revenue also grew by 12%, reaching $2.0 billion."

Awori continued, "Our Growth, Transformation, and Returns strategy is clearly reflected in our efficiency and franchise performance. Our cost-to-income ratio was 47.8%, ahead of our 2026 target range of 48% to 50%. Customer deposits rose 14% to $27.5 billion, with current and savings accounts accounting for 85% of the total. This reflects the confidence and trust our customers have in us and in using us for their day-to-day banking. This growth has helped mitigate margin pressure from the rate-easing cycle in our markets, lifting net interest income by 12%. Payments revenue also rose 9%, supported by our continued investment in technology and digital platforms. The strength of our diversified business model was evident as profit before tax increased by 20% in Central Eastern and Southern Africa (CESA) and by 10% in Anglophone West Africa (AWA), offsetting softer results in Francophone West Africa (UEMOA) and Nigeria."

Awori added, "Our non-performing loan (NPL) ratio remained broadly stable during the quarter at 7.5%, which is within our 2026 target range of 6% to 8%, reflecting continued discipline in portfolio and risk management."

In conclusion, Awori remarked, “Energy prices, inflation, and foreign exchange volatility are real risks as we move through the remainder of the year. However, our strong deposit base, liquidity and capital position, combined with our new products and propositions, position us well to drive further growth while maintaining a disciplined approach to risk. We remain on track to meet our 2026 targets. I want to thank the Ecobank team for their dedication to serving our customers every day.”

Other Key Highlights.

- **Customer deposits** up 14% (up 14% in constant currency) to $27.5 billion. Current and savings account (CASA) deposits rose 16% to $23.3 billion. CASA deposits constitute 84.5% of customer deposits, compared with 83.0% at September 2025 and 83.3% at 31 December 2025.
- **Gross loans and advances to customers** up 6% (up 5% in constant currency) to $12.9 billion.
- **Ample liquidity buffers** with a loan-to-deposit ratio of 46.9% (9M25: 50.5%) and a loan-to-asset ratio of 36.0% (9M25: 37.6%), reflecting deliberate risk discipline and careful credit origination.
- **Non-performing loans (NPLs)** were 7.5% of total loans down from 9.4% at year-end 2025, largely driven by write-offs.
- **Accumulated impairment charges for expected credit losses (ECL) on the balance sheet** were $942 million, down 6% from year-end 2025, driven primarily by partial utilisation against loans written off in the Resolution Vehicle.

Constant Currency - Ecobank Group prepares its financial results in US dollars, while its subsidiaries report in local currencies. When converting these results to USD, Ecobank uses current exchange rates, which change frequently. The **"constant currency"** method helps eliminate the effects of foreign exchange rate changes when comparing financial results over time. This method provides a clearer view of how the business is performing, without the confusion caused by currency changes. The percentage change in constant currency shows how the business would have performed if exchange rates had remained unchanged. To calculate constant currency, we convert the 9M25 local-currency financials using the average and spot FX rates for 9M26, as needed.

SUMMARY FINANCIAL REVIEW OF THE ECOBANK GROUP

DISCUSSION OF RESULTS

Comparisons are for 9M26 versus 9M25 unless otherwise specified. Percentages in parentheses are in constant currency. Segment figures are before consolidation adjustments.

Ecobank Group

Profit attributable to ETI shareholders was $364 million, up 17% (up 8% in constant currency).

Profit before tax was $737 million, up 12% (up 7% in constant currency), reflecting revenue growth and a lower cost of risk.

Net revenue was $2.0 billion, up 12% (up 6% in constant currency). Net interest income was $1.1 billion, up 12% (up 6% in constant currency). Non-interest revenue was $832 million, up 12% (up 6% in constant currency).

Net interest income was $1.1 billion, up 12% (up 6% in constant currency), driven mainly by higher low-cost CASA deposit balances, which helped mitigate margin pressure during a monetary easing cycle. Term loans,

personal loans, and microloans also grew, particularly in the AWA and CESA regions. Net interest margin was 5.84%, up 5 basis points. Non-interest revenue was $832 million, up 12% (up 6% in constant currency). Net fees and commissions were $478 million, up 10%. This increase was largely driven by higher cash management, credit-related services, and card fees, indicating strong recurring revenue and a robust customer base. Net trading and foreign exchange income was $312 million, up 7%. Of this, foreign exchange translation gains were $47 million, up from a $25 million loss the previous year. However, FX trading gains fell 26% to $194 million, mainly driven by regulatory changes in the UEMOA FX market. This decline was somewhat offset by a 38% rise in trading income from securities, driven by decreasing yields on government securities in our key markets. Other operating income rose 131% to $38 million.

Operating expenses were $938 million, up 12% (up 5% in constant currency). Higher staff costs drove the increase, up 12% to $413 million, due to training and additional sales and service staff, while other operating expenses rose 12% to $464 million, driven primarily by technology investment. Revenue growth continued to offset investment in people and technology, improving the cost-to-income ratio by 20 basis points to 47.8%.

Table 3: Group-wide impairments charges

For the period ended 30 September (in millions of US dollars)	**2026**	2025	% Chg 9M26 vs 9M25	% Chg in C. Currency
Gross impairment charges on loans and advances	**(341)**	(343)	(0.5)%	(2)%
Less: recoveries and impairment charge releases	**111**	120	(8)%	(8)%
Net impairment charges on loans and advances	**(231)**	(223)	3%	1%
Impairment charges on other financial assets	**(57)**	(32)	78%	66%
Impairment charges on financial assets	**(287)**	**(255)**	**13%**	**9%**
Cost-of-risk	**2.39%**	2.62%		

Impairment charges on financial assets were $287 million, up 13% (up 9% in constant currency). Net impairment charges on loans and advances were $231 million, up 3% (up 1% in constant currency), as an 8% decrease in recoveries and releases partially offset a marginal decrease in gross impairment charges on loans and advances. Impairment charges on other financial assets were $57 million, up 78%. Cost of risk was 2.39%, down 23 basis points from the prior year's period.

Income tax expense was $221 million, up 13%. The effective tax rate was 30.0%, unchanged.

Corporate & Investment Banking (CIB)

Profit before tax was $542 million, down 1% (flat in constant currency), as an 11% increase in pre-provision pre-tax operating profit was largely offset by an 111% increase in impairment charges.

Net revenue was $1.1 billion, up 12% (up 10% in constant currency). Net interest income was $659 million, up 13% (up 12% in constant currency), driven by higher interest income on loans and securities and margin support from lower cost of deposits. Non-interest revenue was $399 million, up 10% (up 1% in constant currency), driven primarily by FX translation gains, higher management fees in the Securities and Wealth Management business, Cash Management, and Trade Finance Service fees.

Consumer & Commercial Banking (CCB)

Profit before tax was $340 million, up 2% (down 9% in constant currency), with modest revenue growth offset by higher impairment charges.

Net revenue was $953 million, up 10% (up 1% in constant currency). Net interest income was $530 million, up 14% (up 2% in constant currency), with income on deposit balances negatively impacted by margin pressure from monetary easing. Non-interest revenue was $424 million, up 6% (down 1% in constant currency), driven primarily by lower FX trading gains due to regulatory changes in the UEMOA FX market.

Table 4: Selected Balance Sheet Information

(1) The year-on-year growth of the sum of the average last four quarters (EOP) of loans and customer deposits for the period. Showing averages help to smooth out any one-off spikes within the year. (2) ETI shareholders' equity divided by end-of-period ordinary shares outstanding (3) Tangible ETI shareholders' equity divided by end-of-period ordinary shares outstanding. Tangible ETI shareholders' equity is ETI shareholders' equity less goodwill and intangible assets. EOP = End -of-period. Average deposits and loans is on a quarterly basis

Loans

Gross loans and advances to customers were $12.9 billion, up 6% (up 5% in constant currency). Year-to-date, gross loans were up 1%, with growth in AWA and CESA partially offset by declines in NIGERIA and UEMOA. UEMOA loans were $5.2 billion, down 3% (down 1% in constant currency), driven by CIB loans. NIGERIA loans were $1.5 billion, down 6% (down 13% in constant currency), reflecting curtailed lending as the focus shifts toward addressing legacy asset-quality issues and restoring regulatory capital adequacy. AWA loans were $2.5 billion, up 33% (up 29% in constant currency), predominantly driven by CCB. CESA loans were $3.0 billion, up 31% (up 31% in constant currency), with growth across all business lines.

CIB loans were $8.6 billion, flat compared to prior year period (up 1% in constant currency), with growth in term loans, partially offset by trade loans. CCB loans were $4.3 billion, up 21% (up 16% in constant currency), driven by microloans and personal loans.

Deposits and funding

Customer deposits were $27.5 billion, up 14% (up 14% in constant currency) and 9% year-to-date. CASA deposits were $23.3 billion, or 84.5% of customer deposits, compared with 83.0% at 30 September 2025 and 83.3% at 31 December 2025.

CIB deposits were $11.7 billion, up 15% (up 18% in constant currency), driven by higher transaction volumes and anchor relationships, particularly with international organisations. CCB deposits were $15.8 billion, up 13% (up 11% in constant currency), driven by primary banking relationships, a value-chain strategy, more products held per customer, mobile and digital banking, and savings campaigns. UEMOA deposits were $10.1 billion, up 8% (up 10% in constant currency). NIGERIA deposits were $2.9 billion, up 16% (up 8% in constant currency). AWA deposits were $6.8 billion, up 21% (up 18% in constant currency). CESA deposits were $7.5 billion, up 17% (up 16% in constant currency).

The increase in CASA deposits reduced the cost of customer deposits by 15 basis points to 1.27%. The average cost of funding decreased by 31 basis points to 1.97%. The loan-to-deposit ratio was 46.9%, compared with 50.5%.

Table 5: Asset Quality

As at: (in millions of US dollars)	**30 Sep 2026**	31 Dec 2025	30 Sep 2025	% Chg 9M26 vs 9M25	YTD	YoY % Chg in C. Currency

NPL coverage ratio	**97.0%**	83.3%	129.3%	-		-
Stage 3 coverage ratio	**67.5%**	62.2%	72.3%	-		-

Asset quality

Non-performing loans were $971 million, or 7.5% of gross loans, compared with $1.2 billion, or 9.4%, at 31 December 2025 and $647 million, or 5.3%, at 30 September 2025. The $232 million year-to-date reduction was driven mainly by the $200 million write-off of loans in the Resolution Vehicle, as well as collections, recoveries, and staging upgrades, partially offset by interest accruals and stage migrations.

Accumulated ECL allowances were $942 million, up 13% and down 6% year-to-date, predominantly driven by utilisation against the Resolution Vehicle write-off. The allowance includes $503 million of centrally held ECL, built predominantly for risks in NIGERIA. Accumulated ECL was 7.3% of gross loans, compared with 7.8% at 31 December 2025 and 6.9% at 30 September 2025. The NPL coverage ratio was 97.0%, up from 83.3% at 31 December 2025, and the Stage 3 coverage ratio was 67.5%, up from 62.2% at 31 December 2025.

(1) Basel II/III CET1, Tier 1 and Total CAR ratios of 12.9%, 13.5% and 16.9% are estimates as of 30 Sept 2026 and subject to change.
We report regulatory capital ratios semi-annually (submission deadline of 30 April for CAR for 31 December and submission deadline of 31 October for CAR for 30 June) to the regulator, the Central Bank of West African States (BCEAO). 30 June 2026 CAR numbers will be finalised ahead of a 31 October 2026 deadline for submission to BCEAO

Capital and liquidity

As of 30 September 2026, the **Group's equity attributable to ETI shareholders** was $2.0 billion, up 6% from $1.9 billion at 31 December 2025, driven primarily by profit attributable to ETI shareholders of $364 million, partially offset by foreign currency translation reserve (FCTR) losses and the $40 million dividend payout related to 2025.

Ecobank’s capital ratios remained well above the minimum required by regulators. As of 30 September 2026, the Group’s estimated capital adequacy ratios indicate that the Common Equity Tier 1 (CET1) ratio is 12.9%, the Tier 1 Capital ratio is 13.5%, and the Total Capital Adequacy Ratio (CAR) is 16.9%. The CET1 and Tier 1 CAR estimates for September 2026 remained largely stable compared to December 2025. During the year, ETI issued a $450 million Tier 2 bond, replacing the previous $350 million Tier 2 bond, for a net increase of $100 million in ETI's Tier 2 instruments. The Group also replaced $75 million of existing AT1 with a new $70 million instrument, effectively reducing the Group's AT1 instruments by $5 million.

REGIONAL PERFORMANCE

We categorise the Group's pan-African operations into four geographical regions. These reportable regions are Francophone West Africa (UEMOA), NIGERIA, Anglophone West Africa (AWA), and Central, Eastern and Southern Africa (CESA). Accordingly, the financial results of the constituent affiliates of Ecobank Development Corporation (EDC), the Group's Investment Banking (IB) and Securities, Wealth, and Asset Management (SWAM) businesses across our geographic footprint are reported within their country of domicile and therefore in the applicable regions of UEMOA, NIGERIA, AWA, and CESA. In addition, the Group categorises its Paris banking subsidiary and representative offices in Beijing, London, and Dubai as International.

1. ETI and Others comprise the financial results of ETI (parent company), eProcess (the Group's shared services technology company), other ETI-affiliates and structured entities, and the net impact of eliminations from the Group's accounting consolidation.
2. ROE for the Regions are computed using profit after tax divided by the average end-of-period (EOP) total equity. However, the ROE for the Group, is computed using profit available to ETI divided by average EOP shareholders' equity.
Note: Amounts are presented in rounded US dollars; consequently, certain totals and percentage changes may not sum or recalculate precisely.

Comparisons are for 9M26 versus 9M25 unless otherwise specified. Percentages in parentheses are in constant currency.

Return on equity (ROE)	**22.4%**	27.1%	-	-

Francophone West Africa (UEMOA) Region

Profit before tax was $266 million, down 3% (down 5% in constant currency), as a 2% increase in pre-provision, pre-tax operating profit was largely offset by a 46% increase in impairment charges. ROE was 22.4%, compared with 27.1%.

Net revenue was $588 million, up 4% (up 1% in constant currency). Net interest income was $387 million, up 8% (up 5% in constant currency), reflecting net interest margin expansion, partially offset by lower interest-earning balances. Non-interest revenue was $200 million, down 3% (down 6% in constant currency), reflecting the adverse impact of regulatory changes in the UEMOA FX market on FX trading income, partially offset by growth in cash management and credit-related fees.

Operating expenses were $277 million, up 6% (up 2% in constant currency), driven by employee-related expenses, statutory charges and business promotion. The cost-to-income ratio was 47.1%, compared with 46.3%.

Impairment charges on financial assets were $45 million, up 46% (up 42% in constant currency), driven by both CIB and CCB.

Gross loans fell 3% (1% in constant currency) to $5.2 billion, while deposits rose 8% (10% in constant currency) to $10.1 billion. The NPL ratio was 2.1%, with NPL coverage of 88.3%.

NIGERIA Region

Profit before tax was $7 million, down 45% (down 51% in constant currency), as a 22% (up 8% in constant currency) increase in pre-provision pre-tax operating profit was more than offset by a 60% increase in impairment charges (up 41% in constant currency). ROE was 2.6%, compared with 4.4%.

Net revenue was $126 million, up 11% (down 1% in constant currency). Net interest income was $77 million, down 1% (down 12% in constant currency), driven by margin compression from falling government bond yields and lower interest-earning asset balances. Net interest margin was 4.04%, down from 5.44% in the prior year period. Non-interest revenue was $49 million, up 36% (up 21% in constant currency), driven primarily by securities trading income.

Operating expenses were $81 million, up 6% (down 6% in constant currency), reflecting lower underlying costs due to continued cost management. The cost-to-income ratio was 64.4%, compared with 67.5%.

Impairment charges on financial assets were $37 million, up 60% (up 41% in constant currency), predominantly driven by CIB.

Gross loans were $1.5 billion, down 6% (down 13% in constant currency), reflecting curtailed lending as the focus shifts toward addressing legacy asset-quality issues and restoring regulatory capital adequacy. Deposits were $2.9 billion, up 16% (up 8% in constant currency), driven primarily by savings campaigns. Non-performing loans were $688 million, or 44.8% of loans, with regional NPL coverage of 19.7%. The centrally held ECL of $503 million at Group level was built primarily for risks in NIGERIA.

Anglophone West Africa (AWA)

Period ended: (in millions of US dollars)	30 Sep 2026	30 Sep 2025	% Chg 9M26 vs 9M25	% Chg in C. Currency

Return on equity (ROE)	**28.0%**	38.2%	-	-

Anglophone West Africa (AWA) Region

Profit before tax was $337 million, up 10% (up 5% in constant currency), predominantly driven by lower impairment charges. ROE was 28.0%, compared with 38.2%.

Net revenue was $571 million, up 9% (up 2% in constant currency). Net interest income was $343 million, up 7% (flat in constant currency), as the lower interest-rate environment, particularly in Ghana, reduced the net interest margin to 7.44% from 8.84%. Non-interest revenue was $228 million, up 12% (up 7% in constant currency). Net trading income rose 29%, and fee and commission revenue rose 15%, driven by account-based fees.

Operating expenses were $211 million, up 12% (up 2% in constant currency). The cost-to-income ratio was 37.0%, compared with 39.1%.

Impairment charges on financial assets were $23 million, down 17% (down 24% in constant currency), as lower gross impairment charges more than offset reduced loan recoveries.

Gross loans were $2.5 billion, up 33% (up 29% in constant currency), and deposits were $6.8 billion, up 21% (up 18% in constant currency). The NPL ratio improved to 4.9% from 8.5% at FY25, and NPL coverage increased to 88.8% from 65.7% at FY25.

Central, Eastern and Southern Africa (CESA)

Period ended: (in millions of US dollars)	**30 Sep 2026**	30 Sep 2025	% Chg 9M26 vs 9M25	% Chg in C. Currency
Net interest income	**405**	329	23%	19%
Non-interest revenue	**316**	279	13%	7%
Net revenues	**720**	608	19%	13%

Return on equity (ROE)	**35.9%**	36.9%	-	-

Central, Eastern and Southern African (CESA) Region

Profit before tax was $392 million, up 20% (up 17% in constant currency), driven mainly by a 19% (up 15% in constant currency) increase in pre-provision pre-tax operating profit. ROE was 35.9%, compared with 36.9%.

Net revenue was $720 million, up 19% (up 13% in constant currency). Net interest income was $405 million, up 23% (up 19% in constant currency), driven mainly by higher investment securities balances; the net interest margin was 7.12%, down from 7.19%. Non-interest revenue was $316 million, up 13% (up 7% in constant currency), driven by client foreign currency transactions and card and deposit fees from higher consumer transaction volumes.

Operating expenses were $307 million, up 18% (up 11% in constant currency). The cost-to-income ratio was 42.6%, compared with 43.0%.

Impairment charges on financial assets were $21 million, up 3% (down 6% in constant currency), reflecting lower non-performing loans.

Gross loans were $3.0 billion, up 31% (up 31% in constant currency), and deposits were $7.5 billion, up 17% (up 16% in constant currency). The NPL ratio was 1.8%, with NPL coverage of 179.6%.

1. The CET1 ratio as at 30 September 2026 is an estimate only. We report our regulatory capital ratios twice a year, on 31 December and 30 June. The submission deadlines for these reports to the regulator, the Central Bank of West African States (BCEAO), are 30 April and 31 October, respectively.
2. ROTE is profit available (attributable) to ETI shareholders divided by the average end-of-period (EOP) tangible shareholders' equity

About Ecobank Transnational Incorporated ('ETI' or 'The Group')
Ecobank Group is the leading private pan-African financial services group with unrivalled African expertise. Present in 34 sub-Saharan African countries, France, the UK, UAE, and China, its unique pan-African platform provides a single gateway for payments, cash management, trade and investment. The Group employs about 14,000 people and serves over 32 million customers, providing Commercial, Corporate and Investment Banking as well as payments products, services and solutions across multiple channels, including digital. For further information, please visit ecobank.com.

Cautionary note regarding forward-looking statements
Certain statements in this document are "forward-looking statements". These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from those included in these statements.

Constant Currency - Ecobank Group prepares its financial results in US dollars, while its subsidiaries report in local currencies. When converting these results to USD, Ecobank uses current exchange rates, which change frequently. The **"constant currency"** method helps eliminate the effects of foreign exchange rate changes when comparing financial results over time. This method provides a clearer view of how the business is performing, without the confusion caused by currency changes. The percentage change in constant currency shows how the business would have performed if exchange rates had remained unchanged. To calculate constant currency, we convert the 9M 2025 local-currency financials using the average and spot FX rates for 9M26, as needed.

Earnings Call Information:

Ecobank will not hold an earnings conference call to discuss the unaudited financial results for the nine months ended 30 September 2026.

The 9M26 financial results, submitted to the NGX, BRVM and GSE, can be accessed, including the Earnings Press Release, by visiting www.ecobank.com. If you should have any questions related to these results, please contact Ecobank Investor Relations via ir@ecobank.com
